CHANGES FOR PREREGISTERED STUDENTS ONLY
AUGUST 13—SEPTEMBER 12

IN-PERSON REGISTRATION BY APPOINTMENT ONLY.
JULY 9—SEPTEMBER 25

CLASSES BEGIN MONDAY, OCTOBER 1, AND END WEDNESDAY, DECEMBER 12

FINAL EXAMINATIONS BEGIN THURSDAY, DECEMBER 13

QUARTER ENDS THURSDAY, DECEMBER 20

SEE "OFFICIAL NOTICES" IN THE UNIVERSITY OF WASHINGTON *DAILY* FOR CHANGES TO THIS *TIME SCHEDULE*. CHANGES ARE ALSO POSTED IN THE SECOND-FLOOR LOBBY, SCHMITZ HALL.

>>> This symbol in the margin of the *Time Schedule* indicates that the section requires an entry card. Entry cards must accompany section requests on the Mark-Sense Registration Form. Entry cards may be obtained at locations listed on the entry card distribution list on page xxv—xxvii.

GENERAL INFORMATION

See each quarter's registration poster for exact dates and deadlines.

It is the University's expectation that a student will follow University rules and regulations as they are stated in the *General Catalog*. In instances where no appeal procedure is spelled out and the student is persuaded that a special set of circumstances makes appeal reasonable, he may appeal the application of specific rules or regulations to the Office of the Dean of the school or college in which he is enrolled in the case of an academic matter, or to the Office of Student Affairs in the case of a nonacademic matter. These offices will either render a decision on the appeal or refer the student to the proper office for a decision.

1. All students currently in school who plan to register for the following quarter must make a \$50.00 advance payment of tuition and fees to guarantee their place for the next quarter. Continuing matriculated students will be allowed to complete their preregistration only if the \$50.00 prepayment has been made. Matriculated students who pay their \$50.00 but do not complete preregistration may obtain an appointment to go through in-person registration.

2. It is the student's responsibility to plan and select the required courses for his degree objective. Consult the *General Catalog* for degree requirements. Be sure to check also with your department advisory office because not all the material in the *Catalog* is up to date.

3. Please note the following:

- a. *Selective Service* requires full-time registration to maintain student status.
- b. International students on student visas must register for a minimum of 12 credits per quarter; with graduate status, for 9 credits.

c. *Veterans*: Minimum full-time load exclusive of lower-division ROTC and physical education activity is as follows:

P.L. 815 and 894 (Disabled Veterans): Official Programs must be approved by training officers each quarter.

P.L. 358 (Veterans Act of 1966): 12 credits.

P.L. 634 (Children of Deceased and Totally Disabled Veterans): 12 credits.

Veterans who are graduate and/or Summer Quarter students should consult with the Office of Veteran Affairs regarding minimum credits required to be full-time students.

d. *Social Security*: Students who receive benefit payments from the Social Security Administration or Railroad Retirement Board must register for 12 credits for full-time status.

REGISTRATION INSTRUCTIONS

1. Obtain an Official Mark-Sense Program Sheet from your adviser's office.

2. Print with a **BLACK LEAD PENCIL** on your Mark-Sense Program Sheet.

- a. Fill in all information, including your Permanent Student Number.
- b. Follow the detailed instructions on the work sheet.
- c. Check to be certain that you have the prerequisites, as indicated in the *General Catalog* and by your department, for the courses you select.
- d. Obtain course entry cards where indicated by the symbol > > > in the margin of the *Time Schedule*. Students will not be scheduled unless the registration form is accompanied by an entry card. An entry card alone is not sufficient. The course must also be requested on the Mark-Sense Registration Form.
- e. If you have a known conflict of hours for which some adjustment could be made, obtain permission for the conflict from the departments concerned. Mark the "approved-conflict" boxes on the Mark-Sense Program Sheet for those courses in conflict.
- f. Take your Mark-Sense Program Sheet to your adviser for his signature, if required.
- g. If you work or require free time when classes must not be scheduled, mark the Free Time Boxes that correspond to the times you *do not* want classes assigned.

3. Fee payment.

- a. You will be mailed a fee statement during the third week of the quarter.

b. Mail your fee payment to the Cashier in the envelope provided, before the due date indicated.

c. If payment is not received by the date specified on your fee statement, your registration will be cancelled and you will continue to owe one-half of your tuition and fees plus \$25.00 enrollment service charge.

d. *Students who reregister after cancellation for non-payment of fees will be assessed a \$15.00 late registration service charge.*

PREREGISTRATION ONLY

1. Deposit your Mark-Sense Program Sheet in any of the following places: second floor, Schmitz Hall; main lobby, Health Sciences Building; Arts and Sciences Advisory Office, B10 Padelford. (Engineering students should go to 353 Loew Hall.)

2. Follow posted instructions.

3. Undergraduates will not be scheduled for more than 19 credits. Those who wish to obtain more than 19 credits must request them on or after the first day of classes, during the official change period. Appointments are required.

4. You will be mailed a copy of your scheduled program in July.

IN-PERSON REGISTRATION ONLY

1. On the day and time of your appointment:

- a. Present your approved Mark-Sense Program Sheet and your appointment card at the Registration Office, second floor, Schmitz Hall. (Engineering students go to 353 Loew Hall.)

b. Undergraduates will not be scheduled for more than 19 credits. Those who wish to obtain more than 19 credits must request them on or after the first day of classes, during the official change period. Appointments are required.

LATE REGISTRATION

Students who register after the official registration period will be charged a \$15 late registration fee.

CHANGE OF PROGRAM

Drop or Add

1. Preregistered students may change their programs August 13–September 12, without appointment, at 264 Schmitz Hall. (Engineering students go to 353 Loew, September 4–12 only.) Undergraduate students may not register for more than 19 credits until the later change period.

2. Students who change their programs during the first week of school require appointments and report to the Sections branch office, Undergraduate Library (cafeteria area). Engineering students do not need appointments; they go to 353 Loew.

3. Obtain change appointments for the first week of school change period at Window 2, Second floor, Schmitz Hall, beginning September 24.

4. The following guidelines should be observed:

a. Obtain a Change of Program card at your advisory office and have it approved by your adviser, if required. Obtain course entry cards, where indicated by the symbol > > > in this *Time Schedule*, for any courses that you plan to enter. All changes involving Freshman English courses must be authorized in writing by the Freshman English office, A11 Padelford.

b. Students who drop one or more courses may qualify for a lower level of fees, depending on the number of credits the student continues to carry. If the change is made during the official change period, fees will be assessed at the lower rate. If the change is made after the official change period and through the thirtieth calendar day of the quarter, half the difference between the two categories will be assessed in addition to the lower tuition rate. If the change is made after the thirtieth calendar day of the quarter, there is no reduction in the amount of tuition and fees owed.

c. After the official change period, a service charge of \$5 will be assessed for each change of program, change of section, or drop from a course, or any number of changes that are made to a program at the same time.

d. Undergraduates in the College of Arts and Sciences must have the Dean's permission to carry more than 20 credits.

e. Students adding courses after the 15th calendar day must have the Dean's and instructor's permission.

Satisfactory/Not Satisfactory

Students may elect to take certain courses on a Satisfactory/Not Satisfactory basis. Advisers should be consulted and in no case will students be allowed to register for more than one course or 6 credits on a Satisfactory/Not Satisfactory basis on a given quarter. No more than 25 credits will apply to an undergraduate degree. S/NS must be elected or dropped by the fifth day of the quarter. Students earning grades of A, B or C in undergraduate courses receive

a grade of S (Satisfactory), while grades of D and E are recorded as NS (Not Satisfactory). Grades of A and B are recorded as S (Satisfactory) in graduate courses, while C, D and E are NS (Not Satisfactory.) In cases of withdrawal grades, a PW is recorded, but an EW is converted to NS (Not Satisfactory). Neither S nor NS are included in the grade-point average. N, I and X are recorded until the instructor reports the final grade.

Credit/No Credit Program

The University offers an undergraduate grading option called Credit/No Credit. Students entering this program automatically take all courses on a CR/NC basis. This program is not applicable to certain degrees and advisers should be consulted. Students must enter and exit the CR/NC program no later than the first week of the quarter the change is to be effective. Further information is available at the Registration Office, Window 3, second floor of Schmitz Hall.

Credit/No Credit-Only Courses

Some courses are offered on a CR/NC-only basis. These courses may be taken only on this basis and it is not necessary to be in the special Credit/No Credit program to take these courses. It is not necessary to register S/NS to take these courses, as the only grades assigned by the instructor are CR (Credit) or NC (No Credit). Neither CR nor NC are included in the grade-point average. In cases of withdrawal grades, a PW is recorded, but an EW is converted to NC (No Credit). N, I and X are recorded until the instructor reports the final grade.

WITHDRAWAL FROM THE UNIVERSITY

1. Obtain a withdrawal form from your advisory office, and have it approved by your adviser.

2. Present the withdrawal form to the Withdrawal Office, Sections, 264 Schmitz Hall. *Withdrawal is effective the date the form is received by the Withdrawal Office.* Withdrawal may be backdated for academic purposes by academic deans, but fees owed will be based on the date the withdrawal form is received at the Withdrawal Office.

The following fee schedule will be followed:

a. Students who officially withdraw from the University prior to the sixth day of instruction of the quarter forfeit the \$50 advance payment, but are not subject to any additional payment of tuition and fees. The \$50 advance fee payment is not refundable or transferable to another individual or quarter.

b. Students who officially withdraw from the sixth day of instruction through the thirtieth calendar day of the quarter are subject to payment of one-half of their total fees plus a \$25 enrollment service charge.

c. Students withdrawing after the thirtieth calendar day receive no refund of fees.

3. Students who wish to appeal assessed fees may contact the University Comptroller's Office, 98 Administration Building.

4. Courses dropped after the first 15 calendar days (including Withdrawal from the University) are graded with either a PW (Passing Withdrawal) or EW (Failing Withdrawal).

Make-ups Incomplete Removals Conflicts	When mutually agreeable to faculty and students concerned, provided scheduled <i>no later than</i> Thursday, December 20.				

Final examinations should be administered according to the above schedule. If the final examination is given at a time earlier than that indicated above, the last meeting of the class shall be the examination period indicated in the above table.

Classes not assigned by the above schedules may use any time during the examination days that is mutually agreeable to faculty and students concerned, provided it is scheduled no later than Thursday, December 20, and no student has conflict with another examination.

Instructors of 5-credit courses that do not occupy the same classroom five days a week, who wish to give a three-hour examination, must ascertain whether or not there is a 2- or 3-credit course occupying the classroom on the other days of the week that will be holding an examination scheduled for the 10:30 hour. If that proves to be the case, the instructor must arrange for another examination room by calling Room Assignments 543-1080.

All students in undergraduate courses shall be required to take final examinations, provided that in a course for which an examination is not an appropriate test of the work covered, the instructor may dispense with the final

examination. Working students are responsible for arranging their work hours to enable them to attend the final examinations.

A student absent from a scheduled final examination, either by permission of his dean or through sickness or other unavoidable cause, shall be given a grade of Incomplete if his work in that course has been satisfactory until the time of his absence. He may remove this Incomplete in the manner provided for the removing of Incomplete grades. In all other cases of absence from the scheduled final examination, a student should be given a grade of E.

*Classes in which the entire class meets at the same hour every day may use 8:30-11:20 or 2:30-5:20 for the examination; but in 5-credit courses that meet Monday and Wednesday, or Monday, Wednesday, and Friday for lecture, with quizzes or laboratories at various hours, there may be students who have other classes meeting on Tuesday and Thursday at the same hours as the Monday and Wednesday, or Monday, Wednesday, and Friday lectures. In order not to penalize those students who will have an examination in the Tuesday and Thursday course from 10:30-12:20 or 4:30-6:20 the same day, and to ensure equity, the examination must be terminated at the end of one hour and fifty minutes and all examination papers must be collected.

COLLEGE OF ARCHITECTURE AND URBAN PLANNING

ARCHITECTURE

NEW

313 Introduction to Architectural Photography
(2)

An introduction to the basic elements and processes of architectural photography to include: camera controls, exposure technique, and photo processing. Student must provide his own camera with lens, shutter, and aperture controls. Prerequisites, 310, 311, and permission.

NEW

314 Introduction to Architectural Sketching
(2)

Skill development in conceptualization of forms and their relationships through observation and recording in freehand graphic manner. The course deals with proportion, scales, light effect, value, texture, and various perspective techniques. Prerequisites, 310, 311, and permission.

NEW

413 Architectural Photography Projects (2)
(2)

Projects involving the study of illumination and perspective as related to the representation and perception of space, form, color, texture, pattern, and scale of architectural subjects. Student must provide his own camera with lens, shutter, and aperture controls. Prerequisites, 313 and permission.

CHG

414 Replaces 510.

NEW

596 Field Work in Professional Practice (9)

On-location study under the supervision of a practicing professional involved in an aspect of environmental design. The context and content of study shall be proposed by the student and entail experience demonstrated to be both consistent with and expansive upon the student's program of study. Weekly seminars to discuss and evaluate participation will be required in addition to field work. Prerequisite, permission of the Professional Studies Committee.

NEW

598 Special Topics for Graduate Students
(1-4)

Systematic study of specialized subject matter. Topic varies for each quarter depending upon current interest and needs and is announced in the preceding quarter. May be repeated for credit. Prerequisites, graduate standing and permission.

NEW

599 Terminal Project for Professional Degree
(*)

Terminal project for non-thesis graduate professional program in architecture, requiring a supervisory committee as with thesis option. Prerequisite, graduate standing.

LANDSCAPE ARCHITECTURE

NEW

470 Landscape Architecture Tutorial (2,
max. 6)

Tutorial course concerned with various aspects of project organization, programming, scheduling of work loads, graphic and verbal communication problems, data collection methods and interpretation, methodologies for landscape planting and design. Prerequisites, fourth- or fifth-year standing and one quarter advance permission.

URBAN PLANNING

NEW

423 Introduction to Urban Design (3)

Definitions and examples of basic urban design; importance of urban physical form in the attainment of social objectives; heritage of urban design; designing parts of the city; theories of city building; the role of urban design in the field of architecture, landscape architecture, civil engineering, and urban planning. Prerequisites, ARCH 300, 310, and 201, 311, or 3 quarters of basic design.

COLLEGE OF ARTS AND SCIENCES

ANTHROPOLOGY

Anthropology

NEW

ANTH

488 Practicum in African Languages (3)

Introduction to specific African languages with an emphasis on teaching skills which can be acquired in a language laboratory setting. One language will be taught each time the course is offered. Shona will be offered in 1973. Other languages are Hausa, Yoruba, Twi, Duala. Students will be encouraged to converse with each other using skills learned via tapes and explanations supplied by the instructor. Prerequisite, 487.

ASTRONOMY

NEW
500 Seminar in Elementary Astronomy Instruction (1)

Preparation of lecture and workshop materials with emphasis on demonstration and visual aids, and on evaluation of students' progress.

NEW
576 Astronomy Colloquium (1)

Current research topics in astronomy and astrophysics. Prerequisite, permission.

ATMOSPHERIC SCIENCES

NEW
501 Fundamentals of Physical and Synoptic Meteorology (6)

Fundamentals of hydrostatics, thermodynamics, radiative transfer with application to planetary atmospheres. Global energy balance and general circulation. Atmospheric chemistry. Cloud physics. Elementary synoptic analysis. Description and qualitative physical interpretation of atmospheric composition, structure, and motions.

NEW
521 Seminar in Atmospheric Dynamics (*)

Directed at current research in the subject. For advanced students. Prerequisite, permission.

NEW
523 Seminar in Cloud Physics (*)

Directed at current research in the subject. For advanced students. Prerequisite, permission.

NEW
524 Seminar in Energy Transfer (*)

Directed at current research in the subject. For advanced students. Prerequisite, permission.

NEW
526 Seminar in Glaciology (*)

Directed at current research in the subject. For advanced students. Prerequisite, permission.

BIOLOGY

NEW
103 Introduction to Biology (5)

Introduction to basic biological concepts within the context of human biology. For Educational Opportunity Program. CR/NC only.

BOTANY

NEW
433 Advanced Systematics (5)

Taxonomic theory and practice; nomenclature; classification systems, historical and modern; individual project required. Prerequisites, 113 and permission. (Offered alternate years.)

NEW
441 Comparative Morphology of Vascular Plants
(5)

Study of the essential characters of specialization in the major plant groups. An attempt to trace the derivation of diversity of structures as a basis for major categories of classification. Problems of morphology and systematics. Prerequisite, Biology 101-102 or 212, or Botany 220.

NEW
501 Tutorial in Botany (2, max. 10)

Small group study and discussion, as a tutorial, of a specified topic in the plant sciences, largely in fields not covered by courses and existing special-area seminars. Impetus for registration would come from two or more graduate students finding a faculty member who shares with them an interest in the topic. Prerequisite, permission.

CHEMISTRY

NEW
105 Introduction to General Chemistry (3)

For students without a full year of high school chemistry who plan to take 140 or 145 at a later date. Basic introduction to chemistry for physical science, biological science, pre-medical, and engineering majors who intend to take a year or more of college chemistry. Emphasis on quantitative reasoning. For students with high school chemistry not more than 5 units will be allowed from among 105, 100, 101, and 140 or 145.

Lecture, seminar, and/or team study with topics varying from quarter to quarter.

NEW
499 Undergraduate Research (*, max. 20)

Individual or team research of selected environmental topics. Prerequisite, permission.

GENERAL AND INTERDISCIPLINARY STUDIES

Descriptions of GIS course offerings are available during preregistration and in-person registration in the Office for Undergraduate Studies, C14 Padelford Hall.

GENETICS

NEW
584 Genetic and Biochemical Analysis by Electron Microscopy (1-5)

Practical application of electron microscopic methods for determining cellular and macromolecular structure, with emphasis on genetic systems. Prerequisite, permission.

GEOGRAPHY

NEW
447 Geography of Air Transportation (3)

Geographic analysis of world air routes, passenger and cargo flows, and airport activities; consideration of physical, economic, political and institutional determinants. Recommended, 100 or 207.

GEOPHYSICS

NEW
403 Geophysics: The Earth (3)

Description of the earth and its interior including knowledge derived from study of the earth's gravity, magnetism, and heat flow as well as from the field of seismology. Discussion of the unifying concepts of plate tectonic theory toward understanding of the earth's outer structure. Quantitative approaches to problems using the techniques of potential theory. Eigenfunction expansions, spherical harmonic analysis, and Laplace transform theory are applied to problems related to the earth's gravity field, earth tides, and heat flow in the earth. Prerequisite, Mathematics 238 or equivalent.

NEW
404 Geophysics: The Ocean (3)

Introduction to geophysical fluid dynamics. An overview of fluids in geophysics with emphasis on the oceans. A non-rigorous development of the equations of motion with examples drawn from dynamical oceanography. Prerequisite, Mathematics 238 or equivalent.

NEW
511 Structure of the Upper Atmosphere (3)

Structure of atmosphere above the tropopause. Roles of photochemistry, diffusion, and escape in determining composition. Absorption and emission of radiation, and thermal structure. Formation and properties of the ionosphere. Offered jointly with Atmospheric Sciences 531. Prerequisite, Physics 320.

GERMANIC LANGUAGES AND LITERATURE

NEW
104 Individualized First-Year German (1-15)

Individualized approach to elementary German instruction. Students will progress at their own pace. NEW

448 Directed Studies in Endodontics (*)

See Community Dentistry 449 for course description.

NEW

471 Endodontic Technic (1)

Lecture-laboratory in root canal therapy in terms of present-day concepts, with emphasis on a definite, simplified technic. Treatment of extracted teeth as practice for clinical cases.

NEW

526 Advanced Topics in Endodontics (2)

Use of the bacteriologic culture, resorptive phenomena, differential diagnosis of oral pain, evaluation of case success, and replantation are representative topics. Course method will include critical evaluation of presently accepted concepts and the better known literature upon which they are based followed by study of the applicability and validity of the biologic concepts involved and of the historical development of present dicta.

NEW

530 Calcification of Oral Tissues (2)

Present concepts of the formation of dentin, enamel, cementum, and bone; role of vitamins, P. T. H., Calcitonin, serum Ca^{++} and PO_4^{--} levels, inhibitors, and phosphatases in matrix and crystal deposition; calcification, dissolution, and repair.

ORAL BIOLOGY

NEW

448 Directed Studies in Oral Biology (*)

See Community Dentistry 449 for course description.

NEW
449 Undergraduate Research Topics in Oral
Biology (*)

Individual research on topics selected in collaboration with a faculty member. Prerequisite, permission.

NEW
532 Clinical Stomatology (5)

Diseases of the oral cavity and jaw bones will first be presented just as the practitioner encounters it--detailed clinical picture, i.e., the complaint together with the clinical signs and symptoms. When pertinent, laboratory tests and procedures deemed relevant and essential to establishing a diagnosis will be discussed. Similar approaches are followed when radiographic findings, the results of surgical exploration, or the consequences of treatment contribute to or are found to be necessary for the establishment of a radiographic, surgical, or therapeutic diagnosis.

NEW
545 General Oral Biology (3)

Basic interdisciplinary course designed for graduate students in oral biology and other sciences. The course is intended to acquaint students with the breadth and interdisciplinary nature of the field and to present the current state of scientific knowledge in the area. Includes discussion of evolutionary trends in the development of the vertebrate head and jaw, the biology of soft tissues of the mouth, the process of secretion, and the biology of dental hard tissues. Prerequisite, permission.

ORAL DIAGNOSIS AND TREATMENT PLANNING

CHG

NEW
449 Directed Studies in Periodontics (*)

See Community Dentistry 449 for course description.

NEW
460 Introduction to Periodontal Therapy (2-)

Combined lecture and clinical experience in diagnosis, treatment planning, and performance of non-surgical and elementary surgical procedures. The indication for, application of, and technical performance of various procedures and their integration into dental practice are discussed.

NEW
570 Review of Current Literature (2)

Weekly seminar-discussion devoted to literature published within the past three years and confined to material not covered in previous subject matter. Prepares the graduate student for oral and written examination for certification by the American Academy of Periodontology.

PROSTHODONTICS

NEW
420 Management of Immediate Denture Patients (1)

Lecture course describing and illustrating the clinical management of immediate denture patients (typical and overdenture).

NEW
449 Directed Studies in Prosthodontics (*)

See Community Dentistry 449 for course description.

NEW
460 Introductory Complete Denture Prosthodontics (6)

Lecture-clinical course dealing with the basic principles of complete denture fabrication as well as the diagnosis and treatment of a completely edentulous patient.

NEW
470 Removable Partial Denture Clinical Preparatory Course (4)

Lecture-laboratory course dealing with those procedures the dentist must perform in order to fabricate a physiologically acceptable removable partial denture. The student gains experience via clinically-simulated laboratory exercises prior to beginning prosthodontic treatment of a partially edentulous patient.

NEW
471 Clinical Prosthodontics (1-2-1)

A clinical course involving the diagnosis and management of completely edentulous and partially edentulous patients. Removable partial dentures and immediate dentures are fabricated. In addition, follow-up care is provided for patients previously treated.

CHG
480 Replaces 446.

NEW
585 Advanced Clinical Prosthodontics (4, max. 16)

Continuation of 560, 561, 562. Seminar-clinical course covering recent and advanced phases of prosthodontics.

RESTORATIVE DENTISTRY

NEW

420 Restorative Dentistry (1)

Lecture series closely related to Restorative Dentistry 470, providing a means of communication with the class regarding clinic instruction and policy. Presentation of new material relating to the operations and procedures with which they are involved clinically.

CHG

430, 450, 451, 480, 481 Replace
400, 135, 132, 446, 456.

NEW

460 Restorative Dentistry (3)

Instruction in the use of various restorative materials for the restoration of diseased or missing parts of the natural dentition. Emphasis will be placed upon occlusal function, tooth preparation, manipulation of each of the materials, and upon the requirements for each type of restoration in order that it accommodate the demands of the oral environment and contribute to the health of the dentition. This course will prepare students for subsequent clinical courses in restorative dentistry.

NEW

470 Restorative Dentistry (4-4-4)

Designed to provide training in the fundamental procedures required to restore teeth that have been damaged by caries or trauma. Instruction will also include the restoration of missing teeth with short span fixed prostheses and the treatment of occlusal discrepancies that may relate to these procedures.

NEW

520 Current Models in Early Childhood Education (3)

In-depth analysis of current program models for the education of young children, with an emphasis on specification of objectives, practices, and evaluation of model effectiveness. Models emphasized will be those developed in this country, but the course will also include a study of models developed in other countries as they have influenced practice here.

NEW

522 Practicum in the Training of Early Childhood Instructional Personnel (3)

Directed experience in educational training conducted in the field. Design and implementation of a training program for early childhood education instructional personnel. Prerequisites, graduate standing and permission.

EDUCATIONAL PSYCHOLOGY

CHG

400, 403 Replace 365, 513.

NEW

570 Seminar in School and Community Psychology I (1, max.3)

Seminar in current issues in professional psychology. Limited to master's degree students in school psychological services.

HIGHER EDUCATION

NEW

430 Higher Education and the Ethnic Minority (3)

Designed to provide the student with information on special problems in higher education, e.g., faced by the non-white ethnic minority student. Special emphasis is given to the commonality of experience among the ethnic groups. Additional emphasis will be placed on major differences. The course is designed to lead into EDHED 431 in which the focus will be on each of the ethnic groups.

SPECIAL EDUCATION

NEW

402 Instructional Modifications for the Education of the Mildly Handicapped (3)

An in-depth analysis and application of several modifications of instructional techniques necessary for the education of the mildly handicapped.

NEW

504 Seminar in Educating the Socially and Emotionally Disturbed (3)

Advanced level seminar which analyzes the classical and contemporary research in the intervention procedures applied in a variety of classroom administrative organizations, prepares a model application proposal for basic or applied research and prepares a scholarly manuscript for dissemination.

COLLEGE OF ENGINEERING

AERONAUTICS AND ASTRONAUTICS

NEW

482 Aeronautical Acoustics (3)

Noise generated by boundary layers, jets, rockets, sonic booms, propeller and helicopter blades. Atmospheric propagation, acoustically-excited structures, acoustic fatigue. Noise suppression, damping of jet-excited structures. Assessment of aircraft noise. Prerequisite, senior standing.

CHEMICAL ENGINEERING

CHG

310 Replaces 210.

NEW

410 Computer Analysis of Chemical Processes (1 or 2, max. 4)

Students will study a chemical process of their choice and use an existing computer program to calculate the mass and energy balances for that process. A student can take the course for two credits only if he wishes to write a computer program subroutine for a piece of equipment which is not now included in the standard program.

NEW
585 Nucleic Acids in Biochemistry (1)

Weekly research conferences on the role of nucleic acid in biochemistry. Prerequisite, permission. CR/NC only.

NEW
595 Cell Surfaces and Cell Division (1)

Weekly research conferences on the role of the cell surface in cell division and development. May be repeated for credit. Prerequisite, permission. CR/NC only.

BIOLOGICAL STRUCTURE

NEW
341 Microscopic Anatomy for Dental Students (3)

Lecture and laboratory work in microscopic anatomy for dental students; others by permission.

BIOMEDICAL HISTORY

NEW
525 Seminar in the History and Philosophy of Biology (3)

Graduate student seminar on selected issues in the history and philosophy of the biological sciences. A sequence of four seminars will explore (a) current issues in the philosophy of biology; (b) biology and the mechanical philosophy of the seventeenth century; (c) selected figures in eighteenth-century biology; (d) Darwinism and nineteenth-century biology. Open to majors and graduate students in medicine, the arts and sciences, and others with appropriate background and interest.

CONJOINT

NEW
462 Preventive Medicine in Primary Care (2)

The practice of health maintenance will be discussed in a seminar format using the students' patients or other clinical cases from the Family Medical Center as a focus. Presently existing preventive techniques, risk factors, and parameters influencing decisions for clinical intervention will be discussed in the course of designing individualized health maintenance programs. Prerequisite, Human Biology 460.

FAMILY MEDICINE

NEW
461 Interviewing for Comprehensive Care (1)

Comprehensive care to patients; identification of problems accurately and completely, to include somatic, emotional, and social realms; Focus is on interviewing patients when these are the goals. Prerequisite, Human Biology 460.

NEW
463 Seminar: Topics in Family Medicine (1)

Major topics in primary care that arise in the course of treating patients in Family Medicine 464 will be discussed. These include issues in patient care, office management, and counseling. Prerequisite, basic hospital clerkship.

NEW
464 Ambulatory Care in Family Practice (1 1/2)

In the university or an affiliated teaching family practice unit, the student will work up and follow a small group of families for whom he and the faculty preceptor will be responsible for comprehensive care. The

student's cases will be the subject of the coordinated electives dealing with health maintenance, interview technique, and special topics in primary care. Prerequisite, basic hospital clerkship.

HUMAN BIOLOGY*

NEW
491 Independent Study of Medicine (15, max. 90)

The Independent Study Program encompasses the Human Biology series of the Medical School curriculum. The program features self-study and a tutorial evaluation system, depending on self-study rather than a lecture system to cover the course content.

LABORATORY MEDICINE

NEW
320 Introduction to Clinical Coagulation (2)

Lecture and laboratory covering the theory and pathology of coagulation with inclusion of selected diagnostic procedures. For medical technology majors only.

CHG
477 Replaces Neurological Surgery 477.

MEDICINE

NEW
404 Clinical Preceptorship in Internal Medicine--Bremerton (6)

Working closely with primary care physicians, the student will be exposed to the private practice of internal medicine in a small community. Operating on a one-to-one basis with an internist (tutor) the student will evaluate and manage inpatients and outpatients on a primary care, consultative, and emergency basis. In addition to varied subspecialty exposure through his tutors, the student will have supplemental teaching sessions. The student will assume responsibility for all aspects of patient care in parallel with his interest and ability. (Full time, 4 weeks.) Prerequisite, 465.

MICROBIOLOGY

NEW
436 Microbial Ecology Laboratory (2)

Laboratory exercises designed to illustrate important techniques in microbial ecology (e.g. enumeration, autoradiography, and uptake of dissolved substrates). The lake ecosystem will be used as a model ecosystem for studies in which each student conducts an individual research project. Prerequisite, concurrent registration in 435, and permission. (Limit: 10 students.)

CHG
441 Replaces 441-

NEW
599 Topics in Microbiology (*, max. 6)

Current problems in microbiological research. Prerequisite, permission.

OBSTETRICS AND GYNECOLOGY

NEW
466 OB-GYN Community Clinical Clerkship in Boise, Idaho (9)

The student will spend six weeks as a clinical clerk on obstetrics and gynecology at a clinical unit in Idaho, actively participating in obstetric deliveries and closely following the management of obstetric patients. He will do histories and physical exams on

surgical patients and will attend their surgery. Hospital rounds will be made on both obstetric and gynecologic patients. In addition, the student will spend time in the local physicians' offices and will be afforded a varied experience in the office practice of the specialty. Prerequisite, didactic portion of 465 or satisfactory completion of a written examination. (Full time, six weeks.)

PATHOLOGY

NEW

430 Human Cytogenetics (2)

Sources and methods of preparation and identification of human chromosomes. Human cytogenetic pathology; karyotype-phenotype interactions. Prerequisite, permission.

PHYSIOLOGY AND BIOPHYSICS

CHG

409 Replaces 413.

NEW

415 Physiology Laboratory (1-2)

Small group experiments to complement the course content of 409 through 414. Four or five different laboratories will be scheduled for each quarter. May be repeated for credit. Prerequisite, permission.

NEW

424 Vision and its Physiological Basis (5)

Phenomena of human vision, including: spectral sensitivity, color vision, spatial interactions, light and dark adaptation, distance perception, and binocular interactions. Techniques for the study of vision in human subjects will be included. The correlation of human visual functioning with known optical, biochemical, anatomical, and physiological factors will be stressed. Offered jointly with Psychology 424. Prerequisite, permission; some background in a physical or biological science is recommended.

PSYCHIATRY

NEW

464 Clerkship in Ambulatory Services, HCMHC (9)

The trainee will have an opportunity to experience a variety of ambulatory services in the Harborview Community Mental Health Center. Focus will be on teaching the student to learn techniques of initial evaluation and diagnosis, crisis intervention, aspects of suicidology, and individual, family, and group psychotherapy. Minority and disadvantaged populations will also be considered. Prerequisites, Human Biology 460 and Psychiatry 465, or permission of instructor. Medical students; graduate students by permission. (6 weeks, full time; 12 weeks half time. Limit: 45 students.)

REHABILITATION MEDICINE

NEW

459 Beginning Physical Therapy Procedures (2)

Introductory principles and concepts of acute care pertinent to physical therapists. Laboratory and clinical practice of basic procedures (e.g., monitoring vital signs, suctioning, use of standard hospital equipment, positioning and transfer techniques). Prerequisite, physical therapy student.

PATHOBIOLOGY

NEW

581 Current Literature in Pathobiology (1, max. 12)

Critical evaluation of recent articles on infectious agents. Emphasis on literature dealing with immunological, biochemical, and molecular studies of selected pathogenic microorganisms and viruses. Prerequisite, graduate student in pathobiology; others by permission.

NEW

582 Seminar on Molecular Biology of Animal Viruses (1, max. 12)

In-depth study of one or more animal virus types of current interest. Topics will include cell-virus interactions, control of viral replication and protein synthesis, assembly of mature virus, relationship between structure and antigenicity, and recombination and genetic analysis in DNA and RNA viruses. Direct participation of students in the presentation of topics is required.

SCHOOL OF SOCIAL WORK

NEW

421 Methods of Child Care and Treatment (2)

Major foci include an introduction to the continuum of child welfare services, as well as some practical approaches to working with children and adolescents in a wide variety of practice settings.

NEW

500 Social Welfare Lecture Series (2)

Introduction to fundamental issues confronting social work and social welfare. This is a series of ten lectures delivered by knowledgeable persons on matters of contemporary concern. The presentations are intended to provide the student with a broad perspective on the major trends and developments in the field.

NEW

501 Seminar in Contemporary Problems in Social Welfare (2)

Examination of selected social problems. Analysis of attempts to deal with them from a social welfare perspective. Prerequisite, permission.

NEW

502 Social Welfare Policy (2)

Introduction to major institutions responsible for implementing social welfare programs. Analysis and examination of the processes through which social welfare policies are developed; the interactive relationships of social welfare policies among various programs; and emerging issues and new policy developments in the field.

NEW

510 Social and Behavioral Foundations of Social Work Practice (5)

Introduction to selected theoretical orientations upon which various current modalities of social work practice are based. The implications of each of these orientations for work with large and small client systems will be discussed. The course will consist of self-contained units of study.

NEW

590 Social Welfare Research (2)

This course has three major objectives: (1) to introduce the student to the logic of the scientific method as applied to research in social welfare; (2) to provide the student with a beginning understanding of the interrelated steps in the conduct of research; and (3) to equip students for roles as consumers of and participants in social welfare research.

NEW

594- Advanced Social Work Research (2-)

Study of the logic and principles underlying the collection and analysis of data and the presentation of findings in social research. Evaluation of published reports of empirical research with emphasis on relevance of such research to social work practice.

INDEPENDENT STUDY COURSES THROUGH CORRESPONDENCE

The Division of Independent Study provides University courses for extension credit primarily by correspondence instruction to persons who wish individual instruction. Fees for Independent Study courses are separate from residence tuition and are \$15 per credit. Enrollment is not based on the quarter system but is continuous throughout the year, with one calendar year allowed to complete a course.

A regularly enrolled student who wishes to register for additional courses for Independent Study credit should consult his or her departmental adviser prior to enrolling in an Independent Study course. Applications and additional information on enrollment procedures may be obtained from the Independent Study office, 203 Lewis Hall, or by telephoning 543-2350.
