

UNIVERSITY OF WASHINGTON BULLETIN

SPRING QUARTER 1979

TIME SCHEDULE

PREREGISTRATION

February 7-9, 12-16

Last day to register
and receive
highest priority

Freshmen (0-44 credits)	February 7, 8
Seniors (135 credits)	February 8, 9
Graduate Students	February 9, 12
Postbaccalaureate (fifth-year) Students	February 12, 13
Juniors (90-134 credits)	February 13, 14
Sophomores (45-89 credits)	February 14, 15, 16

Class standing is based on the predicted number of credits the students will have at the beginning of the next quarter.

IN-PERSON REGISTRATION

(By Appointment Only)

Matriculated Students: March 16, 19, 20

Nonmatriculated Students: March 21

After you have used this *Time Schedule*, please leave it or pass it along so that other students may use it.

GENERAL INFORMATION

It is the University's expectation that a student will follow University rules and regulations as they are stated in the *General Catalog*. In instances where no appeal procedure is spelled out and the student is persuaded that a special set of circumstances makes appeal reasonable, he or she may appeal the application of specific rules or regulations to the office of the dean of the school or college in which he or she is enrolled in the case of an academic matter, or to the Office of Student Affairs in the case of a nonacademic matter. These offices will either render a decision on the appeal or refer the student to the proper office for a decision.

GUARANTEED REGISTRATION ELIGIBILITY

University of Washington students who remain in good scholastic standing are guaranteed the opportunity to register each quarter as long as they maintain continuous enrollment (Summer Quarter excepted). Continuation must be in the same classification, e.g., undergraduate, postbaccalaureate (fifth-year), graduate, etc. Once a student earns a bachelor's degree, he or she must apply for readmission as a postbaccalaureate (fifth-year), nonmatriculated, or graduate student. Exceptions to the guarantee are: (1) students under disciplinary action and (2) students with a financial hold.

If an undergraduate does not enroll for one or more quarters, or if a graduate student goes on-leave, he or she must file an application for readmission with the Registrar's Office. Information on admission closing dates is available at Window 3, second floor, Schmitz Hall, or by calling 543-5920.

FULL-TIME STUDENT REQUIREMENT

Many students think that because they pay full fees they are considered full-time students. This is not true! To be considered a full-time student, undergraduates must register for 12 credits and graduates must register for 9 credits. Full-time status is required for certain agencies, such as Immigration and Naturalization Service, Veterans Administration, and Social Security Administration. Consult the Registrar's Office for social security requirements, the International Services Office for immigration requirements, and the Veterans Affairs Office for VA benefits.

NONMATRICULATED STUDENTS

Nonmatriculated students may register only on the last day of in-person registration and enroll only on

a space-available basis. Because nonmatriculated students register after all other students, enrollment may be closed in the following areas: mathematics, English composition, beginning foreign languages (particularly French and Spanish), business, and art. Nonmatriculated students may participate in preregistration for the Summer Quarter.

AUDITORS

Auditors pay standard tuition and fees and must be regularly admitted and registered in the course.

Attendance in courses as an auditor is by consent of the instructor involved and is conditioned by the extent to which space is available. Permission to audit is ordinarily granted for lecture classes only. An auditor may not participate in class discussion or laboratory work, and his or her registration may be cancelled at the discretion of the instructor.

No entry is made on the permanent record for courses audited. To receive credit for an audited course, the student must register for the class for credit in a subsequent quarter.

Auditors follow registration instructions below.

PHYSICALLY DISABLED STUDENTS

Available to students with physical disabilities are a variety of support services from the University, including priority registration. It is in the student's best interest to contact Phyllis Bolt Bannister, Counselor/Program Coordinator for Disabled Students, 468 Schmitz Hall, 543-8924, for information on equipment, technical aids, and accommodations to meet individual needs. "Access: University of Washington," a guidebook to buildings on the campus, and an accompanying map, are available to disabled students from Ms. Bannister or from the Office of Affirmative Action, 101 Lewis Hall, 543-1830.

REGISTRATION INSTRUCTIONS

ACADEMIC ADVISER

See an academic adviser to discuss your educational objectives and to learn the procedures involved in registering at the University. Have an idea of the courses you would like to take before seeing an adviser by reviewing the *General Catalog* and the quarterly *Time Schedule*.

REGISTRATION FORMS

Obtain a mark-sense registration form from your advisory office and mark the courses you are requesting on the form in accordance with directions on the form. Please note that some courses in the *Time Schedule* have restricted enrollment and you must obtain entry cards for these courses. Undergraduates will not be scheduled for more than 19 credits until the first day of the quarter. This is done to allow all students a chance to develop a basic program.

ENTRY CARDS

Certain courses and sections require entry cards for registration. Students who request these courses (and/or sections) on their registration request forms will not be registered in the courses unless the requests are accompanied by entry cards. An entry card alone is not sufficient. The course and schedule line number (SLN on entry card) must also be requested on the mark-sense registration form. Obtain

course entry cards for courses designated with the symbol > > > in the margin of the *Time Schedule*. Refer to the Entry Card Distribution Points list for information on where to obtain the entry card for a given course.

SUBMITTING REGISTRATION FORM

1. If you are a continuing matriculated student registering February 7-16, you may deposit your form at any of the following places:

- Registration lobby, second floor, Schmitz Hall
- B10 Padelford Hall
- Fourth floor student lounge, T-wing, Health Sciences Building
- 353 Loew Hall (engineering students only)

See the cover of the *Time Schedule* for registration dates.

2. If you are a continuing matriculated student who did not preregister, you must obtain an in-person registration appointment by March 16. Continuing students who request in-person registration appointments after March 16 may be required to register late during the first week of school and to pay the \$15 late registration fee.

3. If you are registering March 16-20, go to the Sections branch office, Odegaard Undergraduate Library, on the date and time indicated on your registration appointment.

4. Nonmatriculated students may register only on March 21. Appointments are available at Window 8, second floor, Schmitz Hall.

LATE REGISTRATION

Students who register after the official registration period will be charged a \$15 late registration fee.

SCHEDULE OF CLASSES

1. If you register February 7-16, your schedule of classes will be mailed to the address you indicate on the registration form. All students registering during this period are scheduled by computer at one time. The scheduling priority is: freshmen, seniors, graduate students, postbaccalaureate (fifth-year), juniors, and sophomores. Schedules will be mailed March 6.

2. If you register March 16-21, your courses will be scheduled manually and you will be given a copy of your completed program when you have finished registering.

CHANGE APPOINTMENTS AND LATE FEE

1. All changes to a student's program should be completed during the official change periods (see calendar). Changes are made by appointment only. Appointments are available at Window 3, second floor lobby, Schmitz Hall, for all but engineering students; engineering students go to 353 Loew Hall. A student who arrives more than a half-hour late will be required to make a new appointment. Changes made after the change periods cost \$5 and may result in fee forfeiture (see item 2 of this section).

Students will be expected to present current University of Washington student I.D. cards when requesting appointments. No more than one change appointment will be issued to a student at a time. Additional change appointments will be issued only after the initially assigned appointment has been used or has expired.

2. Grades in Dropped Courses and Drop Restrictions.

a) *Undergraduates.* Undergraduate students who drop courses after the change periods receive no entry on their academic record if the drop is made during the first two weeks of the quarter. Drops made during the third and fourth weeks of the quarter will be recorded with a "W." No drops are permitted after the fourth week except for a limited number determined by the number of credits earned at the University. While completing the first 44 credits at the University, the student has three drops permitted after the fourth week, but, before the last day of instruction. After 45 credits have been completed at the University, the student earns one late drop for each 45 credits earned. All but the first three late drops may be accumulated and used as necessary. The first three late drops must be used prior to earning 45 credits or they are forfeited. *No drops of any kind are permitted after the last day of instruction.*

b) *Graduate Students.* Graduate students who drop courses after the first two weeks of the quarter receive a grade of "W." No drops are permitted after the seventh week of instruction.

c) Students may petition the Registrar to drop a course after the regular drop deadline if: (1) the student is unable to complete the course in question because of a severe mental or physical disability, or (2) unusual or extenuating circumstances beyond the student's control prevented the student from dropping the course by the regular drop deadline. Petitions must be filed promptly after the occurrence of the event that gave rise to the need for dropping the course.

3. Fee Forfeiture or Refunds.

a) Students will be billed for the number of credits on their programs at the end of the first week of the quarter. Only partial fee reductions will result for courses dropped after the first week of the quarter.

b) Students dropping courses after the first seven calendar days of the quarter and through the thirtieth calendar day of the quarter will be expected to pay one-half of the tuition and fees associated with that course. Example: An undergraduate originally registered for 5 credits. The fee for 5 credits is \$114 (resident). The student then drops a 3-credit course in the second week of the quarter. The total number of credits for which the student remains registered is 2. Tuition and fees for 2 credits are \$45. However, additional fees are due for half the difference between 5 credits and 2 credits, in this case an additional \$34.50. The student has been registered in the dropped course for more than one week and therefore must pay half the fees for the course.

Courses dropped after the thirtieth calendar day receive no refund. Example: A student is registered for a 3-credit course. The student drops that course after the thirtieth calendar day. No refund is available. If the student adds a different 3-credit course at the time the original 3-credit course is dropped, he or she will pay tuition and fees for 6 credits.

c) Drops become effective the date received in Sections.

4. Courses Added After the Official Change Periods.

a) As a general rule, no courses may be added after the official change period. Exceptional cases may be approved if both the instructor of the course and the Dean of the student's college give their consent.

b) Courses audited may not be changed to a credit registration after the first two weeks of the quarter.

FEE PAYMENT

1. A fee statement will be mailed to the address you indicate on your mark-sense registration form.

2. Mail your fee payment to the Student Accounts Office in the envelope provided before the due date indicated. *Fees must be paid by Friday of the fourth week of the quarter.*

3. If you fail to pay by the deadline you may continue to pay your fees, with a \$15 late fee, for three weeks following the due date. If fees are not paid by this time your registration will be cancelled. *Please note: Even if your registration is cancelled you will continue to owe one-half your tuition and fees if you are a continuing student or, if you are a new or returning student, \$50 or one-half your tuition and fees, whichever is greater.*

Quarterly Tuition and Fee Rates

Undergraduate (includes postbaccalaureate [fifth-year] and nonmatriculated students)	Non- Resident resident	
Full fee (more than 9 credits)	\$229	\$798
Minimum (first 2 credits)	45	158
Each additional credit	23	80
Graduate and Law		
Full fee (more than 6 credits)	257	912
6 or fewer credits:		
Minimum (first 2 credits)	72	262
Each additional credit	37	130
Dentistry and Medicine		
Full fee (more than 12 credits)	343	1,253
12 or fewer credits:		
Minimum (first 2 credits)	57	197
Each additional credit	26	96

CHANGE OF ADDRESS

If you change your address after you have turned in your mark-sense registration form, be sure to complete a change of address form at the Registration Office. Forms are available at Window 3, 2nd floor of Schmitz. *You are responsible for notifying the Registrar's Office of any address change.*

STUDENT INSURANCE

All students who do not specifically request a particular student insurance plan or who do not specifically state they do not wish student insurance, will automatically be enrolled and billed for *student only* medical, surgical, and hospital insurance.

If you are billed for student insurance and wish to cancel your coverage, complete the appropriate section on the remittance copy of the billing statement and pay the amount billed less the indicated amount for insurance.

International students must subscribe to the University's medical insurance. Exceptions may be granted by the International Services Office if the student presents proof of other medical insurance coverage.

WASHPIRG

An optional \$2 fee is indicated on the fee statement for the Washington Public Interest Research Group, a student research organization. If you do not desire to support this activity, simply pay the regular tuition and fees. If you want to support WASHPIRG, check the payment card and pay the regular tuition and fees plus \$2.

WITHDRAWAL FROM THE UNIVERSITY

1. Obtain an approved withdrawal from from your adviser.

2. Present the withdrawal form to the Withdrawal Office, Sections, 264 Schmitz Hall. *Withdrawals are effective the date they are received in the Registrar's Office.* Fees owed will be based upon the date the withdrawal is received in the Registrar's Office. No withdrawals will be accepted after the last day of instruction, June 1.

The fee schedule below will be followed.

Continuing Students

a. Students withdrawing before the sixth day of the quarter do not pay tuition or fees.

b. Students withdrawing on the sixth day or through the thirtieth calendar day continue to owe one-half of their tuition and fees.

c. Students withdrawing after the thirtieth calendar day receive no refund of tuition or fees.

New and Returning Students

a. Students withdrawing before the sixth day of the quarter forfeit their \$50 enrollment service fee.

b. Students withdrawing on the sixth day or through the thirtieth calendar day of the quarter must pay one-half of regular tuition and fees or forfeit the \$50 enrollment service charge, whichever is greater.

c. Students who withdraw officially after the thirtieth calendar day must pay full tuition and fees, which includes the \$50 enrollment service fee.

3. Students who were unable to turn in their withdrawal in time may petition the Comptroller's Office for additional refund. Petition forms are available at the Student Accounts Office, 129 Schmitz Hall.

4. Courses dropped as part of a University withdrawal completed during the first two weeks of a quarter receive no grade and no entry. Withdrawals completed after the first two weeks result in the courses being assigned a grade of "W."

GRADING SYSTEM

The University of Washington uses a numerical grading system, with certain exceptions in the Schools of Dentistry, Law, and Medicine. Instructors may report passing grades from 4.0 to 0.7 in 0.1 increments. The number 0.0 is assigned for failing work or unofficial withdrawal. Grades in the range 0.6 to 0.1 may not be assigned. Grades reported in this range will be converted by the Registrar's Office to 0.0. Numerical grades may be considered equivalent to letter grades as follows:

A	4.0	Honor
	3.9	
	3.8	
A-	3.7	
	3.6	
	3.5	
	3.4	
B+	3.3	
	3.2	
	3.1	
B	3.0	Good
	2.9	
	2.8	
B-	2.7	
	2.6	
	2.5	
	2.4	
C+	2.3	
	2.2	
	2.1	
C	2.0	Average
	1.9	
	1.8	
C-	1.7	
	1.6	
	1.5	
	1.4	
D+	1.3	
	1.2	
	1.1	
D	1.0	Poor (low pass)
	0.9	
	0.8	
D-	0.7	
E	0.0	Failure or Unofficial Withdrawal

Additional information on grades and scholarship rules may be obtained from the Grade Information Office, 248 Schmitz Hall.

The Grade of Incomplete

In order to obtain credit for a course in which an Incomplete has been awarded, an undergraduate student must complete the remaining work for the course by the last day of the following quarter. An Incomplete grade for a Spring Quarter course must be made up by the last day of Autumn Quarter or the Incomplete will be converted to a grade of 0.0 by the Registrar, unless the instructor has indicated when assigning the Incomplete grade that a grade other than 0.0 should be recorded if the incomplete work is not completed. This time limitation may be extended up to one year with instructor approval. Such approval must be received by the Registrar's Office before the end of the next quarter.

A graduate student who receives an Incomplete must complete the remaining work for the course by the last day of the next quarter *in residence*. An Incomplete received by a graduate student does not automatically convert to 0.0 but remains an Incomplete if the coursework is not completed. This time limitation may be waived by the dean of the college in which the course was offered only if the nature of the uncompleted work is such as to make the fulfillment of this requirement impossible. In no case can an Incomplete received by a graduate student be converted to a passing grade after a lapse of two years. The Incomplete grade entry remains on the record permanently. When the final grade is received, a diagonal line is drawn through the Incomplete grade and the final grade is posted under the quarter in which the final grade is received.

Satisfactory/Not Satisfactory

Students may elect to take certain courses on a Satisfactory/Not Satisfactory basis. Advisers should be consulted and in no case are students allowed to register for more than one course or 6 credits on a Satisfactory/Not Satisfactory basis in a given quarter. No more than 25 credits will apply to an undergraduate degree. S/NS must be elected or dropped during the official change of program period. Undergraduate students earning grades of 1.7 or above receive a grade of S(Satisfactory) while grades below 1.7 are recorded as NS(Not Satisfactory). Graduate students earning grades of 2.7 or above receive a grade of S(Satisfactory), while 2.6 or below are NS(Not Satisfactory). In cases of withdrawal, the W is recorded. Neither S nor NS are included in the grade-point average. N, I, and X are recorded until the instructor reports the final grade, or in cases of incompletes received by undergraduates, until the I is converted by the Registrar. With the approval of his or her Graduate Program Adviser or Supervisory Committee Chairman, a graduate student may elect to take any course for which he or she is eligible outside of his or her major academic unit on the Satisfactory/Not Satisfactory system.

Credit/No Credit-Only Courses

Some courses are offered on a CR/NC only basis. These courses may be taken only on this basis and it is not necessary to be in the special Credit/No Credit program to take these courses. It is not necessary to register S/NS to take these courses as the only grades assigned by the instructor are CR (Credit) or NC (No Credit). Neither CR nor NC are included in the grade-point average. In cases of withdrawal a W is recorded. N, I, and X are recorded until the instructor reports the final grade, or in cases of Incompletes received by undergraduates, until the I is converted by the Registrar.

Credit/No Credit Program

The University offers an undergraduate grading option called Credit/No Credit. Students entering this program automatically take all courses on a CR/NC basis. This program is not applicable to certain degrees and advisers should be consulted. Students must enter and exit the CR/NC program no later than the last day of the change of program period for the quarter the change is to be effective. Further information is available at the Grade Information Window, 248 Schmitz.

SPRING QUARTER 1979 CALENDAR

Registration Period
February 7-9, 12-16
February 20

Preregistration for all matriculated students in school Winter Quarter 1979.

In-person registration appointments available at Window 8, second floor of Schmitz, for continuing students who missed preregistration and for continuing nonmatriculated students.

March 6

Programs of study mailed to preregistration participants.

March 9

Change of registration appointments available at Window 2 or 3, second floor of Schmitz (engineering majors obtain appointments at 353 Loew), for students who completed preregistration.

March 14, 15

OFFICIAL CHANGE OF REGISTRATION, by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew), for students who completed preregistration.

March 16, 19, 20

IN-PERSON REGISTRATION, by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew), for matriculated students.

March 21

IN-PERSON REGISTRATION FOR NONMATRICULATED STUDENTS, by appointment only, at the Sections branch office, Odegaard Undergraduate Library.

March 23

Last day to hand-deliver an application for resident status to the Residence Classification Office, 320 Schmitz. Applications may be postmarked March 25.

March 26-30

OFFICIAL CHANGE OF REGISTRATION, by appointment only, at the Sections branch office, Odegaard Undergraduate Library (engineering majors at 353 Loew) for all students.

March 30

Deadline for: (1) changes to or from S/NS grading or CR/NC program; (2) adding a course without instructor's permission; (3) adding or dropping a course without being assessed a \$5 change fee. Courses dropped after this date will be included in the tuition calculation. (See refund schedule under Dropping and Adding Courses on page iv.) Change fee of \$5 will be assessed after this date.

March 30

Last day for official withdrawal from the University without owing tuition or fees.

April 6

Last day to drop a course without entry on permanent record.

April 6

Last day to add a course without dean's permission.

April 10

Fee statements mailed to all registered students.

April 20

Last day for undergraduate, post-baccalaureate (fifth-year), and nonmatriculated students to drop a course.

April 20

Fee payment deadline for all registered students.

May 11

Last day for graduate students to drop a course.

Academic Period
March 26, Monday

Instruction begins.

April 6, Friday

Last day to return approved applications to 207 Schmitz for credit by examination.

April 13, Friday

Applications for bachelor's degrees and certificates to be conferred Winter Quarter 1979 must be submitted to the Graduation Office, 207 Schmitz.

Fifth Week of the Quarter

Credit by examination. Students must make arrangements with the Educational Assessment Center, telephone 543-1170.

May 28, Monday

Memorial Day.

June 1, Friday

Last day of instruction.

June 1, Friday

Last day to withdraw from the University.

June 4-8

Final examinations.

June 9, Saturday

Commencement.

June 11, Monday

Grades due by 9 a.m. at Grade Information Office, 248 Schmitz.

Spring Quarter 1979 Examination Schedule

The last day of instruction is Friday, June 1

Make-ups Incomplete Removals Conflicts	When mutually agreeable to faculty and students con- cerned, provided scheduled <i>no later than</i> Friday, June 8.				

Final examinations should be administered in accordance with the above examination schedule.

The dean may permit an instructor to change the time of a final examination upon prior application demonstrating good cause for such change. In such cases, the following guidelines shall be observed.

1. The final examination may only be postponed—not moved to an earlier time. Before approving the rescheduling of a final examination, the dean shall obtain assurances that the change will not have an undue adverse impact on the students. The dean shall notify the Registrar of the approval granted for changing the date of a final examination.

2. An instructor shall not, except in very unusual circumstances, grant permission to individual students for an early examination. If the student is unable to take an examination on the scheduled date, the procedure outlined in the following paragraph should be followed.

3. A student absent from any examination, or other required class activity, either by permission of the dean or through sickness or other unavoidable cause, shall be given an opportunity to complete the required work, or its equivalent, at some other time. If the instructor determines this is not feasible during the current quarter, the instructor shall exempt the

student from the requirement or give the student a grade of Incomplete if his or her work in the course is otherwise satisfactory. The student may remove this Incomplete in the manner provided for the removal of Incomplete grades. In all other cases of absence from the scheduled final examination, a student should be given a grade of 0.0.

4. Classes that meet on the hour use the first full hour of instruction to determine the time of examination. For example, a class that meets at 10 a.m. uses the 10:30 a.m. examination time.

5. Classes that begin on the half hour and last longer than one hour use the actual starting time to determine the exam time. For example, a class that meets at 7:30 a.m. and continues until 9:00 a.m. would use the 7:30 time.

6. Classes in which the entire class meets at the same hour every day, in the same room, may use that room at 8:30 or 2:30 for a three-hour examination. All other exams are limited to one hour and fifty minutes unless other arrangements are made with Room Assignments.

7. If an examination is held at a time other than the above schedule indicates, instructors must check with Room Assignments to make sure that the room is going to be available.

Questions concerning the examination schedule should be directed to Room Assignments, telephone 543-1080.

GUIDE TO COURSE LISTINGS

The information published in the *Time Schedule* is subject to change. The instructor for a particular course may be changed, or the instructor may use assistants in teaching the course. Additionally, courses listed in this publication may be cancelled in the event of insufficient enrollment.

Course, term, and section information is listed in the following columnar order:

Entry card required symbol (> > >), if appropriate

Schedule line number

Department

Course number

Term designation—if *a* or *b* term

Section designation

Section type—laboratory, quiz, or conference

Credits—listed with lecture section only; slash (/) means *or*; 2.5 means 2½ credits; hyphen (-) means *to*; VAR means variable credit and any number of

credits may be elected (however, fractional credit registration—e.g., ½ credit—cannot be processed for variable credit courses where the credit may vary from student to student in a single quarter).

Honors (H), Permission Required (#), or New Courses (%), as appropriate

Day(s) of meeting (ARR means "to be arranged")

Time of meeting

Place of meeting (** means "to be arranged")

Course title and remarks—CR/NC ONLY means course offered for credit/no credit grading only

Name of instructor

NEW COURSES FOR SPRING QUARTER 1979

The following list includes new courses that will be offered Spring Quarter 1979, which were added to the University curriculum after publication of the 1978-80 General Catalog. Consult the appropriate academic department for information on courses not listed below.

COLLEGE OF ARCHITECTURE AND URBAN PLANNING

LANDSCAPE ARCHITECTURE

L ARC 474 Project Design (6)

Detailed design studies of small to medium-scale projects. General focus on public landscape areas and social/psychological uses of site: design master plan and details, planting and construction documents, and professional office presentation of material. Prerequisite: fifth-year standing in the department or permission.

COLLEGE OF ARTS AND SCIENCES

AMERICAN INDIAN STUDIES

AIS 110 American Indian Song and Dance Traditions (3)

Survey of vocal technique, instrumental accompaniment, and song and dance traditions in different areas of native North America.

ANTHROPOLOGY

Anthropology ANTH 498 Seminar on Recent Advances in Medical and Psychiatric Anthropology (3)

Includes: comparative studies of medical systems; cultural construction of illness categories and behaviors; health seeking behavior; comparisons of indigenous and cosmopolitan practitioner-patient transactions; cross-cultural studies of the healing process; cultural analysis of affective and behavioral disorders; and applied clinical relevance of anthropological concepts and findings. Offered jointly with PBSCI 497. Prerequisites: 321 and permission. (Limit: 25 students.)

Archaeology ARCHY 468 Issues in Cultural Resource Management (1)

Review of federal and state cultural resource management policies and the effects of these policies on the conduct of projects which may impact cultural resources on public lands. Survey of related issues in museum management. Prerequisite: 205, ANTH 202, or permission.

Physical Anthropology PHY A 375 Biology of Human Race (3)

World-wide survey of the distribution and causes of variation in human biology: the distribution of human body shape and size, skin and eye color, genetic systems such as blood groups, and responses to cold, heat, and disease; their relation to processes of adaptation and natural selection, environment, and population history; and problems arising from previous attempts at classifying human variability. Prerequisite: 201 or permission.

ART

ART 204 Graphic Design: Context, Formulation, Performance (3)

Lectures and assignments exploring graphic design and its function in the context of specific visual situations. Primarily for nonmajors.

ART 232 Theory and Criticism of Photography (3)

Study of photography based on its origins and development as an art form from early nineteenth century to

the present day. Emphasis on photographic traditions and photographers of the twentieth century.

ART 513 Contemporary Studio Theories and Problems in Painting (3)

Examination of major stylistic developments in painting as a function of aesthetic theories and studio practices as they relate to contemporary problems in painting today.

BLACK STUDIES

BLK S 280 Creative Expression for African-American Children (5)

Explores new and developing theories and practices of creative expression for African-American children. Prerequisite: 200.

BOTANY

BOT 456 Plant Community Ecology (5)

Development of plant community theory; theory of vegetation structure and typical identification; numerical methods for vegetation description and pattern analysis; gradient analysis; competition and allelopathy in complex systems; vegetation dynamics; niche and ecotope theory. Laboratory emphasizes sampling design and field and computer methods to characterize vegetation and vegetation processes. Two weekend field trips required.

BOT 552 Vegetation of North America (5)

Detailed analysis of the biomes of America north of Columbia, including principles of plant geography, floristics, climate, soils, ecophysiology, paleobotany, vegetation structure, and community patterns. Prerequisite: 350 or 450.

COMMUNICATIONS

CMU 471 National Systems of Broadcasting (3)

Broadcast systems in countries throughout the world: origins, development, and present operations compared with the United States system. Each quarter the focus is on a certain national system. Consult Communications Advising office for schedule of offerings. Open to nonmajors. Prerequisites: 150 and 214, or permission.

CMU 543 Seminar on Advertising in Society (3)

Directed reading and research on advertising as a social institution. Consideration of the interacting historical, social, economic, and legal influences shaping institutional character. Prerequisite: permission of instructor.

DRAMA

DRAMA 265 Black Theatre Workshop (3)

Studio course using Black arts materials which introduces the student to basic skills and techniques associated with performance, while also developing self-awareness and confidence. Prerequisite: 202 or concurrent registration, or permission.

DRAMA 373 History of the Western Theatre and Its Literature: 1700-1941 (5)

Theatre history and dramatic literature of Europe, England, and America. Development of the modern playhouse, and of modern dramatic and critical theory. The growth of the actor-manager and star systems; emergence of the director. Theatrical production and its response to Romanticism and Realism, to Melo-

drama, social drama, and musical theatre forms. Primarily for drama majors; open to others with a background in the history and/or literature of the period.

DRAMA 435 Theatre in the Schools (3)

Practical experiences in researching, devising, rehearsing, and presenting actor/teacher, theatre-in-education programs to groups of school children in the Seattle area. Programs pertinent to school curriculum or to a particular group of children involve both performance by actors and participation of children. Prerequisite: 253 or permission.

DRAMA 531 The Visual Image for Young Audiences (3)

Application of basic principles of design to children's theatre. Both critical and creative involvement of students.

DRAMA 535 Graduate Colloquium in Child Drama (1, max. 6)

Analysis, discussion, and critique of special studies, productions, research, and thesis projects being done in the field of child drama by graduate students in the School of Drama. Prerequisite: graduate standing or permission.

ECONOMICS

ECON 538 Economic Aspects of Marine Policy II (3)

Offered jointly with IMS 538. See IMS 538 for course description and prerequisites.

ECON 547 Advanced Seminar in Health Economics (3)

Offered jointly with HSERV 560. See HSERV 560 for course description and prerequisites.

ENGLISH

ENGL 504 Approaches to Teaching Composition (5)

Teaching experience, combined with readings in composition theory and discussion of practical classroom applications. Prerequisite: previous experience or concurrent assignment in teaching writing.

ENGL 557 Research Methods in Second Language Acquisition (5)

Intensive examination of research and testing methodology in second-language acquisition and learning. On the basis of this examination, students design and execute studies relevant to their own interests in the field. Prerequisites: 556, LING 449, or permission of instructor.

ENGL 585 Advanced Poetry Workshop (5)

Advanced seminar in the craft of poetry, with professional focus on the planning, writing, and revising of a publishable set of poems preliminary to the graduate thesis. Prerequisite: graduate standing.

ENVIRONMENTAL STUDIES

ENV S 408 Geochemical Cycles (3)

Offered jointly with GPHYS 408. See GPHYS 408 for course description and prerequisites.

ENV S 532 Internship Seminar (3)

Post-internship seminar with focus on a detailed analytical paper concerning the role of science in analysis and decision making in the agency or firm in which the student served as an intern. Prerequisites: 530, 531.

GEOGRAPHY

GEQG 495 Special Topics (*, max. 10)

Topics vary and are announced in the preceding quarter. Prerequisite: permission.

GEOPHYSICS

GPHYS 408 Geochemical Cycles (3)

Descriptive and quantitative aspects of the earth as a biogeochemical system. Fundamental methods for study of equilibria, transport processes, chemical kinetics and biological processes and their application to the carbon, sulfur, nitrogen, phosphorous, and other elemental cycles. Emphasis on stability of biogeochemical systems and the nature of human perturbations of their dynamics. Offered jointly with ENV S 408. Prerequisites: CHEM 150, 350, MATH 238.

GPHYS 499 Independent Study for Undergraduates (1-5, max. 10)

Prerequisite: permission.

HISTORY

History of the Americas

HSTAA 405 The South from 1600 to 1830 (5)

The South from the founding of the plantation society to its emergence as a self-conscious section in the early nineteenth century. Emphasis on patterns of settlement, labor systems, the influences of trade and empire, regional politics, a provincial culture, and the South's role in the Revolution and the new nation, together with the personalities through which these themes were expressed.

HSTAA 415 History of Indian-White Relations in Anglo-America (5)

Indian-White contact, conflict, and accommodation from the Atlantic colonies in the seventeenth century to the American nation in the twentieth: Indian cultural groups and their varying adjustments to European civilization; economic exchanges and cultural borrowing; Anglo perceptions of and approaches to natives; effects of colonial wars and American Revolution; evolution and implementation of federal Indian policies; impact of westering frontiersmen; disintegration of Indian societies in the nineteenth century; Indian resistance to acculturation; condition and changing role of native Americans in modern society.

Ancient and Medieval History

HSTAM 415 The Decline of Roman Civilization (3)

Varying interpretations of the "decline and fall" of the Roman Empire, with special emphasis on the interaction of past and present in the analysis by historians of the causes and symptoms of the decline of a civilization. Recommended background: courses in history, classics, or the history of ideas.

HONORS

H A&S -201 Humanistic Understanding and Human Culture (-3)

Study of a topic related to linguistic, artistic, or other humanistic activities as ways of knowing, methods of inquiry, and systems of cultural association and exchange.

H A&S -203 Empirical Thought and Human Culture (-3)

Study of a topic involving scientific modes of thought and inquiry as they are related to human culture.

HUMANITIES

HUM 233 Ideas in the Western Tradition--Modern (5)

Introduction to cultural issues and ways of thinking in the European traditions since the Renaissance. Topics

and themes include writings in philosophy, literature, science, and other areas.

HUM 295 Performing Arts of Africa, Oceania, and the Americas (5)

Comparative ethnological approach to the traditional performing arts of sub-Saharan Africa, Oceania, and the Americas. Emphasis on learning how to listen for essential characteristics in unfamiliar musics; lectures accompanied by demonstrations, films, slides, and musical examples. Not open to students who have taken MUSIC 317.

INTERNATIONAL STUDIES

African Studies

AFSTU 450 African Oral Tradition (3)

Examines the range of oral tradition used in Africa from South African heroic poetry through Yoruba divinatory to Berber music. Demonstrates the use of oral tradition as both historical method and expressive culture in its geographical, cultural, and religious context. Guest lecturers and audio-visual materials. Prerequisites: 300, 301, 302, or 303, 304, 305, or equivalents and either 265 or ANTH 202.

Religious Studies

RELIG 326 Gnosticism and Early Christianity (5) A

Study of a form of religion that swept the Mediterranean world during the period of earliest Christianity and which had a major impact on the development of Christianity and several other religious groups of that period. Readings are primarily from Gnostic apocalypses, gospels, treatises, and other forms of literature, dating from the first through the third centuries A.D. Recommended background: 201 or 200, or HST 307.

Russia and Eastern Europe

REEU 406' Ethnography of the U.S.S.R. (5)

Outline of the complexity of the ethnic picture of the U.S.S.R., including social mobility, assimilation, and urbanization.

MATHEMATICS

MATH 158 Elements of Calculus (4)

Follows 157. Exponential and logarithmic functions; applications and calculus manipulations with them. Further techniques for differentiation and integration. Partial derivatives and multiple integrals. Applications to business, economics, and some physical contexts. Prerequisite: 157.

MATH 239 Elements of Differential Equations (3)

Continuation of 238. Laplace transforms, linear systems, stability theory. Prerequisites: 238, and either 205 or 303.

NEAR EASTERN LANGUAGES AND LITERATURE

Hebrew

HEBR 313 Modern Hebrew Literature (3)

Based on 111-112,113, Conversational Hebrew. Extends into the areas of modern spoken and written Hebrew, newspaper reading, and modern poetry and prose. Prerequisites: 111-112,113, or permission.

NUTRITIONAL SCIENCES AND TEXTILES

Nutrition, Foods, Dietetics

NUTR 490 Food Service Systems Management I (3)

Organization and management of food service systems. Organization of institutions, management tools, and leadership styles. Primarily for students in the Clinical Dietetics program. Prerequisite: permission.

NUTR 528 Practicum in Dietetic Education (1-5)

Supervised instructional experiences for dietetic educa-

tion in both classroom and clinical situations. Prerequisite: permission.

PHYSICAL EDUCATION

PE 200 Foundations of Physical Fitness (3)

Concepts, theories, principles, and practices of physical conditioning. Evaluation of contemporary physical conditioning programs and development of a personal fitness regimen. Completion of previous courses in biological science desirable. Not open to physical education majors.

PE 437 Advanced Athletic Training (5)

Advanced procedures in athletic training and injury rehabilitation. Consideration for safety factors in athletic contests, sports equipment, and facilities. Theory and practice in the use of therapeutic modalities for injury rehabilitation. Prerequisites: 331, 332, 336.

PE 503 Seminar in Sport Administration (1, max. 3)

Issues and problems in the management of sport programs and facilities. Prerequisite: permission.

PE 504 Seminar in Sports Medicine (1, max. 3)

Current practice methods in athletic training and/or exercise prescription for cardio-pulmonary conditioning. Prerequisite: permission.

PE 541 Exercise and Metabolism (3)

Study of carbohydrate, fat, and protein metabolism and the effects of physical exercise training, diet, and disease on metabolism. Prerequisite: 332 or permission.

PE 595 Internship in Sport Administration (3-6, max. 12)

Supervised field experience. Nine hours minimum, eighteen hours maximum per week. Open to graduate students in M.S. Physical Education Sport Administration option only. Prerequisites: concurrent registration in 503 and permission.

PE 596 Internship in Sports Medicine (3-6, max. 12)

Supervised field/clinical experience. Nine hours minimum, eighteen hours maximum per week. Open to graduate students in M.S. Physical Education Sports Medicine option only. Prerequisites: concurrent registration in 504 and permission.

PHYSICS

PHYS 541 Applications of Quantum Physics (4)

Techniques of quantum mechanics applied to lasers, quantum electronics, solids, and surfaces. Emphasis on approximation methods and interaction of electromagnetic radiation with matter. Prerequisite: 421 or 441 or equivalent.

POLITICAL SCIENCE

POL S 493 Language and Politics (5)

Language as a political phenomenon, tool of political power, and source of political problems. Includes the effects of "public doublespeak", the role of language in racism and sexism, and the search for ways to overcome national and international language barriers in several parts of the world. Primarily for students in political science, languages, and area studies. Prerequisite: permission.

PSYCHOLOGY

PSYCH 412 Behavior Genetics (5)

Consideration of empirical research with both animals and humans. Background topics including basic transmission genetics, evolutionary theory, population genetics, and quantitative models. Human behavior

genetics, including normal and abnormal social behavior, intellectual performance, sex differences, prenatal diagnosis and genetic counseling, and ethical considerations in behavior genetic research. Prerequisite: GENET 351 or 451 or equivalent.

PSYCH 537 Methods of Psychotherapy (5)

Primarily designed to give the graduate clinical student a working knowledge of a wide range of psychotherapy skills. Research, theory, and application of a wide range of procedures including desensitization, relaxation, biofeedback, induced affect, sex therapy, assertion/social skills, and cognitive behavior therapy procedures. Treatment planning for wide range of problem areas. Prerequisites: clinical psychology graduate students only and permission.

PSYCH 598 Advanced Clinical Practicum (4)

Supervised psychotherapy involving several individual clients. Separate consultations with supervising instructor for intensive supervision of each case. Occasional meetings in small groups of instructors and students to discuss case material. Assigned readings appropriate to each case with opportunities to discuss these with instructor. Prerequisites: clinical psychology graduate students only and permission.

ROMANCE LANGUAGES AND LITERATURE

ROMAN 600 Independent Study or Research (*)

Offered on credit/no credit basis only.

SOCIETY AND JUSTICE

SO JU 420 Organized Crime and Criminal Organization (3)

Focus on criminal conduct involving more than the individual offender acting alone. Examined from the perspectives of: the degree of formal or informal organization present and the permanency of such; bases for development and maintenance of organization; and relative strengths and weaknesses of various organizational groupings. Attention given not only to highly structured organizations, like the continuing criminal conspiracy; but also to more fluid and temporary associations among offenders. Discussion on the specific weaknesses of the criminal justice system. Prerequisite: SOC 371 or 372 or POL S 464.

SOCIOLOGY

SOC 525 Experimental Methods in Social Research (3)

For graduate students who have already taken the required methodology courses in sociology and who wish additional understanding of techniques, problems, and issues involved in the design and conduct of experimental social research. Considers strengths and weaknesses of various experimental designs, artifacts and their control, problems in going from the laboratory to the field, and ethical issues in social research. Prerequisites: 424-425 and 428-429, or equivalents.

SCHOOL OF BUSINESS ADMINISTRATION

HUMAN RESOURCE SYSTEMS

HRSYS 520 Job Design and Staffing (3)

Job design considerations as they impact employee performance such as job enrichment and work simplification schemes. Examines systems related to manpower planning, recruitment, selection, placement, training, and development. Focus on advanced techniques with emphasis on validating predictive measures of performance. Topics include criterion development, psychological testing, validation procedures, and cost effectiveness of personnel research.

SCHOOL OF DENTISTRY

ORAL DIAGNOSIS AND TREATMENT PLANNING

ODTP 449 Directed Studies in Oral Diagnosis (*)

Supplements the offerings of the core curriculum for qualified first- and second-year students; may include dental hygiene students. Offered on credit/no credit basis only.

ORTHODONTICS

ORTHO 492H Honors Seminar in Clinical Adjunctive Orthodontics (1)

Clinical adjunctive orthodontic diagnosis and treatment. Students present diagnostic and treatment records for discussion. Prerequisites: 490H, 491H, DENT 460, 461, and permission.

COLLEGE OF ENGINEERING

COLLEGE COURSES

ENGR 401 Analytical Methods in Engineering (3)

Offered at the senior level, but open to well-prepared juniors. Also appropriate for graduate students in the natural sciences who require a survey of analytical techniques but who are not prepared for, or do not seek, more advanced material at the 500 level. Emphasis on the acquisition of technique and experience in areas of mathematics commonly encountered in applications to science and engineering. Illustrated by case studies. Prerequisite: MATH 238 or equivalent.

ENGR 403 Analytical Methods in Engineering (3)

See 401 for course description. Prerequisite: 402.

CIVIL ENGINEERING

**Transportation, Construction, and Geometrics
CETC 564 Soil and Site Improvement (3)**

Development, improvement, and utilization of marginal natural earth materials through compaction and stabilization using chemicals, portland cement, lime, asphalt, salt, and others. Includes discussion, design, and evaluation of foundation soil treatment as well as surface materials for pavement subgrades, slope protection, dust palliation, and general site improvement. Prerequisites: 424, 464.

ELECTRICAL ENGINEERING

E E 531 Fundamental Topics in Integrated Optics (4)

Essential theory and techniques necessary for an understanding of current developments in integrated optics. Dielectric waveguides; coupled mode theory; modulation and switching; fabrication techniques; semiconductor devices. Prerequisites: 468, 488 (or 529), or permission.

COLLEGE OF FISHERIES

FISH 461 Culture and Reproduction of Temperate and Warm Water Fishes (3)

History of pond fishes, reproduction, and culture of carp, catfish, bass, perch, and tilapia species; pond construction and pond management; polyculture. Prerequisite: 459 or permission.

COLLEGE OF FOREST RESOURCES

BIOLOGICAL SCIENCES

FOR B 327 Field Studies in Range and Wildlife Habitats (2)

Four week-end field trips related to range and wildlife habitats of Washington with application of materials presented in 326. For majors in wildlife science and forest management only. Prerequisite: permission.

FOR B 414 Forest Soil Fertility and Chemistry (3)

Tree growth depends in part on the interaction between chemical and biological activities within a given soil; the biological and chemical parameters which influence tree growth; soil solution chemistry and surface reactions; reactions and processes which control essential plant nutrient levels and forms in soil solutions. Prerequisite: 310.

FOR B 431 Ecological Aspects of Forest Fires (3)

Description of natural role of fire and ecosystem impacts from various fire frequencies and intensities. Examples from other regions are included but emphasis is on Pacific Northwest forests. Ecological perspectives on fire behavior and fuel dynamics. Techniques and effects of fire used for hazard reduction, site preparation, wildlife production, stand structure control, and wilderness fire management. Field trips required. Prerequisite: FOR M 430 or permission.

MANAGEMENT AND SOCIAL SCIENCES

FOR M 250 Computer Programming (3)

Introduction to computer programming using BASIC and FORTRAN languages. Applications to forestry problems.

INTERDISCIPLINARY GRADUATE PROGRAMS

APPLIED MATHEMATICS

AMATH 501 Seminar in Applied Mathematics (1, max. 3)

Special topics and selected problems of current interest in applied mathematics.

INDIVIDUAL PH.D. PROGRAM

IPHD 600 Independent Study or Research (*)

INTERSCHOOL OR INTERCOLLEGE PROGRAMS

BIOENGINEERING

BIOEN 510 Bioengineering Seminar (1)

Topics of current bioengineering interests presented by faculty, visitors, and students. Graduate students actively involved in bioengineering research must attend regularly, participate in discussions, and make presentations. Offered on credit/no credit basis only.

BIOEN 533 Electron Microscopy (1-5)

Theoretical and applied aspects of microscopy in biology with emphasis on newer methods. Offered jointly with B STR 533. Offered on credit/no credit basis only. Prerequisite: permission.

INSTITUTE FOR MARINE STUDIES

IMS 538 Economic Aspects of Marine Policy II (3)

Development of pertinent economic concepts and their application to selected topics in marine policy. Offered jointly with ECON 538. Prerequisite: 508 or permission.

IMS 700 Master's Thesis (*)

QUANTITATIVE SCIENCE

Q SCI 290 Introduction to Mathematics for Biologists (4)

Precalculus mathematics presented within the context of applications and/or models in forestry and fisheries: linear and nonlinear functions, periodic relationships, and matrix algebra. Prerequisite: college algebra or permission.

SOCIAL MANAGEMENT OF TECHNOLOGY

SMT 582 Energy Conservation (3)

Examination of past, present, and projected patterns of energy use in this country: opportunities for reducing wasteful practices and for developing more efficient techniques of energy utilization; use of price and other forms of regulation to induce energy conservation; case studies from the residential, commercial, industrial, and transportation sectors; energy conservation legislation and public policy issues at federal and local levels. Emphasis on the technological, political, social, and environmental aspects. Prerequisite: 461.

UNIVERSITY JOINT

UCONJ 585 Seminar in Molecular and Cellular Biology (1, max. 15)

For students enrolled in the Molecular and Cellular Biology Training Program. Participants present the background and current progress in their thesis research. Offered on credit/no credit basis only. Prerequisites: enrollment in doctoral degree program in biological science and in graduate research.

SCHOOL OF LIBRARIANSHIP

LIBR 560 Information Needs, Uses, and Users (3)

Bates

Study of the factors and influences, both individual and social, associated with human beings needing, using, and acting on information. Topics include information theory, human information processing, information flow among social and occupational groups, and research on information needs and uses.

SCHOOL OF MEDICINE

BIOLOGICAL STRUCTURE

B STR 533 Electron Microscopy (1-5)

Offered jointly with BIOEN 533. See BIOEN 533 for course description and prerequisite.

FAMILY MEDICINE

FAMED 499 Undergraduate Research (*)

Research activities are arranged with faculty members doing research in various areas related to Family Medicine. Areas include: clinical strategies, health care delivery, curriculum development at the undergraduate and residency levels, interdisciplinary activities, continuity of care, audit and retrieval strategies, and behavioral aspects of Family Practice. Research is generally clinically-oriented and centered around patient care.

LABORATORY MEDICINE

LAB M 502 Seminar (1, max. 6)

Current topics in the field of laboratory medicine. Offered on credit/no credit basis only. Open to graduate students in laboratory medicine and other medical sciences. Prerequisite: permission.

LAB M 510 Clinical Chemistry Research Conference (1, max. 6)

Current projects under research and development in

clinical chemistry and immunology. Offered on credit/no credit basis only. Open to graduate students in laboratory medicine and other medical sciences. Prerequisite: permission.

LAB M 520 Seminar in Organization and Management in Laboratory Medicine (3)

Core course for the degree Master of Laboratory Medicine. Includes a detailed consideration of federal and state regulations concerning clinical laboratories and a discussion of managerial problems commonly encountered in laboratory medicine, such as quality control techniques, personnel selection and management, data processing, equipment purchasing and maintenance, etc. Offered on credit/no credit basis only. Prerequisite: graduate student in laboratory medicine or permission.

LAB M 590P Research Projects in Laboratory Medicine (*)

Six or ten weeks to investigate one problem in a laboratory medicine subspecialty area. Topics are assigned by staff. Designed to demonstrate methods, tools, principles, and particularly problem-solving nature of laboratory investigations. Prerequisite: permission.

LAB M 680P Clinical Laboratory Testing: Methods and Interpretation (*)

Methods, tools, and principles used in the modern clinical laboratory. Choice of one to three specialty areas including chemistry, coagulation, computers, hematology, immunology, microbiology, and virology. Course investigates the methodologies in the specialty areas, identifies their limitations, and explores their usefulness in clinical medicine. Prerequisite: permission.

MEDICINE

MED 645P Clinical Dermatology, Spokane (8)

Participation in clinical dermatology in private offices of four Spokane dermatologists who are on the University of Washington clinical faculty. Supervised patient care and observation for one week in each office for a total of approximately twenty-eight hours; two hours of inpatient ward rounds. Selected reading assignments in original literature and didactic sessions in dermatology for one hour each week with staff. Attendance at conjoint noon teaching conferences, Sacred Heart and Deaconess Hospitals. Prerequisite: 665P. (Four weeks; limit: two students.)

MICROBIOLOGY AND IMMUNOLOGY

MICRO 432 Mechanisms of DNA Exchange in Prokaryotes (2)

Emphasizes mechanisms of DNA exchange in prokaryotic organisms, particularly those functioning in bacteria. Prerequisite: BIOL 210 or MICRO 400, or equivalent.

OBSTETRICS AND GYNECOLOGY

OB GY 668P Introduction to Obstetrics and Gynecology, Spokane (12)

Clerkship, equivalent to 665P, offered at Spokane, Washington (WAMI). Includes experience in several private physicians' offices. Prerequisite: HUBIO 552P. (Six weeks; limit: three students.)

OB GY 669P Introduction to Obstetrics and Gynecology, Swedish (12)

Clerkship, equivalent to 665P, offered at Swedish Hospital, Seattle, Washington. Prerequisite: HUBIO 552P. (Six weeks; limit: three students.)

OB GY 670P Introduction to Obstetrics and Gynecology, Group Health (12)

Clerkship, equivalent to 665P, offered at Group Health Cooperative of Puget Sound, which is a prepaid medical plan facility in Seattle, Washington. Prerequisite: HUBIO 552P. (Six weeks; limit: three students.)

OB GY 671P Introduction to Obstetrics and Gynecology, Anchorage (12)

Clerkship equivalent to 665P but offered at Anchorage, Alaska (WAMI). Includes experience in several private physicians' offices as well as Providence Hospital and Elmendorf Air Force Base. Prerequisite: HUBIO 552P. (Six weeks; limit: three students.)

OPHTHALMOLOGY

OPHTH 686P Ophthalmology Externship (4)

Student works with a clinical faculty member in the diagnosis and treatment of ocular diseases in outpatients. Each week the student is assigned to the Group Health Cooperative Ophthalmologist responsible for the care of walk-in and urgent patients (most likely to demonstrate findings pertinent to the future practice of primary care physicians). Opportunity to learn examination techniques including tonometry, ophthalmoscopy, and biomicroscopy. Prerequisite: HUBIO 563P.

OTOLARYNGOLOGY

OTOL 490 Neural Mechanisms of Hearing (3)

Major areas within auditory neurophysiology, including peripheral mechanisms of analysis and encoding, central aspects of the development of auditory structures, binaural hearing, representations of complex sounds, other topics of current interest. Introductory-level knowledge of neurophysiology and sensory physiology assumed. Lectures, discussions, assigned readings. Prerequisite: permission.

PATHOLOGY

PATH 514 Comparative Pathology Conference (1, max. 6)

Focus on the histopathology of naturally-occurring and experimentally-induced lesions of primates, laboratory and domestic animals, fish, wildlife, and birds. Participants discuss the lesions and the basic pathogenetic mechanisms which underlie them. Prerequisites: 500 or equivalent, and permission.

PATH 667P Renal Pathology Laboratory (*, max. 6)

Laboratory elective for third- and fourth-year medical students. Students read the current literature, review various renal biopsies and urine sediments, and read the standard texts prior to a weekly conference which is topic oriented. Topics include various mediators of renal disease such as post-infections, genetic, metabolic, and those accompanying certain systemic syndromes. To earn more than 3 credits, student must submit a paper on a topic agreed upon with the instructor. All students earn 1 credit for one hour seminar per week. Laboratory credits are earned on the basis of two hours laboratory work per week each quarter for 1 credit up to a maximum of 6 credits. May be taken concurrently with MED 693P. Prerequisite: permission.

PEDIATRICS

PEDS 553P Nutrition for Physicians and Allied Health Professionals (2)

Nutrition for health professionals presented in a series of lecture discussions and patient presentation seminars. Nutrition principles as related to health maintenance and fitness emphasized, with little emphasis given to complex disease states. Prerequisites: zoology and organic chemistry.

PHARMACOLOGY

PHCOL 513 Neuro and Endocrine Pharmacology (3)

Basic aspects of neuropharmacology important to the application of centrally active drugs: rational explanations for drug choice, efficacy, mechanism of therapeutic action, interactions, and toxicity; pharmacolog-

ical aspects of acute and chronic pain; endocrine pharmacology, including mechanism of action of hormones on target tissues and the use of drugs in diseases of endocrine glands; and development and pharmacology of synthetic analogues of natural hormones with emphasis on structure-activity relationships and alterations in drug metabolism. Prerequisite: 511, 512, HUBIO 532P, or permission.

PHYSIOLOGY AND BIOPHYSICS

P BIO 403 Basic Human Physiology: Metabolism and Endocrinology (3)

Covers energy metabolism, gastrointestinal system, endocrinology, and reproduction. Prerequisites: general chemistry, elementary physics.

PSYCHIATRY AND BEHAVIORAL SCIENCES

PBSCI 497 Seminar on Recent Advances in Medical and Psychiatric Anthropology (3)

Offered jointly with ANTH 498. See ANTH 498 for course description and prerequisites.

PBSCI 549P Assessment of the Older Patient (3)

Seminar with focus on a special methodology for studying cognitive and affective dysfunction in the elderly and basic methods for diagnosis, management, and assessment of change during treatment. Open to medical students and graduate students in the allied health sciences. Prerequisites: HUBIO 563P and permission.

REHABILITATION MEDICINE

REHAB 404 Physical Therapy Management of Patients with Common Musculoskeletal Disorders (4)

Discussion of functional anatomy, biomechanics, clinical assessment and management as they relate to patients, with common musculoskeletal disorders, who have been referred to physical therapy services. Emphasis on development of appropriate therapeutic strategies. Prerequisite: majors only.

REHAB 501 Physical Therapy Management of Selected Motor Problems (2-5, max. 7)

Study of mechanisms involved in the control of posture and movement. Critical examination of selected literature and techniques dealing with the evaluation or modification of motor behavior. Prerequisite: physical therapy graduate student.

REHAB 503 Applied Biomechanics (5)

Introduction to basic statics, characteristic properties of biomechanical material. Elements of instrumentation and analysis of human motion. Analysis of functional losses and development of prosthetic and orthotic solutions. Required for Master of Physical Therapy students; others by permission. Prerequisite: 445.

REHAB 504 Physical Therapy Approach to Common Orthopaedic Problems (4)

Discussion of common disorders affecting the musculoskeletal system with emphasis on evaluation and physical therapy management of patients with such disorders. Includes individual clinical or research project. Required for Master of Physical Therapy students. Prerequisite: 464.

SCHOOL OF NURSING

NURS 504 Theories of Intervention and Process in Family and Child Treatment (3)

Critical review of the family assessment and intervention process. Analysis of existing treatment methods regarding adaptation to psychosocial nursing practice. Prerequisite: 503.

NURS 505 Selected Topics in Psychosocial Nursing (2-10, max. 10)

In-depth exploration of the major theoretical issues in psychosocial nursing. Seminar with analysis and discussion of selected topics and readings and implications for research and health care.

NURS 534 Cultural Influences Upon Parenting (3)

Data from several cultures to compare cross-cultural similarities and differences in: definitions of ideal parenting; socializations into a parent role; social support for and controls upon parenting. Analysis of additional effects of changes in ideology, technology, and demography upon cultural parenting roles. Prerequisite: permission.

NURS 548 Management of Adults with Respiratory Dysfunction (3)

In-depth examination of problems such as abnormal secretions and shortness of breath associated with respiratory dysfunction due to pulmonary diseases and other pathophysiological states. Lectures and laboratory sessions develop knowledge and skill necessary to problem solving and management techniques expected of the expert practitioner. Prerequisite: 540 or comparable preparation, or permission.

SCHOOL OF PUBLIC HEALTH AND COMMUNITY MEDICINE

ENVIRONMENTAL HEALTH

ENVH 575 Occupational Lung Diseases (2)

Reviews the epidemiology, clinical features, diagnosis, and prevention of occupational lung disorders including pneumoconiosis, industrial bronchitis, occupational asthma, and cancer. Discussion of pulmonary function tests, health effects of smoking, irritant gases, and occupational infections. Primarily for physicians and medical students. Prerequisite: permission of instructor.

HEALTH SERVICES

HSERV 560 Advanced Seminar in Health Economics (3)

Selected topics in health economics, including risk and insurance, medical malpractice, the market for physician services, and industry regulation. Offered jointly with ECON 547. Prerequisites: 550 or ECON 546 and advanced-level microeconomic theory, or permission.

SCHOOL OF SOCIAL WORK

SOCIAL WORK

SOC W 200 Introduction to Social Work Practice (5)

Introduction to the practice of social work, the theoretical concepts and institutional framework that guides practice, and the conceptual organization of the discipline of social work. Three weekly lectures and two hours per week in field observation sessions. Lectures supplemented by audio-visual aids and by special guest practitioners.

SOC W 426 Conceptions of Basic Institutional Change (3)

Examination of how basic cultural change may be brought about and specifically how such change may affect the institution of social welfare. Focus on (1) a critical assessment of the dominant cultural values and particularly those values underlying social welfare; (2) prerequisites for a change to occur in these values; and (3) dangers and dilemmas in implementing such a change. Recommended preparation: completion of 300 and ECON 200.

SOC W 433 Community Resources in the Treatment of Alcohol and Other Drug Problems (3)

Survey of available community resources. Includes the premises upon which treatment approaches are built and the desirable components of appropriate client referral. Prerequisites: upper-division standing and 20 credits in the social sciences, preferably sociology and psychology.

INDEPENDENT STUDY THROUGH CORRESPONDENCE

The Office of Independent Study provides University courses for extension credit primarily by correspondence instruction to persons who wish individual instruction. Fees for Independent Study courses are separate from residence tuition and are \$20 per credit. Enrollment is not based on the quarter system but is continuous throughout the year, with one calendar year allowed to complete a course.

A regularly enrolled student who wishes to register for additional courses for Independent Study credit should consult his or her departmental adviser prior to enrolling in an Independent Study course. Applications and additional information on enrollment procedures may be obtained from the Independent Study office, 222 Lewis Hall, or by telephoning 543-2350.

The following courses are currently offered by Independent Study (credits in parenthesis; * indicates variable credit, to be arranged by student and instructor).

> > > ENTRY CARDS > > >

Certain courses and sections require entry cards for registration. Students requesting these courses and/or sections on their registration request forms will not be registered in the courses unless the requests are accompanied by entry cards. An entry card alone is not sufficient. The course and schedule line number (SLN on entry card) must also be requested on the Mark-Sense Registration Form.

COURSES REQUIRING PERMISSION (OTHER THAN ENTRY CARDS)

SPRING QUARTER 1979

In order to register for the following courses, the student must obtain permission from the person or office listed. Some departments, schools, or colleges have general permission requirements applicable to many courses. These requirements are also listed.

Note: A slash (/) between names indicates that either party may grant permission.

Abbreviations:

DEPT Permission required from a member of the staff of the department offering the course

DEPT ADV Permission required from an *adviser* in the department offering the course

INSTR Permission required from the *instructor* of the course

ASHP Permission required from the *Arts and Sciences Honors Program* office

HONORS ADV Permission required from the *Honors Program adviser* in the department offering the course

SCHOOL OF INTERNATIONAL STUDIES

AFFILIATE PROGRAMS: ETHNICITY & NATIONALITY, NEAR EAST, SOUTHEAST ASIA.
 APPROPRIATE COURSES ARE LISTED BY PREFIX & NUMBER WITH EACH PROGRAM.
 SCHEDULES ARE GIVEN UNDER DEPARTMENT/SCHOOL OR COLLEGE HEADINGS.

* ETHNICITY & NATIONALITY

ANTH 559; AAS 108, 360, 370, 443; GEOG 479; HST 498B, 498D; LING 580; POL S 436; PSYCH 250, 448C.

* NEAR EAST

ART H 201; HST 363; 463U, 498A; I BUS 599A; MUSIC 318; N E 432, 520A, 520B, 530A; NEAR EASTERN LAL FOR AKKADIAN, ARABIC, HEBREW, PERSIAN, & TURKISH.

* SOUTHEAST ASIA

ANTH 517; ART H 432; ASIAN LAL FOR THAI & TAGALOG; HST 425; POL S 343.
