AUTUMN QUARTER 1977

PRELIMINARY TIME SCHEDULE

PREREGISTRATION May 20, 23-27

To receive highest
priority, register on the
following dates

Freshmen (0-44 credits)	May 20
Seniors (135 credits)	May 20, 23
Graduate Students	May 23, 24
Fifth-year Students	May 24, 25
Juniors (90-134 credits)	May 25, 26
Sophomores (45-89 credits)	May 26, 27

Class standing is based on the predicted number of credits the students will have at the beginning of the next quarter.

IN-PERSON REGISTRATION (By Appointment Only)

Matriculated Students: July 5-August 24, September 15-20
Nonmatriculated Students: September 21

>>> This symbol in the margin of the *Time Schedule* indicates that the section requires an entry card. Entry cards must accompany section requests on the Mark-Sense Registration Form. Entry cards may be obtained at locations listed on the entry card distribution list.

After you have used this *Time Schedule*, please leave it or pass it along so that other students may use it.

GENERAL INFORMATION

It is the University's expectation that a student will follow University rules and regulations as they are stated in the *General Catalog*. In instances where no appeal procedure is spelled out and the student is persuaded that a special set of circumstances makes appeal reasonable, he or she may appeal the application of specific rules or regulations to the office of the dean of the school or college in which he or she is enrolled in the case of an academic matter, or to the Office of Student Affairs in the case of a nonacademic matter. These offices will either render a decision on the appeal or refer the student to the proper office for a decision.

GUARANTEED REGISTRATION ELIGIBILITY

University of Washington students who remain in good scholastic standing are guaranteed the opportunity to register each quarter as long as they maintain continuous enrollment (Summer Quarter excepted). Continuation must be in the same classification, e.g., undergraduate, fifth-year, graduate, etc. Once a student earns a bachelor's degree, he or she must apply for readmission as a fifth-year, nonmatriculated, or graduate student. Exceptions to the guarantee are: (1) students under disciplinary action and (2) students with a financial hold.

If an undergraduate does not enroll for one or more quarters, or if a graduate student goes on-leave, he or she must file an application for readmission with the Registrar's Office. See appropriate readmission closing dates.

FULL-TIME STUDENT REQUIREMENT

Many students think that because they pay full fees they are considered full-time students. This is not true! To be considered a full-time student, undergraduates must register for 12 credits and graduates must register for 9 credits. Full-time status is required for certain agencies, such as Immigration and Naturalization Service, Veterans Administration, and Social Security Administration. Consult the Registrar's Office for social security requirements, the International Services Office for immigration requirements, and the Veterans Affairs Office for VA benefits.

NONMATRICULATED STUDENTS

Nonmatriculated students may register only on the last day of in-person registration and may enroll only

in courses that have room after reserving a 10 per cent or five-space cushion (whichever is greater) for matriculated student changes. Nonmatriculated students may participate in preregistration for the Summer Quarter.

AUDITORS

Auditors pay standard tuition and fees and must be regularly admitted and registered in the course.

Attendance in courses as an auditor is by consent of the instructor involved and is conditioned by the extent to which space is available. Permission to audit is ordinarily granted for lecture classes only. An auditor may not participate in class discussion or laboratory work, and his or her registration may be cancelled at the discretion of the instructor.

No entry is made on the permanent record for courses audited. To receive credit for an audited course, the student must register for the class for credit in a subsequent quarter.

Auditors follow registration instructions below.

PHYSICALLY HANDICAPPED STUDENTS

Students with severe physical handicaps are given the highest registration priority. A Building Accessibility Guide is available for those who need information on wheelchair access to classrooms and University offices. In many cases, classes are moved to accommodate students with ambulatory handicaps. To obtain assistance and information, students should contact Duke Washington, Director of Student Services, Office of Student Affairs, 466 Schmitz Hall, telephone 543-4893. Students may also consult Room Assignments, telephone 543-1080, for information on classrooms and their accessibility to the handicapped.

REGISTRATION INSTRUCTIONS

ACADEMIC ADVISER

See an academic adviser to discuss your educational objectives and to learn the procedures involved in registering at the University. Have an idea of the courses you would like to take before seeing an adviser by reviewing the *General Catalog* and the quarterly *Time Schedule*.

REGISTRATION FORMS

Obtain a mark-sense registration form from your advisory office and mark the courses you are requesting on the form in accordance with directions on the form. Please note that some courses in the *Time Schedule* have restricted enrollment and you must obtain entry cards for these courses. Undergraduates will not be scheduled for more than 19 credits until the first day of the quarter. This is done to allow all students a chance to develop a basic program.

ENTRY CARDS

Certain courses and sections require entry cards for registration. Students who request these courses (and/or sections) on their registration request forms will not be registered in the courses unless the requests are accompanied by entry cards. An entry card alone is not sufficient. The course and schedule line number (SLN on entry card) must also be requested on the mark-sense registration form. Obtain course entry cards for courses designated with the symbol > > > in the margin of the *Time Schedule*. Refer to the Entry Card Distribution Points list for

information on where to obtain the entry card for a given course.

SUBMITTING REGISTRATION FORM

1. If you are a continuing matriculated student registering May 20-27 you may deposit your form at any of the following places:

- Registration lobby, second floor, Schmitz Hall
- B10 Padelford Hall
- Fourth floor student lounge, T-wing Health Sciences Building
- 353 Loew Hall (engineering students only)

See the cover of the *Time Schedule* for registration dates.

Continuing students may also register July 5-August 24 by turning in the registration form at Window 3, second floor, Schmitz Hall.

2. If you are a continuing matriculated student who did not preregister in either the May or July-August registration period you must obtain an in-person registration appointment by September 15. Continuing students who request in-person registration appointments after September 15 may be required to register late during the first week of school and to pay the \$15 late registration fee.

3. If you are registering September 15-20, go to the Sections branch office, Odegaard Undergraduate Library, on the date and time indicated on your registration appointment.

4. Nonmatriculated students may register only on September 21. Appointments are available Window 8, second floor, Schmitz Hall.

LATE REGISTRATION

Students who register after the official registration period will be charged a \$15 late registration fee.

SCHEDULE OF CLASSES

1. If you register May 20–27, your schedule of classes will be mailed to the address you indicate on the registration form. All students registering during this period are scheduled by computer at one time. The scheduling priority is: freshmen, seniors, graduate students, fifth-year, juniors, and sophomores. Schedules will be mailed June 21.

2. If you register July 5–August 24, your classes will be assigned by computer. Completed schedules will be mailed September 8.

3. If you register September 15–21, your courses will be scheduled manually and you will be given a copy of your completed program when you have finished registering.

DROPPING AND ADDING COURSES

All changes to a student's program should be completed during the official change periods (see calendar). Changes are made by appointment only. Appointments are available at Window 2, lobby, Schmitz Hall, for all but engineering students; engineering students go to 353 Loew Hall. A student who arrives more than a half-hour late will be required to make a new appointment. Changes made after the change periods cost \$5 and may result in fee forfeiture (see item 2 of this section).

1. Grades in Dropped Courses and Drop Restrictions

a) *Undergraduates.* Undergraduate students who drop courses after the change periods receive no entry on their academic record if the drop is made during the first two weeks of the quarter. Drops made during the third and fourth weeks of the quarter will be recorded with a "W." No drops are permitted after the fourth week except for a limited number determined by the number of credits earned at the University. While completing the first 44 credits at the University, the student has three drops permitted after the fourth week, but, before the last day of instruction. After 45 credits have been completed at the University, the student earns one late drop for each 45 credits earned. All but the first three late drops may be accumulated and used as necessary. The first three late drops must be used prior to earning 45 credits or they are forfeited. *No drops of any kind are permitted after the last day of instruction.*

b) *Graduate Students.* Graduate students who drop courses after the first two weeks of the quarter receive a grade of "W." No drops are permitted after the seventh week of instruction.

c) Students may petition the Registrar to drop a course after the regular drop deadline if: (1) the student is unable to complete the course in question because of a severe mental or physical disability, or (2) unusual or extenuating circumstances beyond the student's control prevented the student from dropping the course by the regular drop deadline. Petitions must be filed promptly after the occurrence of the event that gave rise to the need for dropping the course.

2. Fee Forfeitures or Refunds.

a) Students will be billed for the number of credits on their programs at the end of the first week of the quarter. Only partial fee reductions will result for courses dropped after the first week of the quarter.

b) Students dropping courses after the first seven calendar days of the quarter and through the thirtieth calendar day of the quarter will be expected to pay one-half of the tuition and fees associated with that course. Example: An undergraduate originally registers for 5 credits. The fee for 5 credits is \$134 (resident). The student then drops a 3-credit course in the second week of the quarter. The total number of credits for which the student remains registered is 2. Tuition and fees for 2 credits are \$53. However, ad-

ditional fees are due for half the difference between 5 credits and 2 credits, in this case an additional \$40.50. The student has been registered in the dropped course for more than one week and therefore must pay half the fees for the course.

Courses dropped after the thirtieth calendar day receive no refund. Example: A student is registered for a 3-credit course. The student drops that course after the thirtieth calendar day. No refund is available. If the student adds a different 3-credit course at the time the original 3-credit course is dropped, he or she will pay tuition and fees for 6 credits.

c) Drops become effective the date received in Sections.

3. Courses Added After the Official Change Periods

a) As a general rule, no courses may be added after the official change period. Exceptional cases may be approved if both the instructor of the course and the Dean of the student's college give their consent.

b) Courses audited may not be changed to a credit registration after the first two weeks of the quarter.

FEE PAYMENT

1. A fee statement will be mailed to the address you indicate on your mark-sense registration form. *Fees must be paid by Friday of the fourth week of the quarter.*

2. Mail your fee payment to the Student Accounts Office in the envelope provided before the due date indicated.

3. If you fail to pay by the deadline you may continue to pay your fees, with a \$10 late fee, for three weeks following the due date. If fees are not paid by this time your registration will be cancelled. *Please note: Even if your registration is cancelled you will continue to owe one-half your tuition and fees if you are a continuing student or, if you are a new or returning student, \$50 or one-half your tuition and fees, whichever is greater.*

STUDENT INSURANCE

All students who do not specifically request a particular student insurance plan or who do not specifically state they do not wish student insurance, will automatically be enrolled and billed for *student only* medical, surgical, and hospital insurance.

If you are billed for student insurance and decide that you do not want coverage, you may void the policy by completing the appropriate section on the fee payment card and by paying the amount billed less the indicated amount for insurance.

International students must subscribe to the University's medical insurance. Exceptions may be granted by the International Services Office if the student presents proof of other medical insurance coverage.

WASHPIRG

An optional \$2 fee is indicated on the fee statement for the Washington Public Interest Research Group, a student research organization. If you do not desire to support this activity, simply pay the regular tuition and fees. If you want to support WASHPIRG, check the payment card and pay the regular tuition and fees plus \$2.

WITHDRAWAL FROM THE UNIVERSITY

1. Obtain an approved withdrawal form from your adviser.

2. Present the withdrawal form to the Withdrawal Office, Sections, 264 Schmitz Hall. *Withdrawals are effective the date they are received in the Registrar's Office.* Fees owed will be based upon the date the withdrawal is received in the Registrar's Office. No withdrawals will be accepted after the last day of instruction, December 7.

The fee schedule below will be followed.
Continuing Students

a. Students withdrawing before the sixth day of the quarter do not pay tuition or fees.

b. Students withdrawing on the sixth day or through the thirtieth calendar day continue to owe one-half of their tuition and fees.

c. Students withdrawing after the thirtieth calendar day receive no refund of tuition or fees.

New and Returning Students

a. Students withdrawing before the sixth day of the quarter forfeit their \$50 enrollment service fee.

b. Students withdrawing on the sixth day or through the thirtieth calendar day of the quarter must pay one-half of regular tuition and fees or forfeit the \$50 enrollment service charge, whichever is greater.

c. Students who withdraw officially after the thirtieth calendar day must pay full tuition and fees, which includes the \$50 enrollment service fee.

3. Students who were unable to turn in their withdrawal in time may petition the Comptroller's Office for additional refund. Petition forms are available at the Student Accounts Office, 129 Schmitz Hall.

4. Courses dropped as part of a University withdrawal completed during the first two weeks of a quarter receive no grade and no entry. Withdrawals completed after the first two weeks result in the courses being assigned a grade of "W."

GRADING SYSTEM

The University of Washington uses a numerical grading system, with certain exceptions in the Schools of Dentistry, Law, and Medicine. Instructors may report passing grades from 4.0 to 0.7 in 0.1 increments. The number 0.0 is assigned for failing work or unofficial withdrawal. Numerical grades may be considered equivalent to letter grades as follows:

A	4.0	Honor
	3.9	
	3.8	
A-	3.7	
	3.6	
	3.5	
	3.4

E	0.0	Failure or Unofficial Withdrawal

Additional information on grades and scholarship rules may be obtained from the Grade Information Office, 248 Schmitz Hall.

The Grade of Incomplete

In order to obtain credit for a course in which an Incomplete has been awarded, an undergraduate stu-

dent must complete the remaining work for the course by the last day of the following quarter. An Incomplete grade for a Summer Quarter course must be made up by the last day of Autumn Quarter or the Incomplete will be converted to a grade of 0.0 by the Registrar, unless the instructor has indicated when assigning the Incomplete grade that a grade other than 0.0 should be recorded if the incomplete work is not completed. This time limitation may be extended up to one year with instructor approval. Such approval must be received by the Registrar's Office before the end of the next quarter.

A graduate student who receives an Incomplete must complete the remaining work for the course by the last day of the next quarter *in residence*. An Incomplete received by a graduate student does not automatically convert to 0.0 but remains an Incomplete if the coursework is not completed. This time limitation may be waived by the dean of the college in which the course was offered only if the nature of the uncompleted work is such as to make the fulfillment of this requirement impossible. In no case can an Incomplete received by a graduate student be converted to a passing grade after a lapse of two years.

Satisfactory/Not Satisfactory

Students may elect to take certain courses on a Satisfactory/Not Satisfactory basis. Advisers should be consulted and in no case are students allowed to register for more than one course or 6 credits on a Satisfactory/Not Satisfactory basis in a given quarter. No more than 25 credits will apply to an undergraduate degree. S/NS must be elected or dropped during the official change of program period. Undergraduate students earning grades of 1.7 or above receive a grade of S(Satisfactory) while grades below 1.7 are recorded as NS(Not Satisfactory). Graduate students earning grades of 2.7 or above receive a grade of S(Satisfactory), while 2.6 or below are NS(Not Satisfactory). In cases of withdrawal, the W is recorded. Neither S nor NS are included in the grade-point average. N, I, and X are recorded until the instructor reports the final grade, or in cases of incompletes received by undergraduates, until the I is converted by the Registrar. With the approval of his or her Graduate Program Adviser or Supervisory Committee Chairman, a graduate student may elect to take any course for which he or she is eligible outside of his or her major academic unit on the Satisfactory/Not Satisfactory system.

Credit/No Credit-Only Courses

Some courses are offered on a CR/NC only basis. These courses may be taken only on this basis and it is not necessary to be in the special Credit/No Credit program to take these courses. It is not necessary to register S/NS to take these courses as the only grades assigned by the instructor are CR (Credit) or NC (No Credit). Neither CR nor NC are included in the grade-point average. In cases of withdrawal a W is recorded. N, I, and X are recorded until the instructor reports the final grade, or in cases of Incompletes received by undergraduates, until the I is converted by the Registrar.

Credit/No Credit Program

The University offers an undergraduate grading option called Credit/No Credit. Students entering this program automatically take all courses on a CR/NC basis. This program is not applicable to certain degrees and advisers should be consulted. Students must enter and exit the CR/NC program no later than the last day of the change of program period for the quarter the change is to be effective. Further information is available at the Registration Office, second floor of Schmitz Hall.

Final examinations should be administered according to the schedule above.

If the final examination is given at a time earlier than that indicated above, the last meeting of the class shall be the examination period. Instructors should check with Room Assignments, 3-1080, if the exam will last more than one hour.

Classes that meet on the hour use the first full hour of instruction to determine the time of examination. For example, a class that meets at 10 a.m. uses the 10:30 a.m. examination time.

Classes in which the entire class meets at the same hour every day, in the same room, may use that room at 8:30 or 2:30 for a three-hour examination. All other exams are limited to one hour and fifty minutes unless other arrangements are made with Room Assignments.

All exams must be scheduled not later than December 15.

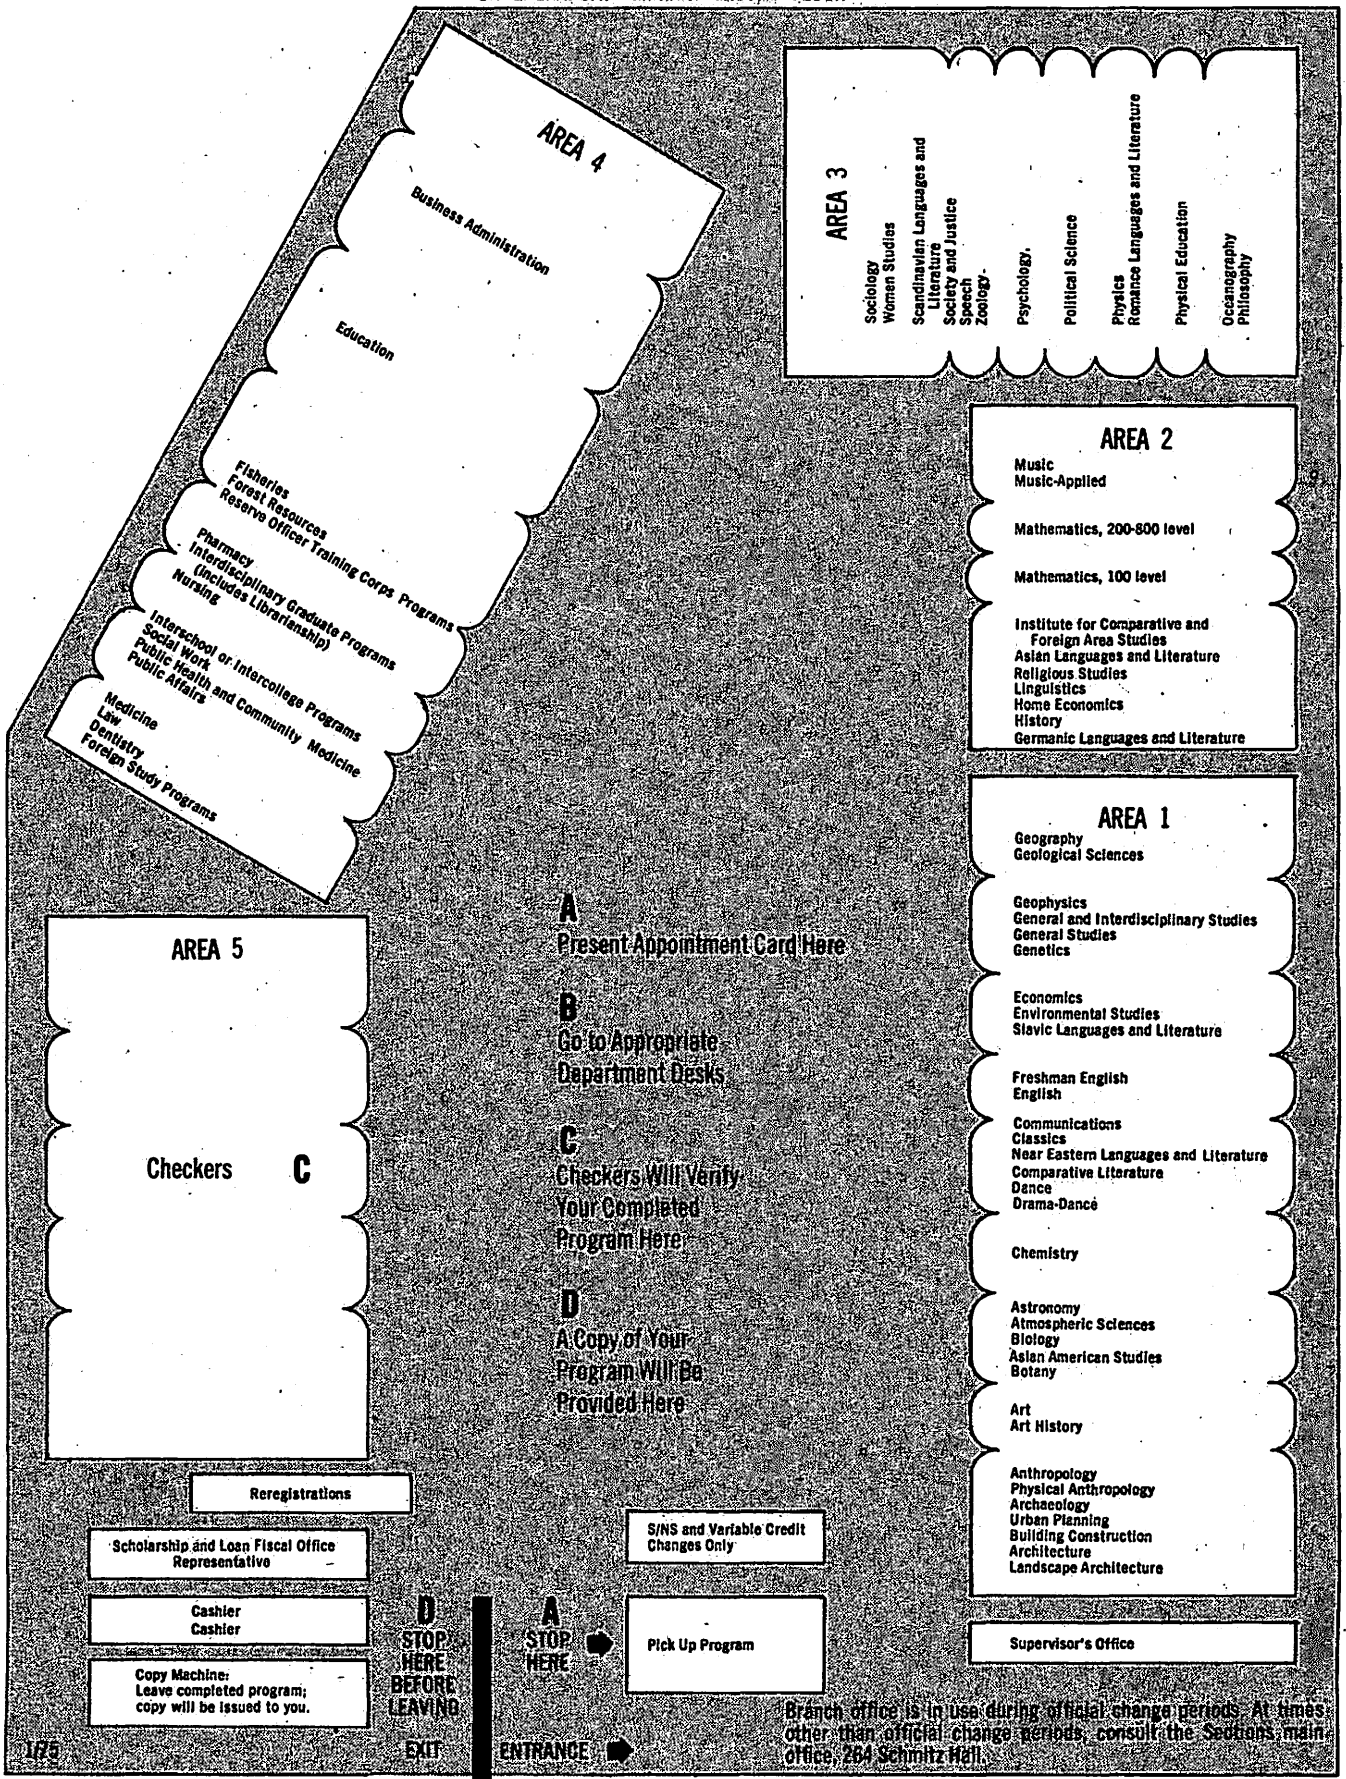

If an examination is held at a time other than the above schedule indicates, instructors must check with Room Assignments to make sure that the room is going to be available.

All students in undergraduate courses shall be required to take final examinations, provided that in a course for which an examination is not an appropriate test of the work covered, the instructor may dispense with the final examination. Working students are responsible for arranging their work hours to enable them to attend the final examinations.

A student absent from a scheduled final examination, either by permission of his dean or through sickness or other unavoidable cause, shall be given a grade of Incomplete if his work in that course has been satisfactory until the time of his absence. He may remove this Incomplete in the manner provided for the removing of Incomplete grades. In all other cases of absence from the scheduled final examination, a student should be given a grade of 0.0.

Questions concerning the Examination Schedule should be directed to Room Assignments.

NEW COURSES FOR AUTUMN QUARTER 1977

The following list includes new courses that will be offered Autumn Quarter 1977, which were added to the University curriculum after publication of the 1976-78 General Catalog.

COLLEGE OF ARCHITECTURE AND URBAN PLANNING

ARCHITECTURE

ARCH

414 Architectural Sketching (3)

Exercises in freehand representational drawing using charcoal, graphite, and conte crayon with emphasis on line, proportion, values, and composition. Studies progress from geometric to nongeometric forms. Prerequisite: permission.

ARCH

415 Environmental Design Research Through Photography (2)

Photographic approach to the collection, analysis, and presentation of visual information relevant to the design and evaluation of man-made environments. Case studies, lectures and visual problems, followed by five weeks of individual or team photographic projects resulting in completed visual or audiovisual presentations.

ARCH

440 Introduction to PER Analysis (3)

Introduction to the measurement and quantitative analysis of variables encountered in person-environment relations research. Emphasis on basic statistics and decision theory used as design decision-making aids with behavioral data. Prepares students to utilize and critique published design research. Prerequisite: permission.

URBAN PLANNING

URB P

481 Legal Basis for Planning (3)

Political, legal, and administrative institutions closely related to the planning process. Issues of devolution of authority and public representation and participation. Legal basis for planning and associated regulation. Prerequisite: 300.

COLLEGE OF ARTS AND SCIENCES

AMERICAN INDIAN STUDIES

AIS

101 Introduction to American Indian Studies (3)

General overview of the content, methods, and objectives of American Indian Studies. Emphasis on contemporary Indian value conflicts and dilemmas.

AIS

313, 315 American Indian Language: Salish (5,5)

The Salish language indigenous to the Seattle area. Objectives are: 1) to have a command of the basic structure and vocabulary to the extent of being able to converse entirely in the language (at a simple and restricted level) and have total command of the sound system; 2) to be able, with the aid of a dictionary, to read the oral literature that has been written and write down stories and other texts that the knowledgeable people of a tribe recount; 3) to understand those aspects of the Indian cultures and traditions not understandable through English. Not open

to students who have taken GIS 223 and 224. Prerequisites: upper-division standing and permission.

ANTHROPOLOGY

Anthropology

ANTH

507- Methods of Sociocultural Research (5-)

Core-course sequence intended for first-year graduate students in sociocultural anthropology. Survey of major issues, alternative strategies, and selected special topics in the design of anthropological research and the collection, processing, and analysis of anthropological data. Prerequisite: graduate standing in anthropology or permission.

ART

Art

ART

258 Jewelry Design (5)

Introduction to jewelry design and construction through techniques of sawing, filing, soldering, forging, and casting in silver, copper, bronze, and brass, as well as simple stone setting. Prerequisites: 107, 110, 129.

ART

345 Etching (5)

Traditional and contemporary methods of etching as a creative art form. Included are aquatint, hard-soft and lift ground mezzatint, burin, engraving, dry point, niello, crible, and others. Techniques, such as intaglio, relief, stencil, and others. Prerequisites: 107, 110, 129.

ART

346 Collagraph (5)

Fundamentals of positive plate build-up with hard, soft, and pliable materials. The interrelationship of individual graphic ideas, plate making, and various techniques of printing. Prerequisites: 107, 110, 129.

ART

347 Lithography (5)

General survey of historical and contemporary lithography. Studio problems using a variety of stone, plates, papers, inks, and presses. Hand-drawn and photo chemical methods. Prerequisites: 107, 110, 129.

ART

348 Woodcut (5)

Basic Eastern and Western approaches to the art of the woodcut. Various wood, tools, papers, inks, color, printing techniques. Prerequisites: 107, 110, 129.

ART

450 Advanced Etching (5)

Advanced problems in etching. Photo processes. Combining of techniques. Integration of the individual idea with the plate, printing, and color. Prerequisite: 345.

ART

451 Advanced Collagraph (5)

Advanced problems in the art of the collagraph. Individual creativity stressed. Prerequisite: 346.

ART**452 Advanced Lithography (5)**

Advanced problems in lithography stressing individual creativity. Prerequisite: 347.

ART**453 Advanced Woodcut (5)**

Advanced problems in the art of the woodcut. Individual creativity stressed. Prerequisite: 348.

Art History**ART H****311 Chinese Art (5)**

Overview of the arts of China with emphasis on a structural approach to the styles found therein. A survey of Chinese aesthetics and its relation to the major varieties of Chinese philosophy; and an indication of the larger patterns of development in the arts of China and their relation to the growth of the Chinese cultural nation. Prerequisite: upper-division standing.

ASIAN AMERICAN STUDIES**AAS****405 Asian American Culture (5)**

Introduction to the historical and cultural experience of Asians in the U.S. from 1850 to the present. Covers immigration and settlement patterns, race relations, occupational patterns, evacuation, social organizations, and contemporary problems. Extended research paper required. Not open to students who have taken GIS 305 or AAS 205. Prerequisite: senior or graduate standing.

ASIAN LANGUAGES AND LITERATURE**Korean****KOR****415 Readings in the Writings of North Korea (3)**

Readings in a variety of materials published in North Korea, with focus on characteristic features of usage and differences in vocabulary, grammar, and style from traditional standard Korean. Prerequisite: 413 or permission.

Tagalog**TAGLG****201 Second-Year Tagalog (3)**

Continuation of 101, 102, 103, stressing conversational fluency, aural comprehension, vocabulary, and grammar; oral and written composition; reading of articles and short stories of historical and cultural interest. Prerequisite: 103 or permission.

BIOLOGY**BIOL****460 Biology of Eukaryotic Microorganisms (5)**

Introduction to the comparative biology of the algae, fungi, and protozoa. Emphasis on the life history, physiology, and structure of protists most commonly used in contemporary biological research. Prerequisites: BIOL 210, 211, 212 or 101-102 or introductory microbiology.

BLACK STUDIES**BLK S****200 Proseminar in Black Studies: New Educational Directions (3)**

Interdisciplinary survey of Black Studies, presenting the unique Black perspective on the various relevant disciplines in Arts and Sciences.

BOTANY**BOT****580 Methods in Subcellular and Macromolecular Analysis (3)**

Introduces the theory underlying basic laboratory techniques used in the isolation and quantitation of subcellular and macromolecular components. Discusses the practical problems encountered in applying techniques such as radioisotope methodology, chromatography, electrophoresis and cell fractionation.

CHEMISTRY**CHEM****470 Physical Chemistry of Macromolecules (3)**

Solution thermodynamics, chain dimensions, rubber elasticity, solid state morphology, and viscoelastic behavior of high polymers. Prerequisites: 457 or 351 or equivalent, and FOR W 488 or CH E 570, or permission.

CHICANO STUDIES**CHSTU****102 Introduction to Chicano Studies (5)**

Interdisciplinary course designed to survey the history, economics, politics, art, literature, and thought of the Chicano and to examine the modern Chicano Movement. Introduction to the conventions of developing and presenting designs for theatre environments. Focus on developing facility in simple perspective drawing, basic rendering media, and basic theatre design concepts and practices. Individual design project required. Prerequisite: 210.

DRAMA

420 Design and Technical Drafting (2, max. 4)

Laboratory and project critique covering stage design graphics and technical drawing; specifically: designer's elevations, ground plans, sections, detail drawing, transposition of design drawing information to technical drawings. Prerequisite: 210.

DRAMA

421 Drawing and Rendering Techniques for the Theatre (2)

Weekly figure drawing laboratories with live model and weekly field trips for laboratories in drawing natural phenomena and architectural detail. Discussion of research methods and studies in historical drawing styles. Practice in use of several media and techniques of expression. Prerequisites: 210 and 211.

DRAMA

433 Children's Theatre Workshop (2, max. 6)

Exploratory experiences in a variety of children's theatre form through in-class and in-production participation. Prerequisites: 153 and 230, junior standing, and permission.

DRAMA

457 Studio I (12, max. 36)

Skill development in acting, voice, speech, and movement necessary for professional training in acting. Prerequisite: admission to the Professional Actor Training program.

DRAMA

458 Studio II (12, max. 36)

Continuation of 457. Prerequisites: 457 and completion of the first year of the Professional Actor Training program.

DRAMA

512 Advanced Stage Lighting Design (3)

Advanced work in design of lighting for drama, opera, and dance; color theory; laboratory experimentation with color, fabric, paint, texture and light; discussion of School of Drama production lighting. Prerequisite: 419 or permission.

DRAMA

536 Seminar in Children's Drama (4)

Critical study of philosophies and practices--past and present-- of the children's drama movement in the United States; examination of current problems in children's drama education. Prerequisite: permission.

DRAMA

539 Professional Problems in Children's Drama (2, max. 12)

Observation and critical investigation and discussion of the artistic principles and practices of selected children's drama programs and related projects in the greater Seattle area. Prerequisites: graduate standing and permission.

ECONOMICS

ECON

554 Cost-Benefit Analysis and Economic Methodology (3)

Offered jointly with SMT 554. See SMT 554 for course description.

ENGLISH

ENGL

181 Expository Writing (5)

Emphasis upon clear, coherent, correct writing. Level of course intermediate between 171 and 271.

Applications of social statistics in sociology and related social sciences, with emphasis on problems of analysis with imperfect data, measurement errors, theory construction, and writeup of data analysis; emphasis on use of probability in statistical inference; comparisons among means and proportions and applications of analysis of variance; contingency table analysis, applied non-parametric procedures; use of correlation, multiple regression analysis in social research. Prerequisite: 223 or 423.

SOC

561 Sociology of Health and Illness: An Organizational and Managerial Perspective (3)

Critical examination and discussion of sociological approaches -- methodological, theoretical, and empirical -- in the health care field. Particular attention is paid to applied studies in the field and, more broadly, to the implications for decision making from the sociological perspective. Offered jointly with HSERV 561. Prerequisite: HSERV 511 or undergraduate major in Sociology, or permission.

SPEECH AND HEARING SCIENCES

SPHSC

104 Human Speech and Hearing Behavior (3)

Survey of the problems and possibilities of man's most clearly human endowment: his capacity for speech production and perception. Speech and hearing mechanisms will be considered from the point of view of their development, structure, and function, with special reference to current and significant problems and issues, such as the nature of speech learning, the speech and hearing pathologies, and the significance of diversity in patterns of speech production and reception. Not open to majors beyond the sophomore level except by permission.

SPEECH COMMUNICATION

SPCH

498 Special Topics in Speech Communication (2-5, max. 10)

Lecture, seminar, and/or team study with topics varying from quarter to quarter. Prerequisite: permission.

WOMEN STUDIES

WOMEN

257 Psychology of Sex Differences (5)

Major psychological theories of sex-role development in young children and a study of the biological and environmental influences which determine and maintain sex differences in behavior. Topics include: the genetic and endocrinological basis of sex, the development of sex roles in children, sex differences in aggression, cognitive abilities, achievement motivation, affiliation, sexuality, and role of parents and schools in the development, maintenance, and modification of sex roles with specific focus on women. Offered jointly with PSYCH 257. PSYCH 101 or 102 recommended. Not open for credit to students who have taken GIS 244.

WOMEN

364 Women in the Social Structure (5)

Women's current roles within social institutions, focusing on women's work roles both in the labor force and the home. Women in political organizations, religion, education, and the law. Includes selected groups of women with compounded problems, black women, lesbians, older women, women on welfare. Examines the structural, ideological, and historical determinants of women's position. Offered jointly with SOC 364. Prerequisites: SOC 110 and junior or senior standing.

ZOOLOGY

ZOOL

455- Developmental Biology of Animals (3-)

Introduction to properties and experimental analysis of developing systems, and a descriptive and comparative study of development with emphasis on chordates. ZOOL -456 is the laboratory, with experiments, to accompany material presented in 455-. No credit allowed for 455- until -456 has been completed. Prerequisite: BIOL 212. Prior completion of ZOOL 301 recommended.

SCHOOL OF BUSINESS ADMINISTRATION

BUSINESS POLICY

B POL

599 Doctoral Seminar in Business Policy (3)

Study and research in advanced topics of business policy. The seminar is generally concerned with unpublished areas of research and is conducted by visiting professors and departmental faculty. May be repeated for credit. Prerequisite: permission.

INTERNATIONAL BUSINESS

I BUS

490 Special Topics in International Business (4, max. 12)

Students and faculty focus on current topics of concern. Offered when faculty, student interest, and availability allow. Prerequisite: 300 or permission.

SCHOOL OF DENTISTRY

DENTISTRY

DENT

496 Data Entry Through SPSS (1)

Introduction to entering and managing experimental or clinical alphanumeric and numeric data through the save file capabilities of SPSS, utilizing SPSS control cards, data transformations, and documentation.

DENT

540 Temporomandibular Joint Diagnosis and Treatment (2, max. 8)

Four-quarter seminar and clinic sequence for comprehensive examination, diagnosis, and treatment of patients with temporomandibular joint problems. Includes management of dysfunction and morphologic alterations in associated muscles and occlusion. Prerequisites: RES D 587 or 588 or 463 and permission.

PEDODONTICS

PEDO

414 Pedodontics (1)

Introduces the second-year dental hygiene student to the numerous aspects of pediatric dentistry including growth and development, child management, preventive dentistry, radiography, diagnosis, and dental anomalies. Prerequisite: completion of the first-year dental hygiene curriculum.

PEDO

530 Pedodontic Hospital Training (*)

Provides clinical experience in the comprehensive dental care of hospital in-patients and out-patients. Treatment is carried out at Children's Orthopedic Hospital and Medical Center. Prerequisite: admission to the postdoctoral program in pedodontics.

PEDO

560 Medical Problems in Pedodontics (*, max.36)

Explores usual and extraordinary medical, mental, and emotional problems of normal and handicapped children who receive comprehensive pedodontic care.

PERIODONTICS

PERIO

587 Periodontal Diseases Research Seminar (1, max. 12)

Weekly seminar devoted to advances in periodontal research. Topics include research design, methodology, and data derived from recent and/or on-going periodontal research. Presented by faculty and students.

PROSTHODONTICS

PROS

411 Introduction to Complete Dentures--Lecture (3)

Didactic course in the treatment of completely edentulous patients. Instruction is provided in diagnostic procedures, complete denture construction, and maintenance care.

RESTORATIVE DENTISTRY

RES D

479 Restorative Dentistry Supplement-R (*)

Provides individual instruction for students who experience significant difficulties with

the fundamental procedures that are covered in 470. Students may be enrolled for one to four credits depending on the extent of the difficulties identified. Passing grade in 479 may be required to qualify students for participation in clinical test operations in the third year. Offered on credit/no credit basis only.

RES D

489 Restorative Dentistry Supplement-R (*)

Provides individual instruction for students who experience significant difficulties with the fundamental procedures that are covered in 480. Students may be enrolled for one to four credits depending on the extent of the difficulties identified. Passing grade in 489 may be required to qualify students for participation in clinical test operations in the fourth year. Offered on credit/no credit basis only.

COLLEGE OF EDUCATION

EDUCATIONAL ADMINISTRATION

EDADM

519 Laboratory and Internship in Educational Administration (1-9, max. 9)

Recommended for candidates preparing for all administrative positions except superintendent, unless candidate has sufficient experience as an administrator. Half-time work in a school district or districts for one, two, or three quarters, depending upon the candidate's previous experience. Supervision by staff members of the College of Education and appropriate administrators in the selected school district. Prerequisites: completion of all other requirements for administrator's credential, and permission.

EDUCATIONAL CURRICULUM AND INSTRUCTION

EDC&I

541 Seminar in Bilingual Education: Organization and Structure (4)

Study of the structure and organization of bilingual programs. Includes study of the developmental and organizational factors affecting bilingual education. Assists graduate students in reviewing the historical antecedents in bilingual education and developing a personal philosophy about bilingual education.

EDUCATIONAL PSYCHOLOGY

EDPSY

513 Learning Variables of Minority Children: Instructional Implications (4)

Provides students with data base regarding (1) four variables (language/dialect, cognitive style, locus of control, and motivational systems) that affect learning among minority students, and (2) teaching strategies appropriate for these cultural socioeconomic variables.

HIGHER EDUCATION

EDHED

507 Training Programs in Business and Industry (3)

Investigations of the organization, content, methods, and funding of training programs in business and industry. Emphasis on variables which affect the decisions to establish and continue training programs versus sending employees elsewhere for training.

SPECIAL EDUCATION

EDSPE

522 Seminar on the Education of the Severely/Profoundly Handicapped (3)

Advanced graduate seminar arranged to study and discuss the essential components of providing a comprehensive approach to the intervention and education of the severely/profoundly handicapped infant, child, adolescent, and young adult. Prerequisite: permission of the instructor.

COLLEGE OF ENGINEERING

COLLEGE COURSES

ENGR

199 Special Projects (1-3, max. 3)

Students propose problems to solve to an engineering faculty member. The problems may be selected from the students' own experience and interests, from the interest of the faculty member, or from other sources such as faculty or graduate students doing research projects, or from personnel in the medicine area, occupational therapy, hospital, industry, government, etc. Corroboration by an engineering faculty member is required. Project suggestions are available. Prerequisite: 150.

ENGR

220 Introduction to Mechanics of Materials (4)

Introduction to the concepts of stress, deformation, and strain in solid materials. Development of basic relationships between loads on structural and machine elements such as rods, shafts, beams, and columns; and the stresses, deflections, and load carrying capacity of these elements under tension, compression, torsion, bending, and shear forces, or combinations thereof. Prerequisites: 180, MATH 126 (which may be taken concurrently.)

CIVIL ENGINEERING

Core Courses

CIVE

306 Construction Engineering I (3)

Introduction to construction engineering, planning, scheduling, methods, contracts, and specifications. Production estimates; equipment selection; ownership and operating costs; role of the engineer in construction. Prerequisite: upper-division standing in civil engineering.

CIVE

351 Water Supply and Waste Management (3)

Fundamentals of water supply: surface and ground water sources, demand, and system design. Municipal sewerage systems: waste water quantity and quality, and fundamentals of engineering design for collection, treatment, and disposal. Solid wastes: characteristics and quantities, collection, treatment, and disposal. Prerequisites: 345 (which may be taken concurrently) and 350.

Structural Engineering and Engineering Mechanics CESM

570 Case Studies in Geotechnical Engineering I (2)

Case studies in geotechnical engineering, including stability of reservoir slopes and performance of dams, dynamic soil properties under dynamic and static loading, instrumentation. Prerequisite: CIVE 366 or permission.

Transportation, Construction, and Geometrics
CETC
464 Construction Materials II (3-6)

Types, sources, uses, and performance behavior from a construction point of view of aggregates, asphalt products and mixtures, portland cement and concrete, and selected other materials. Emphasis is on those materials for which the civil engineer has responsibility for selection and manufacture on the job site. All students take the lecture (3 credits) with optional independent (1 credit each) asphalt laboratory, concrete laboratory, or special topics in testing materials using standard recommended practice in the industry. Prerequisites: CIVE 363 or equivalent and senior standing in engineering or architecture.

ELECTRICAL ENGINEERING

E E
344 Electric Power Engineering (4)

Introduction to the theory and methods of analysis involved in the use of typical apparatus to generate, transmit, and utilize energy in electrical form. Includes conventions of circuit description, balanced polyphase circuits, the complex power concept, the transformer, transmission lines, the per-unit system, fundamentals of electromechanical energy conversion and practical synchronous, induction, and commutator machines. Prerequisites: 333 and 381.

E E
355 Electronics I: Introduction to Digital and Analog Electronics (4)

Characteristics of bipolar and MOS transistors, basic logic design, digital applications including flip-flops and multivibrators; small signal analysis of amplifiers, differential amplifier design. Prerequisites: 231 and 310, both may be taken concurrently, and ENGR 251.

E E
356 Electronics II: Analog Electronic Circuit Analysis (3)

Analog circuit analysis including gain at high and low frequencies, feedback analysis, frequency response in circuits with feedback, oscillators, noise and power regulation. Prerequisites: 333, 355.

E E
440 Linear Systems Analysis II (3)

Analysis of linear systems using transform methods. One-sided and two-sided Laplace transforms, inverse Laplace transform. Discrete time linear systems, solution of difference equations, the z-transform and its inverse, digital filters. State variable analysis of linear systems, assignment of state variables, state equations, time domain solution of state equations, state transition matrix, impulse response matrix, frequency domain solution of state equations. Selected applications of the Fourier integral, multidimensional transforms. Prerequisite: 335 or permission.

E E
474 Real-Time Computer Laboratory (4)

Laboratory with major emphasis on real-time computer systems. Topics include: interrupts structure, context switching, software device handlers, system error detection and recovery. A structured approach to the solution of real-time systems problems in

the areas of data acquisition, analysis, control, and automation. Prerequisite: 371 or permission.

E E
479 Microcomputer System Design (4)

Intensive course covering microprocessor architecture and operation, assembly language instructions and programming, system design criteria and techniques for integrating hardware and software into actual systems. Principle emphasis on system design and documentation. Weekly laboratory and a design project included. Prerequisites: 371; 475 recommended (may be taken concurrently), and permission.

MINING, METALLURGICAL, AND CERAMIC ENGINEERING

Mining Engineering
MIN E
333 The Environmental Impact of Mining (3)

The physical and chemical nature of mineral deposits in their natural setting, including metallic and nonmetallic minerals, coal, sand, and gravel. Surface mining: waste-ore ratio; effect of removing overburden and its disposal; ultimate disposal of waste rock and its toxic and non-toxic characteristics; acid-generating capabilities of waste and mine site. Underground mining: waste rock and tailings disposal; construction and use of tailings dams; disposal of mine water, acidic and non-acidic; provisions for termination of operations; stabilization of waste rock and tailings sites; revegetation of mined land and mine dumps; general economics of land rehabilitation. Prerequisites: 350, GEOL 101, or permission.

NUCLEAR ENGINEERING

NUC E
455 Fusion Reactor Engineering (3)

Introductory course covering the basic engineering features of thermonuclear-driven power plants. After a brief description of the fundamental physics underlying fusion processes, the emphasis is on those areas currently presenting the greatest technological obstacles to development of economic fusion power, such as materials problems, magnet design, and nuclear heating. Prerequisite: PHYS 327.

OCEAN ENGINEERING

O ENG
425 Introduction to Underwater Acoustics (3)

Introduction to acoustic propagation, refraction, and reflection in the ocean. Characteristics of transducers, time and frequency representation of acoustic signals, sources and characteristics of acoustic noise and acoustic signal processing systems. Prerequisite: senior standing in engineering, MATH 238, or permission.

COLLEGE OF FOREST RESOURCES

BIOLOGICAL SCIENCES

FOR B
410 Forest Soil Microbiology (4)

Types and numbers of microorganisms in forest soils. Growth and survival in relation to environmental conditions. Quantitative methods in soil microbiology. Importance of microflora and microfauna in decomposition and nutrient cycling in natural and manipulated forest ecosystems. Integration and modeling of

composition processes. Prerequisites: FOR B 310, FOR B 331, MICRO 400 or equivalent, and permission.

OR B
28 Forest Community Ecology (4)

Advanced course in forest community ecology or undergraduate and graduate students. Includes organismal interaction, community structure and classification, and forest population dynamics and productivity as influenced by environmental changes. Prerequisites: 320 or equivalent, and permission.

INTERDISCIPLINARY GRADUATE PROGRAMS

APPLIED MATHEMATICS

AMATH
600 Independent Research or Study (*)

AMATH
700 Master's Thesis (*)

AMATH
800 Doctoral Dissertation (*)

INTERSCHOOL OR INTERCOLLEGE PROGRAMS

BIOENGINEERING

BIOEN
599 Special Topics in Bioengineering (2-6, max. 15)

Offered at a graduate level periodically by faculty within the Center for Bioengineering; concerns areas of research activities with current and topical interest to bioengineers. Prerequisites: undergraduate or graduate courses (or equivalent) determined individually for each special topic.

INSTITUTE FOR MARINE STUDIES

IMS
561- Ocean Resources Seminar (2-)

Study and research into selected problems relating law, international organizations, and marine affairs. Special attention is devoted to global and regional problems involving decision processes and structures that are under particular stress due to social, including technological, change. Problems examined will change from year to year. Offered jointly with LAW 650-. Prerequisites: 506, 507, or permission.

SOCIAL MANAGEMENT OF TECHNOLOGY

SMT
520 Seminar (2, max. 6)

Current topics in technology and society. Prerequisite: permission of instructor.

SMT
554 Cost-Benefit Analysis and Economic Methodology (3)

Designed for students in social management of technology, economics, engineering, public affairs, environmental studies, and elsewhere who wish to learn the technique of cost-benefit analysis and the strengths and limitations of economics in project evaluation. The theoretical foundation for cost-benefit analysis is examined and suitable applied techniques are derived. These techniques are applied to alternative types of decision-

making problems pertinent to both the private and public sector. Topics include: (1) cost-benefit analysis as an adjunct to theoretical modeling; (2) external effects in theory and policy; (3) concepts of benefits and costs; (4) investment criteria; (5) uncertainty; (6) case studies. Offered jointly with ECON 554.

SMT
598 Special Topics: Technology, Society, and Public Policy (3-5, max 15)

Seminars designed primarily for graduate students. Readings, lectures, discussions of topics of current interest in the field of technology and public policy. Subject matter varies from quarter to quarter. Prerequisite: permission.

SMT
599 Current Topics in the Social Management of Technology (1-5, max. 9)

Advanced independent study in the interdisciplinary SMT program. Prerequisite: permission of the instructor.

UNIVERSITY CONJOINT

UCONJ
492 The Developmentally Disabled Child: Selected Interdisciplinary Topics (1-10, max. 10)

Elective interdisciplinary series of mini-courses designed to offer specific information and foster the development of specific skills in areas critical for effective professional functioning with the developmentally disabled child. Each mini-course provides an intensive examination of one major topic represented within the basic components of an interdisciplinary training program. These basic components include: normal growth and development, exceptional growth and development, interdisciplinary theory, assessment devices and strategies, intervention strategies, information exchange skills, and community functioning. Faculty from dentistry, education, medicine, nursing, nutrition, occupational therapy, physical therapy, psychology, social work, and communication disorders are involved. The mini-courses have been especially developed for trainees in the Child Development and Mental Retardation Center. Prerequisite: 410 or permission of the course coordinator.

SCHOOL OF MEDICINE

BIOCHEMISTRY

BIOC
581 Introduction to Biochemical Research (3, max. 6)

Student works with one of the research groups within the department for one quarter and then rotates to another laboratory for a second quarter. Prerequisite: graduate standing in biochemistry or permission. Offered on credit/no credit basis only.

BIOMEDICAL HISTORY

BI HS
511P Selected Topics in Biomedical Ethics (1)

Designed for first and second-year medical students, sections A & B, respectively. Each section is limited to twelve students and a seminar format is followed. The topics described in the course outline are investigated, with the instructor giving brief presentations, utilizing guest resource persons, and a variety of audio-visual aids, followed by group dis-

ussion. Seminar participants are provided with a recommended reading list and a variety of reprints related to topics.

CONJOINT

CONJ

680P An Introduction to Detoxification and Rehabilitation Programs for Alcoholism (*, max. 16)

Introduction to alcoholic detoxification and rehabilitation as they apply to the general physician. The student will have supervised clinical experience in a variety of alcoholism treatment programs, which will be accompanied by a core series of lectures and discussions.

CONJ

690P Clinical Oncology Outpatient Elective (*)

One to five half-day oncology clinics, including surgical neoplasia, radiation oncology, head and neck tumor, GYN tumor, and medical oncology (Clinic 4). The student will work with new patients and follow them through their evaluation and treatment and post-treatment followup. Emphasis is on multi-disciplinary evaluation and care to provide as broad an exposure to clinical oncology as possible. The student works closely with clinical faculty and arranges the number and combination of clinics desired. Prerequisite: permission. Coordinator: Department of Radiology.

HUMAN BIOLOGY

HUBIO

501P Human Biology Special Projects (*)

Designed for medical students electing a special study project related to the Introduction to Clinical Medicine or other human biology courses, which are offered during the first and second years in the School of Medicine. Primarily intended for students in remedial or extended programs. Prerequisite: permission.

HUBIO

510P Anatomy (Microscopic) (*, max. 3)

Lectures and laboratory exercises designed to survey the microscopic structure of the tissues of the body. Correlates structural and functional concepts and relates material with the content of HUBIO 511, which is generally taken concurrently.

MEDICINE

MED

667P Combined Medical Specialty Clerkship (8)

Students participate in care of acutely ill hospitalized patients under supervision of internal medicine residents. Instruction by various medical specialists provides in-depth understanding of the pathophysiology and management of major diseases affecting adult patients. Prerequisite: 665P. Third- and fourth-year medical students only. (Four weeks, full time; limit: twelve students).

OPHTHALMOLOGY

OPHTH

685P Ophthalmology Externship (4)

Student works with a faculty member in the diagnosis and treatment of ocular diseases in both outpatient and inpatient populations. Experience in common ocular disorders is gained and neurological and other consultations seen. Student learns the basic techniques involved in tonometry, ophthalmoscopy, and biomicroscopy of the eye. Prerequisite: HUBIO 563P.

OTOLARYNGOLOGY

OTOL

686P Otolaryngology--Medical and Surgical Aspects (*, max. 12)

Clinical in-depth study of otolaryngology which may be taken in a six-week clerkship. For the student whose interest lies in pathology of the head and neck. Reasonable flexibility to arrange the content of the course, which will provide exposure to all aspects of patient care in the outpatient clinic, operating room, and ward care activities. The student pursues a topic of current interest in otolaryngology by review of the literature and presents a paper.

PSYCHIATRY AND BEHAVIORAL SCIENCES

PBSCI

535P Basic Concepts of Modern Psychoanalysis (1)

Series of lectures by several psychoanalysts. Theory and practice and supplemental reading in a seminar atmosphere. Offered for one quarter with day and time to be arranged. Prerequisite: medical student in good standing or graduate student.

PBSCI

670P Clerkship in Consultation-Liaison Psychiatry (8, max. 24)

Patients with a wide variety of syndromes especially those commonly seen in a general hospital such as psychophysiologic reactions, organic brain syndromes, personality reactions to disturbances in somatic function, obscure pain, terminal illness, and neuroses are evaluated and provided with brief treatment. Opportunity for an interchange of ideas with physicians in medicine and surgery and their subspecialties, family medicine, obstetrics-gynecology, and physical medicine and rehabilitation of many complex diagnostic problems. Emphasis on individual crisis treatment, hypnosis, narcotherapy, and family therapy. Close individual supervision is provided and case conferences are held. Supplemental bibliography available. For third- and fourth-year medical students only. Prerequisite: 664, 665, 666, or 696. (Two, four, or six weeks.)

SCHOOL OF NURSING

NURSI

290 History of Nursing (2)

History of nursing from antiquity to the present. Examines the forces which shaped nursing including the social, cultural, economic, and scientific. The role of woman and its influence on nursing with special emphasis on past and present leaders of nursing and their unique contribution to nursing.

NURSI

327 Nursing of Children (4)

Essential concepts of pediatric nursing, such as: the current philosophy of child care; the impact of disease, disability, and health care settings on the child and on the family; common congenital conditions and the diseases affecting children; and the goals, methods, and resources for health care of children. Prerequisites: 300, 323, 324.

NURSI

328 Nursing of Children, Laboratory (8)

For students preparing for careers in nursing. The student applies the nursing process in caring for pediatric patients in the hospital and ambulatory settings. Emphasis on adaptation of skills and knowledge to nursing of

children and the incorporation of new pediatric content. Experiences complement the theory content in 327 whenever possible. Offered on credit/no credit basis only. Prerequisites: 300, 324, and concurrent registration in 327.

NURS

397 Scientific Basis for Nursing Interventions (5)

For registered nurses. Builds on basic knowledge of normal and abnormal physiology and incorporates concepts from social and psychological sciences. Functional adaptations to changes in the external and internal environments are considered in terms of mechanisms maintaining homeostasis and the responses during aging are emphasized. The nursing process framework is used to consider preventative, maintenance, and restorative aspects of nursing. Prerequisite: 350 or equivalent.

NURS

398 Care of Ill Adults III (4)

For registered nurses. Synthesis and application of the nursing process are demonstrated in the comprehensive care of adults with complex alterations in normal physiological functioning. Emphasis is placed on critical thinking, sound clinical judgment, and evaluation. Prerequisite: 350 or equivalent.

NURS

452 Health Assessment of Adults and Children (5)

Systematic approach to the collection, analysis, and evaluation of physical, psycho-social, and historical data necessary to administer primary health care to adults and children. Delineation of subjective and objective findings as they deviate from normal. Selected diagnostic procedures. Requires eighty hours of self-directed multi-media study and selected supervised field work in the primary health care setting.

NURS

557 Advanced Field Work Seminar: Primary Health Care in Urban and Rural Communities (4)

Intensive supervised field work in either rural or urban communities. Focus on theoretical models for analyzing community organization and its effect on the delivery systems of primary health care.

SCHOOL OF PHARMACY

PHARMACEUTICAL SCIENCES

PRSCI

582 Topics in Pharmaceutical Sciences (1, max. 10)

Discussion of pertinent articles from current literature. Offered on credit/no credit basis only.

PHARMACY PRACTICE

PHARM

482 Introduction to Clinical Clerkship (2)

Introduction to patient medication monitoring and education techniques. Students will participate in daily medical rounds at various institutional sites. In-depth review of patient case histories provides practical application of pharmaceutical knowledge. Communication skills are strengthened through patient discharge counseling, provision of drug infor-

mation and participation in interdisciplinary conferences. Prerequisite: 481 or permission. Offered on credit/no credit basis only.

SCHOOL OF PUBLIC AFFAIRS

PUBLIC POLICY

PB PL

515 Decision Theory (3)

Examines how formal models and quantitative methods may be used as an aid to decision making in the public sector. Both deterministic and probabilistic models are explored. Formal decision analysis techniques are used to examine how uncertainty can be formally dealt with in a quantitative approach to decision making. Cost-benefit analysis and discounting and present value estimations are stressed. Prerequisite: basic statistics and economics course.

PB PL

567 The Urban Police Function in American Society (3)

Contemporary problems, trends, and issues in American policing within the context of the history, role, and function of law enforcement in urban America. Emphasizes the external tensions between the stated ideals of a democratic society and the realities of institutionalized crime control methods and procedures, internal conflicts between the quest for professionalization of the police function vs. the demand for organizational effectiveness and accountability, and current efforts toward institutional change and functional reorganization.

SCHOOL OF PUBLIC HEALTH AND COMMUNITY MEDICINE

ENVIRONMENTAL HEALTH

ENVH

560 Organizing Industrial Safety Programs (3)

Organization of safety programs in major industries are explored; governmental, management, and union motivations are related to safe working conditions, and functions and responsibilities of line and staff safety are described in detail. An industrial accident prevention plan is developed.

ENVH

582 Special Topics in Industrial Hygiene (1)

Designed as a lecture seminar for graduate students, a series of lectures and field trips concentrates on specialized areas of industrial hygiene to build breadth and depth on the foundation provided by other courses. Emphasis on recent technical developments. Prerequisite: 453 or permission.

HEALTH SERVICES

HSERV

540 Technical Planning of Health Services and Facilities (4)

Using examples of the best contemporary practice, students are taught to calculate the need and demand for health services, to assess the current supply of services, to develop and use criteria and standards for the design of services and facilities, and to use demographic utilization, and other data. Assignment involves several written analyses of program requirements. Prerequisites: 511, 512, 546, or permission.

HSERV

561 Sociology of Health and Illness: An Organizational and Managerial Perspective (3)

Offered jointly with SOC 561. See SOC 561 for course description and prerequisites.

SCHOOL OF SOCIAL WORK

SOCIAL WELFARE

SOCWL

600 Independent Study or Research (*)

Offered on credit/no credit basis only.

SOCWL

800 Doctoral Dissertation (*)

SOCIAL WORK

SOC W

405 Fieldwork Seminar (2)

Two-hour seminar meeting weekly. Student integrates social work practicum experiences with prior and concurrent course work in the social sciences, social work, and research. Includes discussion of class presentations and simulations or practice situations which combine knowledge and skill utilization. Student logs provide a basis for individual goal identification and achievement. Required and open only to Social Welfare seniors.

SOC W

502 Social Services and Social Policy (5)

Provides the student with in-depth knowledge of social welfare policies and services that meet societal problems, the needs of specific client groups, and analytic tools for evaluating various policies. The understanding of the network of institutions that employ social workers to better serve their clientele is a prerequisite if needed changes and improvements are to be made by professional social workers in these institutions and if feasible options are to be selected to rectify inadequacies at the policy level.

SOC W

532 Additive Human Service Methods (3)

Focuses either on various methodologies employed in work with clients with specific presenting problems (physical disability, chemical dependency) or on a specific counseling practice stance (behavioral therapy, group treatment). Prerequisites: 529 or 310, 311, and 312.

SOC W

543 Problem Focused Human Development (3)

Focus on the social and developmental determinants of specific human problems and their impact on individual development, families, and social institutions. Some time will be given to examining the nature of organized social responses which are designed to deal with the specified human problem. Prerequisite: graduate standing.

INDEPENDENT STUDY THROUGH CORRESPONDENCE

The Office of Independent Study provides University courses for extension credit primarily by correspondence instruction to persons who wish individual instruction. Fees for Independent Study courses are separate from residence tuition and are \$17 per credit. Enrollment is not based on the quarter system but is continuous throughout the year, with one calendar year allowed to complete a course.

A regularly enrolled student who wishes to register for additional courses for Independent Study credit should consult his or her departmental adviser prior to enrolling in an Independent Study course. Applications and additional information on enrollment procedures may be obtained from the Independent Study office, 222 Lewis Hall, or by telephoning 543-2350.

The following courses are currently offered by Independent Study (credits in parenthesis; * indicates variable credit, to be arranged by student and instructor).

> > > ENTRY CARDS > > >

Certain courses and sections require entry cards for registration. Students requesting these courses and/or sections on their registration request forms will not be registered in the courses unless the requests are accompanied by entry cards. An entry card alone is not sufficient. The course and schedule line number (SLN on entry card) must also be requested on the Mark-Sense Registration Form.
