

UNIVERSITY OF WASHINGTON BULLETIN

SPRING QUARTER 1978

TIME SCHEDULE

PREREGISTRATION February 8-10, 13-17

Last day to register
and receive
highest priority

Freshmen (0-44 credits)	February 8, 9
Seniors (135 credits)	February 9, 10
Graduate Students	February 10, 13
Postbaccalaureate (fifth-year) Students	February 13, 14
Juniors (90-134 credits)	February 14, 15
Sophomores (45-89 credits)	February 15, 16, 17

Class standing is based on the predicted number of credits the students will have at the beginning of the next quarter.

IN-PERSON REGISTRATION (By Appointment Only) Matriculated Students: March 17, 20, 21 Nonmatriculated Students: March 22

>>> This symbol in the margin of the *Time Schedule* indicates that the section requires an entry card. Entry cards must accompany section requests on the Mark-Sense Registration Form. Entry cards may be obtained at locations listed on the entry card distribution list.

After you have used this *Time Schedule*, please leave it or pass it along so that other students may use it.

withdrawals will be accepted after the last day of instruction, June 2.

The fee schedule below will be followed.

Continuing Students

a. Students withdrawing before the sixth day of the quarter do not pay tuition or fees.

b. Students withdrawing on the sixth day or through the thirtieth calendar day continue to owe one-half of their tuition and fees.

c. Students withdrawing after the thirtieth calendar day receive no refund of tuition or fees.

New and Returning Students

a. Students withdrawing before the sixth day of the quarter forfeit their \$50 enrollment service fee.

b. Students withdrawing on the sixth day or through the thirtieth calendar day of the quarter must pay one-half of regular tuition and fees or forfeit the \$50 enrollment service charge, whichever is greater.

c. Students who withdraw officially after the thirtieth calendar day must pay full tuition and fees, which includes the \$50 enrollment service fee.

3. Students who were unable to turn in their withdrawal in time may petition the Comptroller's Office for additional refund. Petition forms are available at the Student Accounts Office, 129 Schmitz Hall.

4. Courses dropped as part of a University withdrawal completed during the first two weeks of a quarter receive no grade and no entry. Withdrawals completed after the first two weeks result in the courses being assigned a grade of "W."

GRADING SYSTEM

The University of Washington uses a numerical grading system, with certain exceptions in the Schools of Dentistry, Law, and Medicine. Instructors may report passing grades from 4.0 to 0.7 in 0.1 increments. The number 0.0 is assigned for failing work or unofficial withdrawal. Grades in the range 0.6 to 0.1 may not be assigned. Grades reported in this range will be converted by the Registrar's Office to 0.0. Numerical grades may be considered equivalent to letter grades as follows:

A	4.0	Honor
	3.9	
	3.8	
A-	3.7	
	3.6	
	3.5	
	3.4	
B+	3.3	
	3.2	
	3.1	
B	3.0	Good
	2.9	
	2.8	
B-	2.7	
	2.6	
	2.5	
	2.4	
C+	2.3	
	2.2	
	2.1	
C	2.0	Average
	1.9	
	1.8	
C-	1.7	
	1.6	
	1.5	
	1.4	
D+	1.3	
	1.2	
	1.1	
D	1.0	Poor (low pass)
	0.9	
	0.8	

D-	0.7	
E	0.0	Failure or Unofficial Withdrawal

Additional information on grades and scholarship rules may be obtained from the Grade Information Office, 248 Schmitz Hall.

The Grade of Incomplete

In order to obtain credit for a course in which an Incomplete has been awarded, an undergraduate student must complete the remaining work for the course by the last day of the following quarter. An Incomplete grade for a Summer Quarter course must be made up by the last day of Autumn Quarter or the Incomplete will be converted to a grade of 0.0 by the Registrar, unless the instructor has indicated when assigning the Incomplete grade that a grade other than 0.0 should be recorded if the incomplete work is not completed. This time limitation may be extended up to one year with instructor approval. Such approval must be received by the Registrar's Office before the end of the next quarter.

A graduate student who receives an Incomplete must complete the remaining work for the course by the last day of the next quarter *in residence*. An Incomplete received by a graduate student does not automatically convert to 0.0 but remains an Incomplete if the coursework is not completed. This time limitation may be waived by the dean of the college in which the course was offered only if the nature of the uncompleted work is such as to make the fulfillment of this requirement impossible. In no case can an Incomplete received by a graduate student be converted to a passing grade after a lapse of two years. The Incomplete grade entry remains on the record permanently. When the final grade is received, a diagonal line is drawn through the Incomplete grade and the final grade is posted under the quarter in which the final grade is received.

Satisfactory/Not Satisfactory

Students may elect to take certain courses on a Satisfactory/Not Satisfactory basis. Advisers should be consulted and in no case are students allowed to register for more than one course or 6 credits on a Satisfactory/Not Satisfactory basis in a given quarter. No more than 25 credits will apply to an undergraduate degree. S/NS must be elected or dropped during the official change of program period. Undergraduate students earning grades of 1.7 or above receive a grade of S(Satisfactory) while grades below 1.7 are recorded as NS(Not Satisfactory). Graduate students earning grades of 2.7 or above receive a grade of S(Satisfactory), while 2.6 or below are NS(Not Satisfactory). In cases of withdrawal, the W is recorded. Neither S nor NS are included in the grade-point average. N, I, and X are recorded until the instructor reports the final grade, or in cases of incompletes received by undergraduates, until the I is converted by the Registrar. With the approval of his or her Graduate Program Adviser or Supervisory Committee Chairman, a graduate student may elect to take any course for which he or she is eligible outside of his or her major academic unit on the Satisfactory/Not Satisfactory system.

Credit/No Credit-Only Courses

Some courses are offered on a CR/NC only basis. These courses may be taken only on this basis and it is not necessary to be in the special Credit/No Credit program to take these courses. It is not necessary to register S/NS to take these courses as the only grades assigned by the instructor are CR (Credit) or NC (No Credit). Neither CR nor NC are included in the grade-point average. In cases of withdrawal a W is recorded. N, I, and X are recorded until the instructor reports the final grade, or in cases of incompletes received by

undergraduates, until the I is converted by the Registrar.

Credit/No Credit Program

The University offers an undergraduate grading option called Credit/No Credit. Students entering this program automatically take all courses on a CR/NC

basis. This program is not applicable to certain degrees and advisers should be consulted. Students must enter and exit the CR/NC program no later than the last day of the change of program period for the quarter the change is to be effective. Further information is available at the Grade Information Window, 248 Schmitz.

Preregistration for all matriculated students in school Winter Quarter 1978.

In-person registration appointments available at Window 8, second floor of Schmitz, for continuing students who missed preregistration and for continuing nonmatriculated students.

Programs of study mailed to preregistration participants.

Change of registration appointments available at Window 2 or 3, second floor of Schmitz (engineering majors obtain appointments at 353 Loew), for students who completed preregistration.

OFFICIAL CHANGE OF REGISTRATION, by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew), for students who completed preregistration.

IN-PERSON REGISTRATION, by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew), for matriculated students.

IN-PERSON REGISTRATION FOR NONMATRICULATED STUDENTS, by appointment only, at the Sections branch office, Odegaard Undergraduate Library.

Last day to hand-deliver an application for resident status to the Residence Classification Office, 320 Schmitz. Applications may be postmarked March 25 or March 26 if mailed at the Terminal Annex at 3rd S. and Lander.

OFFICIAL CHANGE OF REGISTRATION, by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew) for all students.

Deadline for: (1) changes to or from S/NS grading or CR/NC program; (2) adding a course without instructor's permission; (3) adding or dropping a course without being assessed a \$5 change fee. Courses dropped after this date will be included in the tuition calculation. (See refund schedule under Dropping and Adding Courses on page iv.) Late fee of \$5 will be assessed after this date.

Last day for official withdrawal from the University without owing tuition or fees.

Last day to drop a course without entry on permanent record.

Last day to add a course without dean's permission.

Fee statements mailed to all registered students.

Last day for undergraduate, postbaccalaureate (fifth-year), and nonmatriculated students to drop a course.

Fee payment deadline for all registered students.

Last day for graduate students to drop a course.

Instruction begins.

Last day to return approved applications to 207 Schmitz for credit by examination.

Applications for bachelor's degrees and certificates to be conferred Spring Quarter 1978 must be submitted to the Graduate Office, 207 Schmitz.

Credit by examination. Students must make arrangements with the Educational Assessment Center, telephone 543-1170.

Memorial Day.

Last day of instruction.

Last day to withdraw from the University.

Final examinations.

Commencement.

Grades due by 9 a.m. at Grade Information Office, 248 Schmitz.

NEW COURSES FOR SPRING QUARTER 1978

The following list includes new courses that will be offered Spring Quarter 1978, which were added to the University curriculum after publication of the 1976-78 General Catalog.

COLLEGE OF ARCHITECTURE AND URBAN PLANNING.

ARCHITECTURE

ARCH

430 Materials and Processes (3)

Lectures, field trips, and laboratory sessions directed toward the nature, potentials, and limitations of a variety of materials (wood, metal, plastics, inorganic cementing materials, minerals, rocks, and clay) and processes involved with their production, fabrication, and system compatibility. Prerequisite: permission.

ARCH

442 Intermediate PER Research and Analysis (3)

Extends material introduced in 440 to include multivariate studies and a more thorough treatment of statistical decision procedures. Understanding simulation and quantitative modeling procedures as a means of pretesting and evaluating design proposals is stressed along with the treatment of this information by appropriate decision-theoretic methods. Applied research problems as a means of developing the techniques. Prerequisites: 400 and permission.

ARCH

443 Experiential Design Notation (3)

Lectures, seminars, and studio/field studies in philosophy, theory, and practice of intervention in the physical environment for socially-preferred human experiences. Prerequisite: permission.

ARCH

445 Environmental Design Research Through Photography (3)

Photographic approach to the collection, analysis, and presentation of visual information relevant to the design and evaluation of man-made environments. Case studies, lectures, and class discussions on technical, psychological, and visual problems, followed by five weeks of individual or team photographic projects resulting in completed visual or audio-visual presentations.

ARCH

520 Advanced Wood Structures Design (3)

Study of design methods related to wood structures. Topics include nature of wood as a building material, plywood, glued laminated wood structures, timber piles and pile foundations, pole buildings and conventional wood building framing. Prerequisites: 322 and permission.

BUILDING CONSTRUCTION

B CON

470 Construction Management (3)

Systematic study of management functions in the building industry: planning and scheduling, organization, time and equipment utilization, monitoring and expediting, project administration, cost control. Prerequisite: senior standing.

B CON

480 Law and the Contractor (3)

Basic legal aspects of construction of private and governmental projects. Survey of general principles relating to rights and liabilities of the contractor and other parties under construction contracts including union-labor agreements. Major statutory and regulatory requirements affecting the contractor, including lien laws, environment, and minority hiring practices. Prerequisite: senior standing.

URBAN PLANNING

URB P

407 Urban Planning Studio (5)

Synthesis of urban planning problems and methods in a laboratory section. For majors only. Prerequisite: 465 or equivalent substantive focus sequence.

URB P

475 Town As Artifact (3)

Studies of contemporary and historic towns utilizing work in cultural anthropology and settlement geography to examine urban form and structure. Focus on the physical environment of the town as the container of social interaction. Human activity related to the "shelter" society builds, at the scale of the whole community. Prerequisite: 479.

COLLEGE OF ARTS AND SCIENCES

AMERICAN INDIAN STUDIES

AIS

315 American Indian Language: Salish (5)

The Salish language indigenous to the Seattle area. Objectives: 1) to have a command of the basic structure and vocabulary to the extent of being able to converse entirely in the language (at a simple and restricted level) and have total command of the sound system; 2) to be able, with the aid of a dictionary, to read the oral literature that has been written and write down stories and other texts that the knowledgeable people of a tribe recount; 3) to understand those aspects of the Indian cultures and traditions not understandable through English. Not open to students who have taken GIS 223 and 224. Prerequisites: upper-division standing and permission.

ANTHROPOLOGY

Anthropology

ANTH

498 Seminar on Recent Advances in Medical and Psychiatric Anthropology (3)

Includes: comparative studies of medical systems; cultural construction of illness categories and behaviors; health seeking behavior; comparisons of indigenous and cosmopolitan practitioner-patient transactions; cross-cultural studies of the healing process; cultural analysis of affective and behavioral disorders; and applied clinical relevance of anthropological concepts and findings. Offered jointly with PBSCI 497. Prerequisites: 321 and permission. (Limit: 25 students.)

ANTH

-509 Methods of Sociocultural Research (-5)

Core-course sequence intended for first-year graduate students in sociocultural anthropology. Survey of major issues, alternative strategies, and selected special topics in the design of anthropological research and the collection, processing, and analysis of anthropological data. Prerequisite: graduate standing in anthropology or permission.

Archaeology

ARCHY

320 Prehistory of the Northwest Coast of America (5)

Prehistoric development of life-ways in the Pacific Northwest from the late Pleistocene to contact with Euroamericans. Strategies employed to adapt to the major kinds of environment, as well as stylistic systems in various types of artifacts and art forms. Audio-visual illustration and at least one field trip. 205 or ANTH 100 recommended.

ART

Art

ART

258 Jewelry Design (5)

Introduction to jewelry design and construction through techniques of sawing, filing, soldering, forging, and casting in silver, copper, bronze, and brass, as well as simple stone setting. Prerequisites: 107, 110, 129.

ART

345 Etching (5)

Traditional and contemporary methods of etching as a creative art form. Included are aquatint, hard-soft and lift ground mezzatint, burin, engraving, dry point, niello, crible, and others. Techniques, such as intaglio, relief, stencil, and others. Prerequisites: 107, 110, 129.

ART

346 Collagraph (5)

Fundamentals of positive plate build-up with hard, soft, and pliable materials. The inter-relationship of individual graphic ideas, plate making, and various techniques of printing. Prerequisites: 107, 110, 129.

ART

347 Lithography (5)

General survey of historical and contemporary lithography. Studio problems using a variety of stone, plates, papers, inks, and presses. Hand-drawn and photo chemical methods. Prerequisites: 107, 110, 129.

ART

349 Silk Screen (5)

Studio problems employing the techniques of paper, glue, lacquer, film, hand, drawn-cut, and photo chemical stencils. Prerequisites: 107, 110, 129.

ART

361 Art Techniques (3)

Study of the materials and techniques of the artist and their application to painting and drawing. Prerequisite: 6 credits in 257.

ART

450 Advanced Etching (5)

Advanced problems in etching; photo processes; combining of techniques. Integration of the individual idea with the plate, printing, and color. Prerequisite: 345.

ART

451 Advanced Collagraph (5)

Advanced problems in the art of the collagraph. Prerequisite: 346.

ART

452 Advanced Lithography (5)

Advanced problems in lithography. Prerequisite: 347.

ART

454 Advanced Silk Screen (5)

Advanced problems in the art of silk screen. Prerequisite: 349.

ART

464 Advanced Painting/Drawing (5, max. 15)

Advanced problems in composition. Prerequisite: 15 credits of 463.

Art History

ART H

337 African Art and Society (5)

Explores the ideas and notions expressed visually in sculpture, painting, ceramics, textiles, and architecture and describes their relationships to man and culture in Africa.

ART H

413 Selected Topics in Chinese Art (3, max. 9)

Variety of Chinese art, concentrating on a specific period in time or a specific problem in Chinese history. Topics might include The Art of Bronze Age China, Chinese Figure Painting, or Chinese Painting of the Sung Dynasty. Prerequisite: upper-division standing.

ART H

421 The Yamato-e Tradition (3)

The oldest (twelfth through fourteenth century) narrative handscrolls and their descendants, the paintings of Tosa and other court artists from the fifteenth century onward, and the art of the Rimpa movement from Koetsu and Sotatsu (seventeenth century) to the present.

ART H

427 Haiga: Poem-Painting (3, max. 9)

Introduction to the art of Haiku poetry and its illustrations (Haiga) in history and in practice. Prerequisite: permission.

ART H

485 Art Since World War I (3)

Various aspects of art in Europe and the United States from 1918 to the present, from the point of view of style and iconography. Prerequisite: 380.

ART H

490 American Naive Art in the Twentieth Century (3)

"Pioneer" primitives, and American artists recently or currently at work in this vein, with emphasis on the Northwest. What is naive art? Under what circumstances does it arise and how does one define it?

ASIAN AMERICAN STUDIES

AAS

108 Language and Study Skills (3-5)

Emphasis on development of reading, writing, listening, speaking, and study skills. For EOP students who have been approved by the Asian American Studies Program. Prerequisite: permission.

AAS**370 Japanese American History and Culture (3)**

Historical roots and subsequent changes in the Japanese American group will be examined through an interdisciplinary approach. Topics include historical events, culture, values, social and community structures, institutions, occupations, and future orientations. Prerequisite: 205 or equivalent, or permission.

AAS**443 Undergraduate Field Experience (3-5, max. 15)**

Faculty-supervised practicum experience in a variety of community settings and agencies dealing with Asian Americans. Minimum of one weekly meeting with faculty/field supervisor and an in-depth analysis of the experience upon termination of the practicum required. Prerequisites: 205 or 206 or 442, or equivalent, and permission.

ASIAN LANGUAGES AND LITERATURE**Chinese****CHIN****293 Introduction to Literature and Ideas in China (5)**

Introduction to basic concepts of Chinese thought (Confucianism, Taoism, and Buddhism) as reflected in philosophical writings and literature. Focus on a single idea (e.g., human nature) for an entire quarter. In English; no previous course work on China required.

Korean**KOR****417 Readings in Korean Journals (3)**

Reading and translation of articles from newspapers, news magazines, and other journalistic publications, focusing on the special idiom in current use in various fields, from international and domestic affairs to politics, business, and problems of everyday life. Special consideration given to the students' particular interests. Prerequisite: 413 or equivalent; 415 and 416 recommended.

Tagalog**TAGLG****203 Second-Year Tagalog (3)**

Continuation of 101, 102, 103, stressing conversational fluency, aural comprehension, vocabulary, and grammar; oral and written composition; reading of articles and short stories of historical and cultural interest. Prerequisite: 103 or permission.

ASTRONOMY**ASTR****556 Planetary Surfaces (3)**

Comparison of surface processes and conditions on Mercury, Venus, earth, moon, Mars, asteroids, and satellites of the great planets. Emphasis on understanding how and why planetary surfaces differ from one another and the implied course of solar-system evolution. Analysis of data from earth-based telescopes and from manned and unmanned space missions. Offered jointly with GEOL 556 and GPHYS 556.

ATMOSPHERIC SCIENCES**ATM S****422 Introduction to Dynamic Climatology (3)**

Detailed discussion of the external parameters governing the climatic mode assumed by the planets. The "heat budget" method of climatology is developed and applied to the sensitivities of the lithosphere/hydrosphere/atmo-

sphere/cryosphere system to variations in external parameters and attendant climatic changes. The inadequacies of the heat balance approach, an introduction to dynamic climatology, and the importance of hydrosphere/atmosphere interaction, with examples of interaction and single dynamic systems, are developed. Prerequisite: 301 or 321 or instructor's permission.

BLACK STUDIES**BLK S****492 Special Topics in Black Studies (3-5, max. 15)**

Topics in which students and faculty have developed an interest as a result of work done in other classes or as a result of the need to investigate in greater depth Black Studies issues. Topics vary. Prerequisite: 200 or permission.

CHEMISTRY**CHEM****164 General and Introductory Environmental Chemistry (5)**

Parallels 160. Beyond the coverage of descriptive general chemistry of 160, additional material emphasizes environmental applications of basic chemistry. Prerequisite: 150 or 155.

CHICANO STUDIES**CHSTU****102 Introduction to Chicano Studies (5)**

Interdisciplinary course designed to survey the history, economics, politics, art, literature, and thought of the Chicano and to examine the modern Chicano Movement. Analyzes the interdisciplinary nature of Chicano Studies and prepares the student for advanced courses in Chicano Studies. Not open to students who have taken GIS 302.

CHSTU**204 History of Chicanos in Washington State (5)**

Provides a basic understanding of Chicano history in Washington State: the causes, extent, and results of the Chicano presence from earliest Spanish explorations to the present; the contemporary problems of Chicanos in a broader national context. Not open to students who have taken GIS 201. Prerequisite: sophomore standing or permission.

CHSTU**305 Advanced Chicano Studies (3)**

Advanced interdisciplinary course that looks at a restricted number of topics dealing directly with Chicanismo as a developmental process and its stabilization within the United States. Topics are: Curanderismo, Chicano folk magic and its relation to contemporary Chicano values; a study of the barrio, its problems and proposed solutions; the migrant, his life and misery within the System; folk expression, oral tradition related to previous topics and perpetuation of phenomena through oral means. Not open to students who have taken GIS 305. Prerequisites: 102 or 202; some reading ability of Spanish.

CHSTU**310 Intermediate Mexican Folk Dance (3)**

Expands the knowledge of Mexican folklore through research, dance, and music and enables the students to create their own folk dance through the development of their own choreography. Prerequisite: 201 or equivalent.

CHSTU391' Independent Study (1-6, max. 10)

Students engage in a variety of Chicano Studies topics and develop projects of their choosing under direction of Chicano Studies faculty in various disciplines. Students may work individually or in teams, depending on project and scope. Prerequisite: permission.

CINEMA STUDIES**CINE**460 American Directors (5)

In-depth study of individual directors essential to the definition of the American cinema. The director to be examined is determined each time the course is offered and includes such distinguished artists as: King Vidor, Nicholas Ray, Samuel Fuller, John Huston. Focus on the director's evolving style and thematic concerns, as well as his contribution to the art of the cinema. Prerequisites: 201 or 202 or 203 and junior standing, or equivalents.

CLASSICS**Classics****CLAS**322 Intellectual History of Classical Greece (5)

Development of Greek thought from mythic and poetic formulations to description, analysis, and systematic abstraction; based on the study of a variety of poetic, historical, and philosophical texts, from Homer to the Hellenistic age.

Greek**GRK**308 Introduction to Koine Greek Texts (3)

Reading and discussion of selected religious and philosophical texts from Koine Greek. Prerequisite: 306.

COMMUNICATIONS**CMU**347 Advertising Internship (2-5, max. 6)

Internships are assigned to qualified students through the cooperation of the advertising industry. Internships may be specialized in that the student remains in one functional area (e.g., copywriting, media, advertising research) or they may be varied to permit the student to acquire experience throughout the organization. Prerequisites: 340 and either 341 or 342, depending upon the nature of the internship; a major in communications with 120 University credits completed.

CMU367 Broadcast Internship (2-5, max. 6)

Educational and professional experience in the day-to-day operation of broadcast stations. Prerequisites: permission.

CMU399 Editorial Practicum Seminar (2-6, max. 6)

Supervised academic work done in connection with editorial internship, in setting designed to extend the student's knowledge of the field and professional perspectives. Prerequisites: 320, 321, 322, and permission of instructor.

CMU476 Noncommercial Telecommunications (3)

Development of functions of educational radio and television and an appraisal of existing public and instructional systems of broadcasting. Focus on the financial and political relationships among educational institutions,

government, and the Corporation for Public Broadcasting. Prerequisites: 150, 250, or permission.

COMPARATIVE AND FOREIGN AREA STUDIES**Latin American Studies****LATAM**493 Senior Thesis (5)

Research and writing of an original thesis on a specialized topic in Latin American Studies. Each student is required to work in consultation with one member of the faculty of the Latin American Studies program. Prerequisite: 492.

LATAM499 Undergraduate Independent Study or Research (3-5, max. 15)

Prerequisite: permission.

Russia and Eastern Europe**REEU**440 History of Communism (5)

Offered jointly with HSTEU 440. See HSTEU 440 for course description and prerequisites.

South Asia**SASIA**100 The Indian World-View (5)

Introduction to distinctive literary and artistic expressions, classical and modern, representative of the Indian tradition. Readings in primary sources; artistic monuments as displayed in selected audiovisual materials.

COMPARATIVE HISTORY OF IDEAS**CHID**340 Understanding Ideas in Other Cultures (5)

Problems involved in dealing with the thought of traditions other than our own. Limitations of translation; implications of holism; the Whorf hypothesis; emic vs. etic approaches in social science; cultural relativism; indigenous standards of criticism; ethnocentrism and explanation. Interdisciplinary approach: lectures by anthropologists, linguists, philosophers, psychologists, specialists on literature and religion. Prerequisite: HST 207.

CHID491 Senior Thesis (5)

Preparation of a senior thesis under the direction and supervision of a faculty member. Prerequisites: 490 and permission of the instructor.

CHID499 Undergraduate Independent Study or Research (1-5, max. 10)

Supervised independent study for students wishing to pursue topics not available in regular course offerings. Prerequisites: HST 207 or 205, and permission of the instructor.

COMPARATIVE LITERATURE**C LIT**407 Literary Impressionism (5)

Selected novels, stories, poems, and plays by Fet, Garshin, Chekhov, Crane, Conrad, James, Bunin, and Proust which are frequently iden-

tified with the impressionist trend in Western literature from 1850-1920. Non-English works read in translation, therefore, foreign language knowledge not required. Prerequisite: at least 10 credits of literary study.

DRAMA

DRAMA
265 Black Theatre Workshop (3)

Studio course using Black arts materials which introduces the student to basic skills and techniques associated with performance, while also developing self-awareness and confidence. Prerequisite: 202 or concurrent registration, or permission.

DRAMA
420 Design and Technical Drafting (2, max. 4)

Laboratory and project critique covering stage design graphics and technical drawing; specifically: designer's elevations, ground plans, sections, detail drawing, transposition of design drawing information to technical drawings. Prerequisite: 210.

DRAMA
433 Children's Theatre Workshop (2, max. 6)

Exploratory experiences in a variety of children's theatre forms through in-class and in-production participation. Prerequisites: 253 and 230, junior standing, and permission.

DRAMA
457 Studio I (12, max. 36)

Skill development in acting, voice, speech, and movement necessary for professional training in acting. Prerequisite: admission to the Professional Actor Training program.

DRAMA
458 Studio II (12, max. 36)

Continuation of 457. Prerequisites: 457 and completion of the first year of the Professional Actor Training program.

DRAMA
494 Special Studies in Theatre and Drama
(3, max. 9)

Topics in drama, history, and criticism. Prerequisites: 102, 473, 476, or permission.

DRAMA
538 Seminar in Children's Drama (4)

Critical study of philosophies and practices--past and present--of the children's drama movement in the United States with opportunities for practical applications; examination of current problems in children's drama education. Prerequisite: 331 or permission.

DRAMA
539 Professional Problems in Children's Drama (2, max. 12)

Observation and critical investigation and discussion of the artistic principles and practices of selected children's drama programs and related arts projects in the greater Seattle area. Prerequisites: graduate standing and permission.

DRAMA
555 Special Problems in Acting (6, max. 18)

Audition techniques, style problems, popular entertainment techniques. Prerequisites: 458 and completion of the second year of the Professional Actor Training Program.

ECONOMICS

ECON
409 Undergraduate Seminar in Political Economy (5)

Undergraduate seminar in political economy with focus on Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Offered jointly with POL S 409. Prerequisites: 300, POL S. 201, and permission.

ECON
538 Economic Aspects of Marine Policy II (3)

Offered jointly with IMS 538. See IMS 538 for course description and prerequisite.

ENGLISH

ENGL
181 Expository Writing (5)

Emphasis upon clear, coherent, correct writing. Level of course intermediate between 171 and 271.

ENGL
270 Grammar of the English Sentence (5)

Designed for students who wish to improve their writing of standard English sentences. Demonstrates and gives practice in combining the fundamental grammatical units that comprise a sentence. Includes attention to common errors in sentence structure and stresses ways of achieving variety and emphasis in the sentence, qualities found in a mature writing style.

ENGL
302 English Literature: Blake to Yeats (5)

English literature from the end of the eighteenth to the beginning of the twentieth century, with special emphasis on the Romantic tradition.

ENVIRONMENTAL STUDIES

ENV S
101 Introduction to Environmental Studies (5)

Survey of the history of environmental awareness in the United States and the world. Emphasis on development of the recognition of the complexities of relationships among components of ecosystems and the dependence of human culture upon ecosystem services and resources.

GENETICS

GENET
455 Molecular Genetics (3)

Use of genetic approaches to determine the molecular structure of chromosomes and the molecular mechanisms of gene expression. First part of the course draws upon information obtained with viruses and bacterial cells and serves as background for a study of eukaryotic cells in the second part. Prerequisite: 451, CHEM 232, or permission.

GENET
461 Genetics Laboratory (3)

For students who desire laboratory experience in the use of genetic materials for the solution of unresolved problems. Prerequisites: 451 or equivalent, and organic chemistry.

GENET

590 Population Genetics Seminar (1)

Weekly presentation by participants of current literature and ongoing research in evolutionary genetics of natural populations, human population genetics, and quantitative genetics applied to animal and plant breeding. May be repeated for credit. Prerequisite: 562 or permission.

GEOGRAPHY

GEOG

465 Computer Cartographics (5)

Examination of methods and techniques of programming used in computer graphics applications in cartography. Basic concepts and operating procedures for batch and interactive graphics, including simple and hierarchical data structures. Emphasis on the development of skills in computer graphics programming. Students are encouraged to develop and implement computer cartographic applications pertinent to their own interests. Students use a variety of graphics devices including the Calcomp 936 plotter and the Tektronix 4010/4014 CRT Terminal. Prerequisite: 365 or elementary FORTRAN programming ability or permission of instructor.

GEOG

470 Environmental Hazards (3)

Examination of human response to extreme geophysical and man-made hazards, including denial, avoidance, mitigation, and risk-spreading mechanisms. Role of hazard perception in economic and behavioral decision making as it affects distribution of population and human activities. Ramifications of perceptions, uncertainty, prediction technology, and warning systems in individual and public policy response. Prerequisite: 205 or ENV S 204, or permission.

GEOLOGICAL SCIENCES

GEOL

402 Field Geology (12)

Field study emphasizing off-campus geologic mapping in a variety of terranes, presenting diverse geologic problems and preparation of geologic reports. Prerequisites: 301, 320, 321, 340, 461, or permission.

GEOL

489 Exploration Geology (3)

Principles and techniques of geological and geochemical prospecting for mineral deposits. Prerequisites: senior standing in geological sciences and 485.

GEOL

490 Special Topics (2-5, max. 10)

GEOL

519 Geological Remote Sensing (4)

Critical examination of remote sensing methods that are used to determine chemistry, mineralogy, and structure of the earth's surface and the surfaces of solar system bodies. Photographic and digital multispectral imagery, reflectance spectroscopy, thermal infrared spectroscopy, gamma ray spectroscopy, radar imagery, and other techniques. Emphasis on the application of satellite and aircraft measurements to terrestrial geologic problems. Prerequisite: CETC 565.

GEOL

556 Planetary Surfaces (3)

Offered jointly with ASTR 556 and GPHYS 556. See ASTR 556 for course description.

GEOL

590 Special Topics (2-5, max. 10)

GEOPHYSICS

GPHYS

556 Planetary Surfaces (3)

Offered jointly with ASTR 556 and GEOL 556. See ASTR 556 for course description.

GERMANICS

GERM

493 Proctoring of First-Year German Film Course (1-2, max. 6)

Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups of participants in 150. Discussion group leaders (proctors) may participate in this program one or two hours per week and receive one credit for each hour in class. A total of 6 credits may be earned by proctors for participating in three quarters of 150 which runs the entire year under a different format each quarter.

GERM

494 Proctoring of Second-Year German Film Course (1-2, max. 6)

Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups of participants in 250. Discussion group leaders (proctors) may participate in this program one or two hours per week and receive one credit for each hour in class. A total of 6 credits may be earned by proctors for participating in three quarters of 250 which runs the entire year under a different format each quarter.

HISTORY

General History

HST

294H Historiography (5)

Readings in the great historians, from the earliest time to the beginning of the twentieth century. Investigates how perception of the human past has altered our times. Recommended for students in the department's Honors program, but also open to non-Honors students.

History of the Americas

HSTAA

357 History of the Formation of the American Constitutional System (3)

Precedents in English and colonial experience; state constitution-making after independence; the Articles of Confederation; western territorial government; the Convention of 1787 and ratification of the new Constitution; the Bill of Rights; contribution of the Supreme Court under Marshall. Prerequisite: previous study of American history.

HSTAA

414 History of Occupations and Uses of American Land, 1607-1914 (5)

Traces the history of the larger features of the Occupation of the American land and the ways in which the great natural resources--furs, farm lands, metals and minerals, forests, fish, water and water power--were claimed and used. Open to upper-division students who must demonstrate a general knowledge of American history.

HSTAA**415 History of Indian-White Relations in Anglo-America (5)**

Indian-White contact, conflict, and accommodation from the Atlantic colonies in the seventeenth century to the American nation in the twentieth: Indian cultural groups and their varying adjustments to European civilization; economic exchanges and cultural borrowing; Anglo perceptions of and approaches to natives; effects of colonial wars and American Revolution; evolution and implementation of federal Indian policies; impact of westering frontiersmen; disintegration of Indian societies in the nineteenth century; Indian resistance to acculturation; condition and changing role of native Americans in modern society.

HSTAA**428 History of Social Structure in America (5)**

Development of social structure in the United States, with emphasis on theories of society, historical demography and the social collective, the family, work, deviance and social control, and education. Recent work of quantitative historians, following both historical trends as such and the changing content of historical scholarship. Prerequisite: introductory course in American history, political science, or sociology.

HSTAA**457 History of the Ideas Underlying the United States Constitution (6)**

Ideas about government by consent, checks and balances, bills of rights, federalism, etc., as explored in the constitutional struggles of seventeenth and eighteenth century England, as brought to the fore in the American Revolution, and as embodied in the original state and federal constitutions. Students attend lectures in 357, give oral reports on their reading in the sources at a weekly discussion section, and work up one report as a written term paper. Credit cannot be received for both 357 and 457. Prerequisite: previous study of American history.

HSTAA**557 Seminar on the Drafting and Ratification of the United States Constitution (5)**

Systematic examination and utilization of the major primary sources on the earliest state constitutions and the Articles of Confederation, on the Federal Convention of 1787, and on the ratification debates. Students will be put to work on such documentary materials as the Journals of the Continental Congress, Burnett's Letters of Members, Farrand's Records, Elliot's Debates, The Federalist, Force's American Archives, American State Papers, and U.S. Reports. Oral weekly reports on assigned groups of documents and a documented research paper required. Prerequisite: one course on the United States Constitution or 357 or 457 taken concurrently.

Ancient and Medieval History**HSTAM****472 Intellectual and Religious History of the Later Middle Ages (5)**

Selected topics in intellectual and religious history 1250 A.D. to 1550 A.D. Concentration on Europe north of the Alps and on philosophical and theological issues rather than on "humanism" and the history of scholarship. Topics include: early fourteenth century religious movements; the Avignonese papacy; mysticism in the fourteenth, fifteenth, and sixteenth centuries, with special attention to Eckhart, Cusanus, and Teresa of Avila; nominalist philosophy and theology; the *devotio moderna*; Wyclif and the Lollards; conciliarism; northern human-

ism with special attention to Erasmus; radical religious movements of the sixteenth century; Luther against his medieval background; Calvin; Catholic spirituality in the sixteenth century with special attention to Ignatius Loyola; witchcraft, magic and popular religion in the sixteenth century. Most of the reading in original sources in translation. Prerequisite: one course in medieval history.

Modern European History**HSTEU****440 History of Communism (5)**

Communism from its origins in the Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Offered jointly with REEU 440. Prerequisites: two courses in modern European history or politics.

HSTEU**467 Jewish Rescue and Resistance During the Holocaust (3)**

Defines the meaning of resistance under a totalitarian regime in general and the Nazis in particular; characterizes the situation of the Jews during the various stages of the Holocaust and the ensuing Jewish defense reactions; Jewish armed resistance, uprisings in ghettos, in towns, large cities, extermination camps; Jewish partisan movements. The antagonism between the war against Hitler and the rescue of the Jews is a major theme. 369 or HST 469 recommended but not required.

HONORS**H A&S****-203 Concept of Evolution in Organisms and the Biosphere: Cultural Interactions (-3)**

The nature and history of evolution in organisms and the biosphere: historical and modern interactions between this focal concept and other aspects of human culture; in-depth consideration and understanding of basic concepts in contrast to covering a large spectrum of material. Limited to Honors students.

H A&S**300 Introduction to the Professions (5, max. 13)**

Pre-professional course with variable content such as law, medicine, public affairs, etc. Prerequisite: permission.

H A&S**398 Interdisciplinary Special Topics (1-5, max. 10)**

Special interdisciplinary course for Honors students. Prerequisite: permission.

MATHEMATICS**MATH****103 Introduction to Elementary Functions (3)**

Continues the study of algebra begun in 100 and 102 with emphasis on functions (polynomial, rational, logarithmic, exponential, and trigonometric). Open only to specially admitted students (i.e. (1) educational opportunity students, or (2) students admitted with an entrance deficiency in mathematics) who have completed 102.

MATH**304 Linear Algebra (3)**

Continuation of 302, 303. Factorization of polynomials, g.c.d. Primary decomposition theorem. Rational and Jordan forms. Operators on inner product spaces. Bilinear forms. Prerequisite: 303.

MATH
329 Advanced Calculus (3)

Infinite series, uniform convergence, power series, improper integrals. Prerequisite: 328.

MATH
415 Number Theory (3)

Congruences, arithmetic of quadratic fields, binary quadratic forms, Dirichlet's theorem on primes in an arithmetic progression, Chebyshev's theorem on the distribution of primes, the partition function, equations over finite fields. Prerequisite: 414.

MUSIC

Music
MUSIC

146 Diction for Singers (2)

Application of rules of diction, enunciation, and articulation in typical vocal repertoire in French and English. Individual performance of required and optional prepared repertoire, with piano accompaniment. Drill of recurrent textual vocabulary. Additional study of grammar, vocabulary, and literature in the several language departments recommended. Required for voice majors; elective for others if space available.

MUSIC
456 Musical Acoustics (3)

How musical instruments function and interact with acoustics of rooms, with particular emphasis upon musical aspects of acoustics. Prerequisites: PHYS 207 and permission.

MUSIC
461 Advanced Piano Ensemble (1, max. 3)

In-depth study and performance of the great works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability. Prerequisite: permission.

MUSIC
575 Seminar in Theory (3, max. 18)

Development and discussion of current student and faculty research in composition/analytical theory and metatheory.

Music Applied

MUSAP
540 Private Instruction: Piano (3, max. 9)

MUSAP
541 Private Instruction: Violin-Viola
(3, max. 9)

MUSAP
542 Private Instruction: Voice (3, max. 9)

MUSAP
543 Private Instruction: Violoncello
(3, max. 9)

MUSAP
544 Private Instruction: Double Bass
(3, max. 9)

MUSAP
545 Private Instruction: Organ (3, max. 9)

MUSAP
546 Private Instruction: Flute (3, max. 9)

MUSAP
547 Private Instruction: Oboe (3, max. 9)

MUSAP
548 Private Instruction: Clarinet (3, max. 9)

MUSAP
549 Private Instruction: Bassoon (3, max. 9)

MUSAP
551 Private Instruction: Horn (3, max. 9)

MUSAP
552 Private Instruction: Trumpet (3, max. 9)

MUSAP
553 Private Instruction: Trombone (3, max. 9)

MUSAP
554 Private Instruction: Tuba (3, max. 9)

MUSAP
555 Private Instruction: Harp (3, max. 9)

MUSAP
556 Private Instruction: Percussion
(3, max. 9)

MUSAP
557 Private Instruction: Harpsichord
(3, max. 9)

MUSAP
580 Private Instruction: Piano (3, max. 27)

MUSAP
581 Private Instruction: Violin-Viola
(3, max. 27)

MUSAP
582 Private Instruction: Voice (3, max. 27)

MUSAP
583 Private Instruction: Violoncello
(3, max. 27)

MUSAP
584 Private Instruction: Double Bass
(3, max. 27)

MUSAP
585 Private Instruction: Organ (3, max. 27)

MUSAP
586 Private Instruction: Flute (3, max. 27)

MUSAP
587 Private Instruction: Oboe (3, max. 27)

MUSAP
588 Private Instruction: Clarinet (3, max. 27)

MUSAP
589 Private Instruction: Bassoon (3, max. 27)

MUSAP
591 Private Instruction: Horn (3, max. 27)

MUSAP
592 Private Instruction: Trumpet (3, max. 27)

MUSAP
593 Private Instruction: Trombone (3, max. 27)

MUSAP
594 Private Instruction: Tuba (3, max. 27)

MUSAP
595 Private Instruction: Harp (3, max. 27)

MUSAP

596 Private Instruction: Percussion
(3, max. 27)

MUSAP

597 Private Instruction: Harpsichord
(3, max. 27)

NEAR EASTERN LANGUAGES AND LITERATURE

N.E.

240 Introduction to the Bible (Old Testament) (5)

Introduction to the Hebrew Bible in English. Presenting the results of modern critical studies on the Bible and the Ancient Near East and concentrating in particular on the meaning of the Biblical records in their own time and environment.

N.E.

320 Muhammad and the Qur'an (3)

Study of the religious and cultural milieu of Arabia before Muhammad; the nature of the Qur'an's revelation to Muhammad; the Qur'anic content and style; the literary history of the text and its various "readings"; the main ideas emphasized by the Qur'an and the place of the Qur'an in the religious and intellectual life of Muslims. Prerequisites: 210, HST 261, RELIG 201, ANTH 318, or permission.

NUTRITIONAL SCIENCES AND TEXTILES

Nutrition, Foods, Dietetics

NUTR

516 Sensory Evaluation of Foods (4)

Sensory analysis for quality-control standardization and development of foods and food products. Emphasis on the influences of environment, human variability, sampling errors, color, form, flavor, and texture. Techniques in development of experimental design, application of methods, statistical evaluation of data, and interpretation of results. Prerequisite: permission.

NUTR

599 Current Topics in Human Nutrition, Dietetics, and Foods (1, max. 3)

Current literature and recent symposiums in the field of human nutrition, dietetics, and foods. Faculty and graduate students participate. Offered on credit/no credit basis only.

NUTR

600 Independent Study or Research (*)

Offered on credit/no credit basis only.

NUTR

700 Master's Thesis (*)

Offered on credit/no credit basis only.

Textile Science, Costume Studies

TSCS

327 Textile Dyestuffs (3)

Study of textile dyes used by hand-weaver craftsmen and commercial dyers dealing with the chemistry and technology of dyestuffs. The raw materials, dyestuffs, and resulting dyed fabric are examined in detail with color fastness properties emphasized. Theoretical, as well as economic, points of view are considered. Dyeing by dyes and pigments using various catalytic agents and generic fibers is conducted in laboratory sessions. Prerequisite: junior standing.

TSCS

351 Textile Economics (3)

Economic factors affecting worldwide production and distribution of textile products. Economic factors affecting the growth, development, and structure of the textile industry in the United States. The effects of federal and state legislation on textile products and prices and on consumer satisfaction. Prerequisites: ECON 200 and junior standing.

TSCS

436 Fashion Illustration (3, max. 9)

Visualization of ideas so that design concepts are transmitted and understood in renderings; drawing human figure; representing and differentiating fabrics; understanding techniques and media of representation. Prerequisites: ART 105, 106, upper-division standing, and permission.

TSCS

461 Textile Museology (3)

Methods of acquisition, cataloging, preservation, conservation, restoration, exhibition. Public relations related to textile museology. Prerequisites: 10 credits in chemistry and 325, 326, 329.

TSCS

532 Seminar in Historic Costume (3)

Readings and discussion of research in history of costume and fashion. Methods of investigation of historic costume. Prerequisite: 432 or equivalent preparation in history, art history, or drama.

TSCS

534 Contemporary Costume Design (5)

Mass production, using new fabrics and fibers. Study and experiment based on wearability, stress, strain, and drapability of fabric. Mass production of clothing for special sports incorporating differing stretch values. Motion, ease, and stress factors. Mass production for special groups. Growth factors for children, weight problems involving loss or gain of obese and pregnant group. Experiment and design apparel that offers versatility, easy care, comfort, and adjustment for weight problems. Prerequisite: graduate standing.

TSCS
551 Textile Economics (3)

Seminar. Readings and discussion of current periodical literature on: economic factors affecting technical development, quality control, cost and utilization of textile products; the responsibility of various segments of the industry to the character and quality of the finished product; research resources and possibilities in textiles; especially through cooperation with government and industry. Prerequisites: 325, 451, 452, ECON 200.

TSCS
600 Independent Study or Research (*)

Offered on credit/no credit basis only.

TSCS
700 Master's Thesis (*)

Offered on credit/no credit basis only.

OCEANOGRAPHY

OCEAN
438 Marine Microbiology (3)

Technosy and symbiotic relationships of marine and estuarine microorganisms; metabolic activities including nutrient cycles and geological activities; effects of environmental parameters and land-based infusions; considerations of marine microbial activity. Prerequisites: BIOL 210, 211, 212, or equivalents and CHEM 231, 232 or equivalents.

PHILOSOPHY

PHIL
102 Contemporary Moral Problems (5)

Philosophical consideration of some of the main moral problems of modern society and civilization, such as abortion, euthanasia, war, sexual morality, governmental paternalism, reverse discrimination, and capital punishment. Topics vary.

PHIL
114 Philosophical Issues in the Law (5)

Analysis and critical assessment of various philosophical issues in law and legal reasoning. Material drawn from actual law cases as well as writings by contemporary philosophers of law and lawyers. Topics include: criminal responsibility, civil disobedience, abortion, reverse discrimination, enforcement of morals, etc. No special legal or philosophical training required.

PHIL
344 History of Recent Ethics (5)

Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition. Prerequisite: one course in philosophy.

PHYSICAL AND HEALTH EDUCATION

Physical Education

PE
301 Physical Activity and Sport: A Social Psychological Perspective (4)

Introduction to the social psychology of sport and motor performance with emphasis upon the reciprocal effects of interpersonal and group influence processes. Topics include social facilitation, social reinforcement, observational learning, individual versus group performance, group cohesion, leadership, and intra- and inter-group conflict. Prerequisite: junior standing.

PE
303 Sport in American Education: A Socio-Historical Perspective (4)

The installation of sport and physical culture in the American schools and colleges in the socio-historical perspective. Ideas, trends, and societal factors which influenced the development of sport and physical activity in the larger society and which led to the inclusion of these forms in schools and colleges. The origins and subsequent development of physical educators as an occupational group. Prerequisite: junior standing.

PE
437 Advanced Athletic Training (5)

Advanced procedures in athletic training and injury rehabilitation. Consideration for safety factors in athletic contests, sports equipment, and facilities. Theory and practice in the use of therapeutic modalities for injury rehabilitation. Prerequisites: 331, 332, 336.

PE
470 Social Psychology of Sport (4)

Examination of current issues in the social psychology of sport. Topics include audience effects, anxiety and arousal, competition, aggression, collective violence, attitudes, and individual differences in athletic performance. Prerequisite: 301 or equivalent.

PE
503 Seminar in Sport Administration (1, max. 3)

Issues and problems in the management of sport programs and facilities. Prerequisite: permission.

PE
504 Seminar in Sports Medicine (1, max. 3)

Current practice methods in athletic training and/or exercise prescription for cardio-pulmonary condition. Prerequisite: permission.

PE
595 Internship in Sport Administration (3-6, max. 12)

Supervised field experience. Nine hours minimum, eighteen hours maximum per week. Open to graduate students in M.S. Physical Education Sport Administration option only. Prerequisites: concurrent registration in 503 and permission.

PE
596 Internship in Sports Medicine (3-6, max. 12)

Supervised field-clinical experience. Nine hours minimum, eighteen hours maximum per week. Open to graduate students in M.S. Physical Education Sports Medicine option only. Prerequisites: concurrent registration in 504 and permission.

PHYSICS

PHYS
310 Light and Color (3)

Light and color treated as an introduction to basic scientific concepts to help students develop their understanding of scientific viewpoints and techniques. Objects treated include pigments, filters, prisms, lenses, rainbows, eyes, lamps, etc. Emphasis on development of concepts used to understand these and other basic elements in light and color. With the help of lecturers from the humanities, cultural connections of these subjects are explored. Prerequisite: students must have accumulated a substantial number of credits in their own majors.

PHYS

328 Statistical Physics (3)

The elements of statistical mechanics and their applications. Prerequisites: 221, 222, 223; 324 or a similar introduction to quantum mechanics; MATH 327.

POLITICAL SCIENCE

POL S

409 Undergraduate Seminar in Political Economy (5)

Offered jointly with ECON 409. See ECON 409 for course description and prerequisites.

POL S

436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5)

Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Prerequisite: junior standing.

POL S

566 Problems in Comparative Legal Institutions (3)

Social science inquiry in comparative legal institutions. World wide scope, with attention to both theory of law in society and development and practice of legal institutions.

PSYCHOLOGY

PSYCH

559 Seminar in Current Research in Vision (1)

May be repeated for credit. Prerequisite: permission.

ROMANCE LANGUAGES AND LITERATURE

Roman Languages and Literature

ROMAN

600 Independent Study or Research (*)

French

FREN

496 Poetry and Song as Elements in French Civilization (5)

The relationship of poetry and music as expressed in the chanson in several periods of French culture. Primary emphasis to twentieth-century post-composer-performers like Tranet, Brassens, Brel, Moustaki. Attention given to the medieval troubadours and to poet-musician collaboration in the Renaissance and later periods. Prerequisite: 203 or equivalent.

FREN

499 Special Topics (1-5, max. 10)

Topics to meet special needs. Prerequisites: permission of the instructor and the undergraduate or graduate program adviser.

Italian

ITAL

499 Special Topics (1-5, max. 10)

Topics to meet special needs. Prerequisites: permission of the instructor and the undergraduate or graduate program adviser.

Spanish

SPAN

407 The Spanish of Latin America (5)

Introduction to the dialectal variants of Latin-American Spanish through the reading of dialectological studies and selected literary works. Prerequisite: 203 or equivalent.

SPAN

466 Chicano Literature: Fiction (5)

Chicano fiction, both short story and novel. Nineteenth- and early twentieth-century fiction, as well as contemporary works, are examined in an attempt to trace the development of Chicano fiction in the proper historical trajectory. Focus primarily on purely literary questions, secondarily, on the social and cultural context of the works, and, to a lesser extent, on the relationship of Chicano fiction to that of both Latin and Anglo America. Primary readings in English and Spanish as well as considerable reading in secondary sources. Students must research and write on problem areas related to theory, theme, and genre. Prerequisites: any three of 300-level literature courses.

SPAN

499 Special Topics (1-5, max. 10)

Topics to meet special needs. Prerequisites: permission of the instructor and the undergraduate or graduate program adviser.

SCANDINAVIAN LANGUAGES AND LITERATURE

SCAND

590 Special Topics in Scandinavian Literature (3, max. 12)

Study of Icelandic legendary sagas within the context of epic literature in medieval Europe. Prerequisite: reading knowledge of the Scandinavian languages.

SLAVIC LANGUAGES AND LITERATURE

Russian

RUSS

501 Russian Language for Graduate Students (2)

To develop skills that will be of particular use to the graduate student and to those seeking employment using the Russian language. Emphasis on rapid assimilation of a variety of written materials with both sophisticated understanding and maximum retention of vocabulary, and on ability to discuss in Russian the more theoretical and abstract kinds of material. Prerequisites: 403 or equivalent, and graduate standing.

RUSS

525 Russian Literature, 1890-1917 (5)

Survey of major trends in Russian literature around the turn of the twentieth century, based on texts and critical readings in Russian. Includes both the prose and the poetry of "poetic realists" of the late nineteenth century, symbolists, acmeists, and futurists. Prerequisites: SLAV 588 and at least four years of Russian language or equivalent.

RUSS

554 History of the Russian Literary Language (5)

Russian literary language from the eleventh through the twentieth centuries, with special attention to syntax and lexicon and to the development of notions of literary styles. Offered in Russian. Four years of Russian language or equivalent recommended.

SOCIETY AND JUSTICE

SO JU

470 Evaluation Research in Criminal Justice (5)

Designed to acquaint students with research techniques applicable to the system of criminal justice. Topics include an examination of available data sources; the planning, design, and implementation of evaluation methodologies; and the utilization of research findings. Special emphasis on consideration of the ethics of such research in terms of the privacy and security of individuals. Prerequisite: Society and Justice majors or permission.

SO JU

499 Readings in Society and Justice (1-5)

Individual readings in society and justice. Prerequisite: majors only.

SOCIOLOGY

SOC

367 Community Power and Urban Life (5)

Background on forces influencing the growth of contemporary cities. Major focus on who controls the city and particularly on the policy outcomes of this control as they influence community life. Exploration of a variety of substantive areas including urban renewal, welfare, and transportation through city case studies. Prerequisite: 110; 365 recommended.

SOC

419 Fieldwork: Observations and Interviewing (5)

Perspective, logic, and techniques of qualitative social research and analysis. The nature and uses of intensive interviewing, participant observation, and analytic ethnography. Application of field research principles. Research project required in addition to reading and analysis of classic studies. Prerequisites: 110 and 240 or 352.

SOC

563 Advanced Seminar in Medical Sociology (3)

Offered jointly with HSERV 564. See HSERV 564 for course description and prerequisite.

SOC

568 Women and Technology (3)

Offered jointly with SMT 568. See SMT 568 for course description.

SPEECH COMMUNICATION

SPCH

475 Organization Communication (5)

Analysis of the role of communication in organizations, the types of problems arising, and approaches to their resolution. Communication in the human relations and productivity of organizations. Applying communication skills in various organization roles. Prerequisite: 373 or permission.

SPCH

498 Special Topics in Speech Communication (2-5, max. 10)

Lecture, seminar, and/or team study with topics varying from quarter to quarter. Prerequisite: permission.

SPCH

575 Phenomenological Methods and Philosophical Criticism in Speech Communication (5)

Application of philosophical criticism, participant observation, and ethnomethodology pri-

marily in interpersonal and small group communication. Prerequisite: 501 or equivalent.

ZOOLOGY

ZOOL

-456 Developmental Biology of Animals (-3)

Laboratory, with experiments, to accompany material presented in 455-. Introduction to properties and experimental analysis of developing systems, and a descriptive and comparative study of development with emphasis on chordates. Prerequisite: BIOL 212. Prior completion of ZOOL 301 recommended.

ZOOL

478 Environmental Physiology (3)

Physiological adaptation in an ecological and evolutionary context, with emphasis on vertebrate animals. Adaptation to physical parameters of the environment and to temporal environmental cycles; whole-animal energetics, including thermal relations; water and solute regulation. Prerequisite: 301.

SCHOOL OF BUSINESS ADMINISTRATION

BUSINESS ECONOMICS

B ECN

528 International Financial Management (3)

Analysis of financial problems facing United States businesses engaged in international activities: financing foreign investment, financial control of foreign operations and working capital management including foreign exchange positions.

BUSINESS, GOVERNMENT, AND SOCIETY

BG&S

462 The Social Responsibilities of Business (3)

Focus on the more conventional issues of social responsibility: economic, social, and political trends and their implications for business managers and the business system; role of business ethics and corporate morality in capitalist ideology; managerial responses to the changing social and political environment; and corporate social audits. Prerequisite: junior standing.

INTERNATIONAL BUSINESS

I BUS

470 Management of International Trade Operations (4)

Applicable for students interested in exporting and importing activities, but especially relevant to small companies. Emphasis on management of import-export operations and the application of relevant functional tools. Cases and class projects drawn from service companies as well as manufacturers. Prerequisite: 300.

SCHOOL OF DENTISTRY

COMMUNITY DENTISTRY

COM D

201 Planning a Career in Dentistry for the Future (2)

Future-oriented overview of important concepts in dental science, contemporary modes of patient treatment, and dental care delivery systems. Provides first-hand exposure to the present practice of dentistry and prerequisite materials in oral anatomy, epidemiology, and other

basic science subjects. Open to first-, second-, and third-year undergraduate students throughout the University.

COM D

420 Dental Care Politics (1)

Topics in health care systems: epidemiology; health care financing; national health insurance; demand for and availability of care; and consumerism. Prerequisite: 400 or third-year status.

DENTISTRY

DENT

535 Design and Interpretation of Dental Research (3)

Basic introduction to the usage, application, and interpretation of non-parametric and parametric statistical tests in dental research. Statistical Package for the Social Sciences will be used to provide examples of the statistical tests discussed. Prerequisite: 530 or permission.

DENT

540 Temporomandibular Joint Diagnosis and Treatment (2, max. 8)

Four-quarter seminar and clinic sequence for comprehensive examination, diagnosis, and treatment of patients with temporomandibular joint problems. Includes management of dysfunction and morphologic alterations in associated muscles and occlusion. Prerequisites: RES D 587 or 588 or 463, and permission.

ORAL DIAGNOSIS AND TREATMENT PLANNING

ODTP

415 Introduction to Laboratory Diagnosis (1)

Laboratory procedures which are useful to the practicing dentist include: the techniques of laboratory tests and analysis of data; laboratory tests conducted in the dental office; and the relationship of laboratory tests to head and neck findings.

ORTHODONTICS

ORTHO

491 Clinical Adjunctive Orthodontics (1, max. 7)

Elective clinical course where patients are treated with simple orthodontic appliances to achieve modifications in tooth position often required in preparation for definitive restorative and/or periodontal therapy. Prerequisites: 410, 490, PEDO 460, 461, or permission. (Limit: 30 students.)

ORTHO

525 Post-Retention Seminar (1, max. 2)

Each student is required to locate one or more former orthodontic patient(s) with at least ten years postretention. Complete orthodontic records must be obtained, analyzed, and discussed in the seminar. The instructor critiques the presentation and offers similar or contrasting cases for comparison.

PEDODONTICS

PEDO

530 Pedodontic Hospital Training (*)

Provides clinical experience in the comprehensive dental care of hospital in-patients and out-patients. Treatment is carried out at Children's Orthopedic Hospital and Medical Center. Prerequisite: admission to the post-doctoral program in pedodontics.

PEDO

560 Medical Problems in Pedodontics (*, max. 36)

Explores usual and extraordinary medical, mental, and emotional problems of normal and handicapped children who receive comprehensive pedodontic care.

PERIODONTICS

PERIO

587 Periodontal Diseases Research Seminar (1, max. 12)

Weekly seminar devoted to advances in periodontal research. Topics include research design, methodology, and data derived from recent and/or on-going periodontal research. Presented by faculty and students.

RESTORATIVE DENTISTRY

RES D

414 Restorative Dentistry: Dental Hygiene Honors (3)

Elective course in advanced restorative procedures for Dental Hygiene students. Provides instruction, by means of clinical experience combined with seminar sessions and experience in technique, for both peer and self-evaluation of clinical procedures. Offered on credit/no credit basis only. Prerequisites: 410, 411, 412, 413.

RES D

479 Restorative Dentistry Supplement-R (*)

Provides individual instruction for students who experience significant difficulties with the fundamental procedures that are covered in 470. Students may be enrolled for 1 to 4 credits depending on the extent of the difficulties identified. Passing grade in 479 may be required to qualify students for participation in clinical test operations in the third year. Offered on credit/no credit basis only.

RES D

489 Restorative Dentistry Supplement-R (*)

Provides individual instruction for students who experience significant difficulties with the fundamental procedures that are covered in 480. Students may be enrolled for 1 to 4 credits depending on the extent of the difficulties identified. Passing grade in 489 may be required to qualify students for participation in clinical test operations in the fourth year. Offered on credit/no credit basis only.

COLLEGE OF EDUCATION

EDUCATIONAL ADMINISTRATION

EDADM

519 Laboratory and Internship in Educational Administration (1-9, max. 9)

Recommended for candidates preparing for all administrative positions except superintendent, unless candidate has sufficient experience as an administrator. Half-time work in a school district or districts for one, two, or three quarters, depending upon the candidate's previous experience. Supervision by staff members of the College of Education and appropriate administrators in the selected school district. Prerequisites: completion of all other requirements for administrator's credential and permission.

EDUCATIONAL CURRICULUM AND INSTRUCTION

EDC&I

543 Seminar in Bilingual Education: Instructional Strategies (4)

Study of instructional factors affecting bilingual education. Particular emphasis is given to research related to the variables involved in teaching in a bilingual environment. Assists graduate students in exploring instructional methodologies and formats as they apply to bilingual education and in becoming familiar with the current issues in bilingual education.

EDC&I

555 Educational Futures (3)

The concept of alternative futures, current social events affecting education, the current educational arena, and possible educational futures. Participants become acquainted with basic future studies methods and have opportunities to apply such methods in dealing with aspects of the educational arena. Prerequisite: prior graduate course work or experience in education.

EDUCATIONAL PSYCHOLOGY

EDPSY

513 Learning Variables of Minority Children: Instructional Implications (4)

Provides students with data base regarding (1) four variables (language/dialect, cognitive style, locus of control, and motivational systems) that affect learning among minority students, and (2) teaching strategies appropriate for these cultural socioeconomic variables.

EDPSY

596 Program Evaluation (3)

Advanced course in evaluation research emphasizing non-traditional designs, especially those that impose severe ecological constraints on the evaluators. Prerequisites: 593, 594, EDC&I 597, or permission.

SPECIAL EDUCATION

EDSPE

436 Manual Communication for the Hearing Impaired (3)

Intermediate course in manual conversation stressing fluency in both receptive and expressive Manual English. The grammatical system of Ameslan will be introduced and practiced. Prerequisite: 435 or permission.

EDSPE

522 Seminar on the Education of the Severely/ Profoundly Handicapped (3)

Advanced graduate seminar arranged to study and discuss the essential components of providing a comprehensive approach to the intervention and education of the severely/profoundly handicapped infant, child, adolescent, and young adult. Prerequisite: permission.

COLLEGE OF ENGINEERING

COLLEGE COURSES

ENGR

199 Special Projects (1-3, max. 3)

Students propose problems to solve to an engineering faculty member. The problems may be selected from the student's own experiences and interests, from the interest of the faculty

member, or from other sources such as faculty or graduate students doing research projects, or from personnel in the physical medicine area, occupational therapy, hospital, industry, government, etc. Corroboration by an engineering faculty member is required. Project suggestions are available. Prerequisite: 150.

ENGR

220 Introduction to Mechanics of Materials (4)

Introduction to the concepts of stress, deformation, and strain in solid materials. Development of basic relationships between loads on structural and machine elements such as rods, shafts, beams, and columns, and the stresses, deflections, and load carrying capacity of these elements under tension, compression, torsion, bending, and shear forces, or combinations thereof. Not recommended for students who have taken 240. Prerequisites: 180, and MATH 126, which may be taken concurrently.

ENGR

321-322-323 Engineering CO-OP Education (2-2-1)

Engineering practice; the integration of classroom theory with practical experience through direct on the job application. Student alternates periods of work (usually six months) with periods of study. Offered on credit/no credit basis only. Credits do not count toward graduation requirements. Open only to students in engineering or computer science. Prerequisites: acceptance into engineering CO-OP program, minimum grade-point average of 2.50, sophomore standing or above.

ENGR

324-325-326 Engineering CO-OP Education Second Session (2-2-1)

Continuation of 321-322-323. Links classroom theory with practical experience. See 321-322-323 for course description. Prerequisites: 321-322-323 and grade-point average of 2.50 or above.

ENGR

327-328-329 Engineering CO-OP Education Third Session (2-2-1)

Continuation of 324-325-326. Links classroom theory with practical experience. See 321-322-323 for course description. Prerequisites: 324-325-326 and grade-point average of 2.50 or above.

CHEMICAL ENGINEERING

CH E

472 Papermaking Technology (3)

Offered jointly with FOR P 477. See FOR P 477 for course description.

CH E

571 Polymer Physics and Engineering (3)

Description and analysis of methods for processing polymeric materials. Introduction to solid polymer physics with emphasis on the coupling of structure morphology and properties. Development of structure-property models for quantitative description and control of properties in synthetic and natural polymers and composite materials.

CIVIL ENGINEERING

Core Courses

CIVE

306 Construction Engineering I (3)

Introduction to construction engineering, planning, scheduling, methods, contracts, and specifications. Production estimates; equipment

selection; ownership and operating costs; role of the engineer in construction. Prerequisites: upper-division standing in civil engineering.

CIVE
351 Water Supply and Waste Management (3)

Fundamentals of water supply: surface and ground water sources, demand, and system design. Municipal sewerage systems: wastewater quantity and quality, and fundamentals of engineering design for collection, treatment, and disposal. Solid wastes: characteristics and quantities, collection, treatment, and disposal. Prerequisites: 345 (which may be taken concurrently) and 350.

CIVE
423 Heritage of Civil Engineering (3 or 4)

Contribution of civil engineering to civilization based on the lives and projects of prominent engineers and cultures. Incidents and individuals from prehistory to the nineteenth century give the student an awareness of the profession and its influence on society. Industrial archaeology and historic sites are considered. An additional 1 credit may be earned by participating in a special project. Emphasis on the control of elements and the methodology, planning, objectives, and reasons for the project. Subject matter varies with each instructor. Offered jointly with HSS 423. Prerequisite: junior standing.

Structural Engineering and Engineering Mechanics
CESM
496 Brittle Material Design Project (3)

Offered jointly with CER E 496 and M E 496. See CER E 496 for course description and prerequisite.

ELECTRICAL ENGINEERING

E E
344 Electric Power Engineering (4)

Introduction to the theory and methods of analysis involved in the use of typical apparatus to generate, transmit, and utilize energy in electrical form. Includes conventions of circuit description, balanced polyphase circuits, and complex power concept, the transformer, transmission lines, the per-unit system, fundamentals of electromechanical energy conversion and practical synchronous, induction, and commutator machines. Prerequisites: 333 and 381.

E E
355 Electronics I: Introduction to Digital and Analog Electronics (4)

Characteristics of bipolar and MOS transistors, characteristics of logic gates, small signal analysis of amplifiers, differential amplifier design; some digital and analog applications. Prerequisites: 231 and ENGR 190, 251, and E E 310 and 333 (which may be taken prior or concurrently).

E E
356 Electronics II--Analog Integrated Circuits (3)

Analog integrated circuit (IC) technology; emitter coupled amplifiers, current sources, IC output stages; frequency response and stability of feedback amplifiers; applications. Prerequisites: 333, 355.

E E
455 Power Systems Analysis II (4)

Steady-state power system analysis: Y_{BUS} and Z_{BUS} matrix description of large scale power systems, load flow studies, economic dispatch and unit commitment, voltage and complex power control, symmetrical components and unbalanced faults, and Z_{BUS} matrix application to fault studies. Prerequisite: 454 or permission.

E E
456 Numerical Methods in Power Systems (3)

Operation of a bulk power distribution network depends upon the solution of a few basic network problems and other special problems on a digital computer. Student gains experience in writing and working with the computer programs and a more thorough understanding of the dynamics and operation of large power networks. Prerequisite: 454 or permission.

E E
479 Microcomputer System Design (4)

Intensive course covering microprocessor architecture and operation, assembly language instructions and programming, system design criteria and techniques for integrating hardware and software into actual systems. Principle emphasis on system design and documentation. Weekly laboratory and a design project included. Prerequisites: 371; 475 recommended (may be taken concurrently), and permission.

E E
565 Data-Communication Networks (3)

Analysis and design of data-communication networks. Queuing theory and computer time-sharing systems. Computer-communication networks; packet switching; message time delay. Network optimization via capacity and flow assignment; topological considerations. Random access techniques; the ALOHA system. Prerequisite: 508 or permission.

HUMANISTIC-SOCIAL STUDIES

HSS
423 Heritage of Civil Engineering (3 or 4)

Offered jointly with CIVE 423. See CIVE 423 for course description and prerequisite.

MECHANICAL ENGINEERING

M E
496 Brittle Material Design Project (3)

Offered jointly with CER E 496 and CESM 496. See CER E 496 for course description and prerequisite.

MINING, METALLURGICAL, AND CERAMIC ENGINEERING

Ceramic Engineering
CER E
399 Introduction to Research and Design (1)

Research planning, library search techniques, the engineering design problem, and structural material design problems are introduced to enable student selection of senior year research or design options in ceramic engineering. Prerequisite: junior standing.

CER E
496 Brittle Material Design Project (3)

Application of appropriate criteria and the interdisciplinary team approach in the design of structural components utilizing brittle (ceramic) materials. Offered jointly with CESM 496 and M E 496. Prerequisite: 475 or 479.

Metallurgical Engineering

MET E

526 Dynamic Behavior of Metallurgical Systems (3)

Interpretation of the behavior of metallurgical systems by application of the methods of process analysis and control theory; modeling of systems, exploration of their characteristics by stimulus-response, and review of current industrial control processes. Prerequisite: graduate standing in engineering or permission.

OCEAN ENGINEERING

O ENG

450 Marine Corrosion and Its Prevention (3)

Causes and prevention of corrosion damage by marine environments (immersed, tidal, atmospheric). Behavior (pitting, rusting, cracking, fatigue, and fracture) of engineering materials (metals, concrete, and plastics) in the ocean. Case studies are used to understand methods of reducing corrosion damage by design, materials selection, cathodic protection, coatings, and maintenance. Technical report(s) to be prepared. Prerequisites: senior standing in engineering and M E 343 or equivalent materials course.

O ENG

552 Ocean Engineering Systems Design II (3)

Offered jointly with IMS 552. See IMS 552 for course description and prerequisites.

COLLEGE OF FOREST RESOURCES

MANAGEMENT AND SOCIAL SCIENCES

FOR M

432 Wildland Fuels and Fuel Management (3)

Origin of forest fuel complexes; physical and chemical properties of fuel particles and fuelbeds; fuel types and fuel succession in North America; fuel inventory classification and hazard evaluation; fuel treatment methods and site effects; economics of fuel management. Intended for forest management majors specializing in forest protection. Prerequisite: 430, 431, or permission.

FOR M

457 Advanced Outdoor Recreation Internship (10)

The application of professional field experience to develop proficiency in one of three subject areas: park interpretation, park planning, or park management. Advanced field-related course given in conjunction with a Recreation Agency. Preparation of evaluation of professional internship experience. Prerequisites: 357, senior standing in Outdoor Recreation, or permission.

PHYSICAL SCIENCES

FOR P

102 Introduction to Pulp and Paper Technology (3)

Technology of production of pulp and manufacture of paper. Laboratory study of papermaking.

FOR P

477 Papermaking Technology (3)

Fiber sources and properties. Secondary fibers. Stock preparation, sheet forming, water removal, finishing. Coating, lamination, and printing. Paper products. Offered jointly with CH E 472.

INTERDISCIPLINARY GRADUATE PROGRAMS

APPLIED MATHEMATICS

AMATH

600 Independent Research or Study (*)

AMATH

700 Master's Thesis (*)

AMATH

800 Doctoral Dissertation (*)

INTERSCHOOL OR INTERCOLLEGE PROGRAMS

BIOENGINEERING

BIOEN

599 Special Topics in Bioengineering (2-6, max. 15)

Offered at a graduate level periodically by faculty within the Center for Bioengineering; concerns areas of research activities with current and topical interest to bioengineers. Prerequisites: undergraduate or graduate courses (or equivalent) determined individually for each special topic.

INSTITUTE FOR MARINE STUDIES

IMS

538 Economic Aspects of Marine Policy II (3)

Development of pertinent economic concepts and their application to selected topics in marine policy. Offered jointly with ECON 538. Prerequisite: 508 or permission.

IMS

552 Ocean Engineering Systems Design II (3)

Interdisciplinary ocean systems design, choice of system motivated by problems of current interest; participation by students and faculty from engineering, law, oceanography, business, etc., in order to study complete system; preliminary design and analysis of engineering hardware; direct interaction with government and industry concerned with chosen problem. Offered jointly with O ENG 552. Prerequisites: graduate standing; 551.

IMS

-563 Ocean Resources Seminar (-2)

Study and research into selected problems relating law, international organizations, and marine affairs. Special attention is devoted to global and regional problems involving decision processes and structures that are under particular stress due to social, including technological, change. Problems examined will change from year to year. Offered jointly with LAW -652. Prerequisites: 506, 507, or permission.

IMS

-573 Advanced Coastal Management Seminar (-2)

Students develop analytical and conceptual papers addressing an important topical theme in coastal zone management. Seminars are held periodically throughout the year to review paper outlines, drafts, and final products. Interaction among students is stressed. Papers can complement theses or other degree requirements. Designed for students with a career orientation related to coastal zone management. Prerequisites: 509 and permission.

SOCIAL MANAGEMENT OF TECHNOLOGY

SMT

568 Women and Technology (3)

Interdisciplinary graduate level seminar designed for those interested in an investigation of the interaction between technology and women. Topics include comparing technological rationality with feminist modes of thought (focusing on values which are/could be applied in assessing technologies in order to evaluate their effects); the impact of industrialization and the division of labor on the home and the labor force; technologies which particularly impact women (such as obstetric and gynecological care); and investigating how the needs of women can be met through technological means. Offered jointly with SOC 568.

SMT

599 Current Topics in the Social Management of Technology (1-5, max. 9)

Advanced independent study in the interdisciplinary SMT program. Prerequisite: permission of the instructor.

UNIVERSITY CONJOINT

UCONJ

492 The Developmentally Disabled Child: Selected Interdisciplinary Topics (1-10, max. 10)

Elective interdisciplinary series of mini-courses designed to offer specific information and foster the development of specific skills in areas critical for effective professional functioning with the developmentally disabled child. Each mini-course provides an intensive examination of one major topic represented within the basic components of an interdisciplinary training program. These basic components include: normal growth and development, exceptional growth and development, interdisciplinary theory, assessment devices and strategies, intervention strategies, information exchange skills, and community functioning. Faculty from dentistry, education, medicine, nursing, nutrition, occupational therapy, physical therapy, psychology, social work, and communication disorders are involved. The mini-courses have been especially developed for trainees in the Child Development and Mental Retardation Center. Offered on credit/no credit basis only. Prerequisite: 410 or permission of the course coordinator.

UCONJ

497 Health Care in a Rural Community (3)

Critical analysis built upon concepts relative to interdisciplinary health care delivery in a rural community. Students develop an organizational model for rural health care and study innovative ways of mobilizing community resources and support for a comprehensive rural health care system. Pharmacy students, nurses, and other health professionals study application of theory in an appropriate clinical setting within the conceptual framework of each student's professional field.

SCHOOL OF MEDICINE

BIOCHEMISTRY

BIOC

593 Activation of Development (1)

Weekly research conference. Concentrates on biochemical events at the time of fertilization and early development and on the role of membranes in metabolic control. May be repeated

for credit. Offered on credit/no credit basis only. Prerequisites: 530, 531, 532 or equivalent, or permission.

BIOC

596 Gene Expression (1)

Weekly research conferences. May be repeated for credit. Offered on credit/no credit basis only. Prerequisite: permission.

BIOMEDICAL HISTORY

BI HS

412 Health Without Doctors (3)

Detailed study of the evolution in American culture of the belief that health is best preserved and advanced not by reliance on the medical profession, but through reformed personal hygiene. The history of American attitudes toward diet, exercise, dress, cleanliness, and sexual activity are analyzed as elements in the quest for physical health, and as agents expected to effect general social improvement. Prerequisites: introductory chemistry and biology or permission.

BI HS

511P Selected Topics in Biomedical Ethics (1)

Designed for first- and second-year medical students, sections A & B, respectively. Each section is limited to twelve students and a seminar format is followed. The topics described in the course outline are investigated, with the instructor giving brief presentations, utilizing guest resource persons, and a variety of audio-visual aids, followed by group discussion. Seminar participants are provided with a recommended reading list and a variety of reprints related to topics.

CONJOINT

CONJ

475 Alcoholism: A Course for Medical Students and Students in the Allied Health Sciences (2)

For medical students and students in the allied health sciences. Covers an introduction to the epidemiology, diagnostic strategies, natural history, physiologic effects, and treatment of alcohol-related disorders.

CONJ

680P An Introduction to Detoxification and Rehabilitation Programs for Alcoholism (*, max. 16)

Introduction to alcoholic detoxification and rehabilitation as they apply to the general physician. The student will have supervised clinical experience in a variety of alcoholism treatment programs, which will be accompanied by a core series of lectures and discussions.

CONJ

690P Clinical Oncology Outpatient Elective (*)

One to five half-day oncology clinics, including surgical neoplasia, radiation oncology, head and neck tumor, GYN tumor, and medical oncology (Clinic 4). The student works with new patients and follows them through their evaluation and treatment and post-treatment followup. Emphasis is on multidisciplinary evaluation and care to provide as broad an exposure to clinical oncology as possible. The student works closely with clinical faculty and arranges the number and combination of clinics desired. Prerequisite: permission. Coordinator: Department of Radiology.

FAMILY MEDICINE

FAMED

499 Undergraduate Research (*)

Research activities are arranged with faculty members doing research in various areas related to Family Medicine. Areas include: clinical strategies, health care delivery, curriculum development at the undergraduate and residency levels, interdisciplinary activities, continuity of care, audit and retrieval strategies, and behavioral aspects of Family Practice. Research is generally clinically-oriented and centered around patient care.

FAMED

664P Basic Clerkship in Family Medicine (8)

Emphasizes the clinical approach to the common and important problems which the family physician encounters. Includes regular seminars, readings and daily patient workups under the supervision of Family Practice faculty and residents in the University of Washington Affiliated Family Practice Residency Network. Conditions commonly seen in practice are used to teach the family medicine approach to patient management including preventive, epidemiological, and psychosocial aspects as well as the use of the medical record. Students work closely with residents in an intensive experience stressing the family orientation to disease and the impact of illness on the patient's life. Prerequisite: third-year medical school status. (Four weeks, full time.)

HUMAN BIOLOGY

HUBIO

501P Human Biology Special Projects (*)

Designed for medical students electing a special study project related to the Introduction to Clinical Medicine or other human biology courses, which are offered during the first and second years in the School of Medicine. Primarily intended for students in remedial or extended programs. Prerequisite: permission.

LABORATORY MEDICINE

LAB M

590P Research Projects in Laboratory Medicine (*)

Six or ten weeks to investigate one problem in a Laboratory Medicine subspecialty area. Topics are assigned by staff. Designed to demonstrate methods, tools, principles, and particularly problem-solving nature of laboratory investigations. Prerequisite: permission.

LAB M

680P Clinical Laboratory Testing: Methods and Interpretation (*)

Methods, tools, and principles used in the modern clinical laboratory. Choice of one to three specialty areas including chemistry, coagulation, computers, hematology, immunology, microbiology, and virology. Course investigates the methodologies in the specialty areas, identifies their limitations, and explores their usefulness in clinical medicine. Prerequisite: permission.

MEDICINE

MED

667P Combined Medical Specialty Clerkship (8)

Students participate in care of acutely ill hospitalized patients under supervision of internal medicine residents. Instruction by various medical specialists provides in-depth understanding of the pathophysiology and man-

agement of major diseases affecting adult patients. Prerequisite: 665P. Third- and fourth-year medical students only. (Four weeks, full time; limit: twelve students.)

MICROBIOLOGY AND IMMUNOLOGY

MICRO

500 Introduction to Research (*, max. 20)

Introduction to research areas of the faculty and the techniques employed in their investigations. Offered on credit/no credit basis only. Prerequisites: graduate standing in microbiology and/or permission.

MICRO

512 Physiology of Gene Expression (1)

Weekly one-hour seminar in which students discuss current literature dealing with selected aspects of microbial physiology. Offered on credit/no credit basis only. Prerequisites: 400, GENET 552, 553, BIOC 440, 441, 442, and permission.

MICRO

532 Seminar in General Microbiology and Microbial Ecology (1)

Weekly one-hour seminar and discussion concerning selected topics of current research interest in the areas of general microbiology and microbial ecology. Offered on credit/no credit basis only. Prerequisites: 400, 401, and permission.

MICRO

554 Seminar in Molecular and Medical Microbiology (1)

Weekly one-hour seminar in which recent advances in molecular biology and medical microbiology or the current research of the participants is presented and discussed critically. Offered on credit/no credit basis only. Prerequisite: permission.

MICRO

573 General Immunology Seminar (1)

Weekly one-hour seminar in which original research results are presented and discussed. Occasional seminars are concerned with review of important topics in immunology, but the emphasis, in general, is on new and original contributions to the field. Offered on credit/no credit basis only. Prerequisites: firm background in immunology and permission.

MICRO

574 Antibody Response (1)

Weekly one-hour seminar in which subcellular aspects of antibody synthesis are discussed and current research findings presented. Offered on credit/no credit basis only. Prerequisite: permission.

MICRO

575 Immunologic Responses to Infection (1)

Weekly one-hour seminar and discussion on immunity to selected infectious agents. Emphasis on current experimental approaches. Offered on credit/no credit basis only. Prerequisites: 441, 442, 447, or equivalents, and permission.

MICRO

585 Research in Cell and Molecular Biology (1)

Weekly research seminar. Prerequisite: permission.

OBSTETRICS AND GYNECOLOGY

OB GY

668P Introduction to Obstetrics and Gynecology, Spokane (12)

Clerkship, equivalent to 665P, offered at Spokane, Washington (WAMI). Includes experience in several private physician offices. Prerequisite: HUBIO 552P. (Six weeks; limit: three students.)

OB GY

669P Introduction to Obstetrics and Gynecology, Swedish (12)

Clerkship, equivalent to 665P, offered at Swedish Hospital, Seattle, Washington. Prerequisite: HUBIO 552P. (Six weeks; limit: three students.)

OB GY

670P Introduction to Obstetrics and Gynecology, Group Health (12)

Clerkship, equivalent to 665P, offered at Group Health Cooperative of Puget Sound which is a prepaid medical plan facility in Seattle, Washington. Prerequisite: HUBIO 552P. (Six weeks; limit: three students.)

OPHTHALMOLOGY

OPHTH

685P Ophthalmology Externship (4)

Student works with a faculty member in the diagnosis and treatment of ocular diseases in both outpatient and inpatient populations. Experience in common ocular disorders is gained and neurological and other consultations seen. Student learns the basic techniques involved in tonometry, ophthalmoscopy, and biomicroscopy of the eye. Prerequisite: HUBIO 563P.

OPHTH

686P Ophthalmology Externship (4)

Student works with a clinical faculty member in the diagnosis and treatment of ocular diseases in outpatients. Each week the student is assigned to the Group Health Cooperative Ophthalmologist responsible for the care of walk-in and urgent patients (most likely to demonstrate findings pertinent to the future practice of primary care physicians). Opportunity to learn examination techniques including tonometry, ophthalmoscopy, and biomicroscopy. Prerequisite: HUBIO 563P.

OTOLARYNGOLOGY

OTOL

686P Otolaryngology--Medical and Surgical Aspects (*, max. 12)

Clinical in-depth study of otolaryngology that may be taken in a six-week clerkship. For the student whose interest lies in pathology of the head and neck. Reasonable flexibility to arrange the content of the course, provides exposure to all aspects of patient care in the outpatient clinic, operating room, and ward care activities. The student pursues a topic of current interest in otolaryngology by review of the literature and presents a paper.

PATHOLOGY

PATH

514 Comparative Pathology Conference (1, max. 6)

Focus on the histopathology of naturally-occurring and experimentally-induced lesions of primates, laboratory and domestic animals,

fish, wildlife, and birds. Participants discuss the lesions and the basic pathogenetic mechanisms which underlie them. Prerequisites: 500 or equivalent and permission.

PATH

535 Fundamentals of Human Disease (*, max. 20)

Graduate student participation in the observation and study of human disease processes as they are seen in autopsy cases at the University, Harborview, and Veteran's Hospitals. Under the direct supervision of a graduate faculty member, each student is responsible for the workup and analysis of the disease assigned. Consists of analysis of the problem from the research perspective emphasizing the cellular, subcellular, and biochemical aspects of the body's reaction to injury and using experimental methods where applicable. The students will present their observations and analysis of the disease processes at a weekly seminar. Prerequisites: 444 or 500 or 555, and permission.

PATH

555 Environmental Pathology (3)

Survey of exogenous environmental agents (chemicals--agricultural, industrial, household; physical--kinetic, electrical, thermal, radiation) and of how they are involved in the causation and expressions of human disease processes such as developmental anomalies, mutagenesis, carcinogenesis, and degenerative diseases including atherosclerosis. Prerequisite: 444 or 500 or HUBIO 520P, or permission.

PSYCHIATRY AND BEHAVIORAL SCIENCES

PBSCI

497 Seminar on Recent Advances in Medical and Psychiatric Anthropology (3)

Offered jointly with ANTH 498. See ANTH 498 for course description and prerequisites.

PBSCI

525P Forensic Issues in Mental Illness (3)

Concentration on major areas in psychology and law, e.g., criminal, civil; several outside speakers from professional, legal, judicial, and psychiatric communities; lectures followed by discussion groups; and case presentations. Background in psychopathology and diagnosis recommended.

PBSCI

530P Developmental Psychoanalytic Therapy (2)

Utilization of psychoanalytic theory for diagnosis and treatment planning in psychiatric case presentations made by the student. Focus on the advances which psychoanalytic theory and observational studies have made in developmental psychology, with emphasis on applying these advances to differential diagnosis and psychoanalytically-oriented psychotherapy, especially in psychotic, borderline, and narcissistic disorders. Lecture followed by structured discussion of several assigned papers. Prerequisites: PSYCH 555 or equivalent, and good standing as graduate student in clinical or educational psychology, psychology intern, psychiatry resident, or second-year medical student.

PBSCI

667P Alternatives to Psychiatric Hospitalization--Partial Care (*, max 24)

Psychiatric patients treated in day hospitals and day treatment centers receive intensive psychiatric care throughout the week while maintaining their ties with home during the

evenings and weekends. Patients who utilize these programs usually have the diagnoses of psychosis, personality disorders, or special symptom disorders. Clerkship provides students with the opportunity to work with these patients under the supervision of a multi-disciplinary treatment team. Offered as a basic clerkship in psychiatry and may be elected in lieu of 665P. Third- and fourth-year medical students only.

PBSCI

670P Clerkship in Consultation-Liaison Psychiatry
(* , max. 24)

Patients with a wide variety of syndromes especially those commonly seen in a general hospital such as psychophysiological reactions, organic brain syndromes, personality reactions to disturbances in somatic function, obscure pain, terminal illness, and neuroses are evaluated and provided with brief treatment. Opportunity for an interchange of ideas with physicians in medicine and surgery and their subspecialties, family medicine, obstetric-gynecology, and physical medicine and rehabilitation of many complex diagnostic problems. Emphasis on individual crisis treatment, hypnosis, narcotherapy, and family therapy. Close individual supervision is provided and case conferences are held. Supplemental bibliography available. For third- and fourth-year medical students only. Prerequisite: 664P, 665P, 666P, or 696P. (Two, four, or six weeks.)

PBSCI

680P Clerkship in Emergency Psychiatry
(* , max. 24)

Patients present to emergency rooms a spectrum of acute and emergent psychiatric problems. The problems are often compounded by associated severe non-psychiatric illness. Acute psychoses, depression with suicide, intoxications, and dementias are commonly seen. Opportunity is provided for differential diagnosis, acute management, treatment planning, and coordination with community medical and nonmedical resources. Emphasis is on evaluation of patients with close supervision and daily rounds and weekly case conferences. Prerequisites: third- and fourth-year medical students, and one of the following: 664P, 665P, 666P, 696P.

REHABILITATION MEDICINE

REHAB

448 Applied Kinesiology for Occupational Therapy (I)

Practical application of selected concepts and principles of kinesiology and biomechanics pertinent to occupational therapy. Concurrent with 442. Required of occupational therapy students. Offered on credit/no credit basis only.

REHAB

496 Special Topics in Rehabilitation
(1-9, max. 14)

Guided opportunity for in-depth study in specific areas of rehabilitation. Topics vary. Prerequisite: permission.

SCHOOL OF NURSING

NURS

327 Nursing of Children (4)

Builds on previous nursing courses and includes essential concepts of pediatric nursing. Student gains appreciation of: the current philosophy of child care; the impact of disease, disability, and health care settings on the child and on the family; common congenital conditions and the diseases affecting children;

and the goals, methods, and resources for health care of children. Prerequisites: 300, 323, 324. Taken concurrently with, or prior to, 328, or permission.

NURS

328 Nursing of Children, Laboratory (8)

Emphasis on adaptation of skills and knowledge to nursing of children and the incorporation of new pediatric content. Technical and professional skills build upon proficiency established in previous clinical courses. The student applies the nursing process in caring for pediatric patients in the hospital and ambulatory settings. Experiences complement the theory content in 327 whenever possible. Offered on credit/no credit basis only. Prerequisites: 300, 324. Taken concurrently with 327 or later with permission.

NURS

397 Scientific Basis for Nursing Interventions (5)

Builds on basic knowledge of normal and abnormal physiology and incorporates concepts from social and psychological sciences. Functional adaptations to changes in the external and internal environments are considered in terms of mechanisms maintaining homeostasis and the responses elicited by selected types of stress. Changes in response during aging are emphasized. The nursing process framework is used to consider preventative, maintenance, and restorative aspects of nursing. Prerequisites: admission to the upper-division registered nurse major; 350 or equivalent. Taken concurrently with 398.

NURS

398 Care of Ill Adults III (4)

For registered nurses. Synthesis and application of the nursing process are demonstrated in the comprehensive care of adults with complex alterations in normal physiological functioning. Emphasis on critical thinking, sound clinical judgment, and evaluation. Offered on credit/no credit basis only. Prerequisite: 350 or equivalent. Taken concurrently with 397, or later with permission. Eight hours laboratory weekly.

NURS

425 Senior Practicum in Maternal Child Nursing (12)

Further development, critical examination, and synthesis of nursing care in maternal child nursing with focus upon practice, leadership skills, application of selected theoretical concepts, research findings and assessment of issues, problems and forces impinging upon quality of care and health delivery modes. Two to five lecture hours, twenty to thirty laboratory hours weekly. Prerequisites: 400 and senior standing.

NURS

426 Senior Practicum in Advanced Medical-Surgical Nursing (12)

Further development, critical examination, and synthesis of nursing care in medical-surgical nursing with focus upon practice, leadership skills, application of selected theoretical concepts, research findings and assessment of issues, problems, and forces impinging upon quality of care and health delivery modes. Two to five lecture hours, twenty to thirty laboratory hours weekly. Prerequisite: senior standing.

NURS**555 Advanced Primary Health Care III: The Elderly (4)**

Critical analysis of the theories of aging. Systematic inquiry into the influence and detection of specific physical, psychosocial, and environmental factors on the elderly. Heavy emphasis on the framework of reasoning for independent and interdisciplinary actions of the advanced nurse practitioner within the defined limits of primary health care. Presupposes basic competence in biological science and primary nursing care skills. Articulates with Advanced Field Work Seminar III.

NURS**556 Advanced Field Work Seminar in Primary Health Care III: The Elderly (4)**

Supervised field work within selected primary health care settings. Emphasis on nursing intervention in selected chronic or disabling health problems of the elderly within the context of the family. Seminars focus on relating nursing theory, recent research, and scientific rationale to field work experience, and on the evaluative analysis of selected nursing interventions.

NURS**560 Selected Topics in Primary Health Care (3)**

Critical examination and analysis of selected topics and current issues; i.e., legal, economic, social, as they relate to the developing role of the nurse practitioner in providing primary health care. Topics may vary with the instructor.

SCHOOL OF PHARMACY**PHARMACEUTICAL SCIENCES****PHSCI****582 Topics in Pharmaceutical Sciences (1, max. 10)**

Discussion of pertinent articles from current literature. Offered on credit/no credit basis only.

PHARMACY PRACTICE**PHARM****481 Introduction to Clinical Pharmacy (2)**

Consideration of principles of patient monitoring and provision of drug information. Instruction in approaching a patient chart, interviewing patients, and medication counseling techniques. Consideration of variables affecting patient behavior. Prerequisites: PHCOL 401, 402.

PHARM**530 Seminar: Research Methods in Pharmacy Practice (3)**

Research methods and protocols designed to help graduate student in developing skills in preparing research proposals and conducting research in pharmacy practice. Selected research methods, sources of data, analysis designs, and statistical methodologies. Prerequisites: graduate standing in pharmacy; one statistics course or permission.

PHARM**587 Advanced Clinical Clerkship: Inpatient Care (*, max. 15)**

Under faculty supervision, students participate in medical and pharmacy patient rounds in hospitals or long term care facilities, monitor drug therapy, instruct patients concerning proper use of medications, and provide drug consultation to other health care providers. Students also participate in drug use review and inservice education programs. Interdisciplinary approaches to providing care are emphasized through conferences with faculty. Offered on credit/no credit basis only. Prerequisites: 484, 485, 486, or equivalent, and permission.

PHARM**588 Advanced Clinical Clerkship: Outpatient Care (*, max. 15)**

Under faculty supervision, students refine skills in developing and maintaining a drug use data base for ambulatory patients. Activities include taking drug histories, developing patient medication profiles, and documenting drug use experience. In addition, students deliver services to outpatient facilities through patient counseling, intraprofessional consultation, and patient monitoring activities. Interdisciplinary approaches to improving patient care are emphasized. Offered on credit/no credit basis only. Prerequisites: 484, 485, 486, or equivalent, and permission.

PHARM**589 Advanced Clinical Clerkship: Drug Information Services (*, max. 15)**

Under faculty supervision, students refine skills in the retrieval, analysis, and clinical use of drug information from library resources. Students receive training in the School of Pharmacy Drug Information Service where they receive and respond to information requests. Techniques of providing written and verbal drug information services. Interdisciplinary relationships in providing and using drug information are emphasized. Offered on credit/no credit basis only. Prerequisites: 484, 485, 486, or equivalent, and permission.

SCHOOL OF PUBLIC AFFAIRS**PUBLIC ADMINISTRATION****PB AD****506 The Law of Citizen Participation (3)**

The relationship of the administrative agency to the general citizenry including citizen control through taxpayer's suits; constitutional guarantees of citizen control; and statutory guarantees of citizen control, with an emphasis on this third area, i.e., laws requiring citizen participation, open meetings, public hearings, impact statements, and freedom of information. Proposed legislation and relevant social science research is also read and discussed as a guide to understanding the policy behind the legal requirements and to provide a framework for analysis of the efficiency of these laws.

PB AD**529 Quantitative Applications in Public Affairs (3)**

Examines specific public policies by utilizing quantitative methods to evaluate the evidence and data upon which such policies are based. Evidence on real public issues and programs is analyzed by students who are

expected to explain and critique the statistical techniques employed and measurements taken, to make recommendations for improvements, and to identify and assess other relevant factors. Policy issues are drawn from such functional areas as education, manpower, law enforcement, natural resources, and experiments in negative income tax. Prerequisite: 528 or equivalent.

PUBLIC HEALTH AND COMMUNITY MEDICINE

ENVIRONMENTAL HEALTH

ENVH

558 Industrial Ventilation II (2)

Laboratory exercises, case study problems, and field surveys emphasize the practical application of the principles of industrial ventilation as the major control method of airborne health hazards in the industrial environment. Prerequisite: ENVH 557.

ENVH

562 Technical Aspects of Industrial Safety (3)

Explores specific hazards associated with major industries as well as the general hazards common to all industries. Fire protection, machine guarding, systems safety techniques, functional testing and explosives safety.

ENVH

582 Special Topics in Industrial Hygiene (1)

Designed as a lecture seminar for graduate students, a series of lectures and field trips concentrates on specialized areas of industrial hygiene to build breadth and depth on the foundation provided by other courses. Emphasis on recent technical developments. Prerequisite: 453 or permission.

EPIDEMIOLOGY

EPI

525 Advanced Seminar in Cancer Epidemiology (2)

Explores current areas of controversy and doubt with the aid of various faculty members: the carcinogenic properties of exogenous estrogens; the interaction between life long and shorter term factors in the etiology of human cancers; the relationship of microbiological agents to the etiology of carcinoma of the cervix. Prerequisites: 511, BIOST 511, and permission.

HEALTH SERVICES

HSERV

551 Hospital and Medical Law (4)

Philosophy and application of law as it relates to the hospital and other health care facilities. Discussion of legal process and the relation of the law and public policy. Prerequisite: HSERV 511.

HSERV

556 Quantitative Methods for Health Services (3)

Develops basic understanding and familiarity sufficient to support the administrator's position as a sophisticated and involved consumer of operations research techniques rather than imparting technical proficiency in the field. Topics include: statistics and probability theory, mathematical programming and scheduling models, work measurement and prediction, and role of general purpose digital computers in management. Prerequisites: QMETH 500 and OPSYS 500.

HSERV

564 Advanced Seminar in Medical Sociology (3)

Development and testing of theories related to illness behavior, health occupations, and professions, and the organization of health services. Particular emphasis will be given to provider-patient relationships and the sociology of health care delivery organizations. Offered jointly with SOC 563. Prerequisites: 561 or admission to health services doctoral opportunities program or graduate status in sociology or permission.

HSERV

571 Technical Planning of Health Services and Facilities (4)

Using examples of the best contemporary practice, students are taught to calculate the need and demand for health services, to assess the current supply of services, to develop and use criteria and standards for the design of services and facilities, and to use demographic, utilization, and other data. Assignment involves several written analyses of program requirements. Prerequisites: 511, 512, 546, or permission.

HSERV

582 Research Design and Problem Analysis in Health Services II (-2)

Problem definition, theory construction, research design, data collection and analysis in health services research. Offered on credit/no credit basis only. Prerequisites: 511 and admission to doctoral opportunities program, or permission of instructor.

HSERV

591,592 Seminar in Special Topics I,II (3,3)

Special topics related to current issues in health services. Topics determined by expressed interest of students and faculty; also includes participation of health professionals. Prerequisites: 511 and permission.

SCHOOL OF SOCIAL WORK

SOCIAL WELFARE

SOCWL

583 Research Practicum (1-3, max. 3)

Development of specific methodological skills in social welfare research through participation in an ongoing research project. Offered on credit/no credit basis only.

SOCWL

600 Independent Study or Research (*)

Independent study for the development of the doctoral dissertation. Offered on credit/no credit basis only.

SOCWL

800 Doctoral Dissertation (*)

SOCIAL WORK

SOC W.

370 Social Work and Sex Related Problems (3)

Undergraduate introductory seminar course offering basic approaches and issues in social work practice and sexual problems in American society. Readings and discussion related to current issues, research, and social work approaches. Topics include social work perspective on sex, sexual development, cross-cultural perspective, sexually oppressed, etc.

SOC W

-407 Fieldwork Seminar (-2)

Two-hour seminar meeting weekly. Student integrates social work practicum experiences with prior and concurrent course work in the social sciences, social work, and research. Includes discussion of class presentations and simulations or practice situations which combine knowledge and skill utilization. Student logs provide a basis for individual goal identification and achievement. Required and open only to social welfare seniors.

SOC W

532 Additive Human Service Methods (3)

Focus either on various methodologies employed in work with clients with specific presenting problems (physical disability, chemical dependency) or on a specific counseling practice stance (behavioral therapy, group treatment). Prerequisites: 529 or 310, 311, and 312.

SOC W

543 Problem Focused Human Development (3)

Focus on the social and developmental determinants of specific human problems and their impact on individual development, families, and social institutions. Some time will be given to examining the nature of organized social responses which are designed to deal with the specified human problem. Prerequisite: graduate standing.

SOC W

563 Organizational Analysis (3)

Provides conceptual base for analysis and action in human service organizations. Emphasis on utilization of conceptual tools of organization theory for problem solving in social welfare organizations. Students learn to describe and analyze selected organizational problems and contribute to their solution. Prerequisite: permission.

SOC W

564 Group Process (3)

Provides tools for students to understand dynamics and development of group, to increase awareness of behavior of participants and leaders, and to improve effectiveness as participants and leaders. Prerequisite: permission of instructor.

SOC W

566 Specialized Community and Organizational Services Skills (3)

Methodologically-based course providing graduate social work students with acquisition of professional analytic and interactional skills associated with administration, planning, and program development in social welfare. Content drawn from research in social work and related social science disciplines. Prerequisites: graduate status and/or permission of instructor.

INDEPENDENT STUDY THROUGH CORRESPONDENCE

The Office of Independent Study provides University courses for extension credit primarily by correspondence instruction to persons who wish individual instruction. Fees for Independent Study courses are separate from residence tuition and are \$20 per credit. Enrollment is not based on the quarter system but is continuous throughout the year, with one calendar year allowed to complete a course.

A regularly enrolled student who wishes to register for additional courses for Independent Study credit should consult his or her departmental adviser prior to enrolling in an Independent Study course. Applications and additional information on enrollment procedures may be obtained from the Independent Study office, 222 Lewis Hall, or by telephoning 543-2350.

The following courses are currently offered by Independent Study (credits in parenthesis; * indicates variable credit, to be arranged by student and instructor).

Certain courses and sections require entry cards for registration. Students requesting these courses and/or sections on their registration request forms will not be registered in the courses unless the requests are accompanied by entry cards. An entry card alone is not sufficient. The course and schedule line number (SLN on entry card) must also be requested on the Mark-Sense Registration Form.

COURSES REQUIRING PERMISSION (OTHER THAN ENTRY CARDS)

WINTER QUARTER 1978

In order to register for the following courses, the student must obtain permission from the person or office listed. Some departments, schools, or colleges have general permission requirements applicable to many courses. These requirements are also listed.

Note: A slash (/) between names indicates that either party may grant permission.

Abbreviations:

DEPT Permission required from a member of the staff of the department offering the course

DEPT ADV Permission required from an *adviser* in the department offering the course

INSTR Permission required from the *instructor* of the course

ASHP Permission required from the *Arts and Sciences Honors Program* office

HONORS ADV Permission required from the *Honors Program adviser* in the department offering the course

PHYSICAL EDUCATION

SPORTS SKILLS INSTRUCTION CLASSES ARE AVAILABLE THROUGH THE DEPARTMENT OF RECREATIONAL SPORTS PROGRAMS (INA) ON A NON-CREDIT BASIS FOR A SMALL REGISTRATION FEE. CLASSES ARE OPEN TO ALL REGULARLY ENROLLED STUDENTS AND TO FACULTY/STAFF WHO ARE ELIGIBLE FACILITY USERS. SPECIFIC INFORMATION ON FEES, DATES, AND TIMES WILL BE AVAILABLE AT THE INA BUILDING AFTER MARCH 1, 1978. REGISTRATION WILL BE APRIL 3, 4, 5, FROM 8:30 AM TO 6:00 PM IN MEETING ROOM A OF THE INA BUILDING. IF SPACES ARE STILL AVAILABLE, REGISTRATION WILL CONTINUE IN THE INA ADMINISTRATION OFFICE, 8:30 AM TO 5:00 PM, MONDAY THROUGH FRIDAY. DISABLED STUDENTS ARE ENCOURAGED TO PARTICIPATE IN SPORTS SKILLS CLASSES AND SHOULD CONTACT THE SPORTS SKILLS OFFICE.

CLASSES OFFERED

ARCHERY	MOUNTAINEERING	SQUASH
BADMINTON	BEGINNING RACQUETBALL	BEGINNING SWIMMING
BOWLING	INTERMEDIATE RACQUETBALL	ADVANCED SWIMMING
CANOEING	ROLLER SKATING	INTERMEDIATE SWIMMING
CONDITIONING	SKIN & SCUBA	TAE KWON DO
FENCING	SOCCER	TENNIS
GOLF	SOFTBALL	TRACK
GYMNASTICS	SPRING BOARD DIVING	WEIGHT TRAINING
HANDBALL		

ADDITIONAL ACTIVITY CLASSES MAY BE OFFERED IF THERE IS ENOUGH STUDENT INTEREST.
