

TIME SCHEDULE

WINTER QUARTER 1970

ADVANCE REGISTRATION
NOVEMBER 3-21

IN-PERSON REGISTRATION BY APPOINTMENT
DECEMBER 22, 23, 24 (a.m.), 29, 30

CLASSES BEGIN MONDAY, JANUARY 5

FINAL EXAMINATIONS BEGIN MONDAY, MARCH 16

QUARTER ENDS FRIDAY, MARCH 20

AFTER YOU HAVE USED THIS TIME SCHEDULE, please leave it or pass it along so that other students may use it.

Winter Quarter 1970 Examination Schedule

The last day of instruction is Saturday, March 14

HOUR class actually meets during quarter	Hour and day on which examination occurs, by days of class meeting in the week				
	Meeting four times a week, or daily	MWF; MT; MW; MF; WF; MWTTh	TTh; ThS; TS; TThS; T; Th; TThF; MTTh	M; W; F; S; Meeting once a week	Day of Examination
7:30 a.m.	8:30-10:20*	8:30-10:20	10:30-12:20	12:30- 2:20	Friday March 20
8:30 a.m.	8:30-10:20*	8:30-10:20	10:30-12:20	12:30- 2:20	Tuesday March 17
9:30 a.m.	8:30-10:20*	8:30-10:20	10:30-12:20	12:30- 2:20	Wednesday March 18
10:30 a.m.	8:30-10:20*	8:30-10:20	10:30-12:20	12:30- 2:20	Monday March 16
11:30 a.m.	2:30- 4:20*	2:30- 4:20	4:30- 6:20	6:30- 8:20	Wednesday March 18
12:30 p.m.	8:30-10:20*	8:30-10:20	10:30-12:20	12:30- 2:20	Thursday March 19

2:30 p.m.	2:30- 4:20*	2:30- 4:20	4:30- 6:20	6:30- 8:20	Tuesday March 17
3:30 p.m.	2:30- 4:20*	2:30- 4:20	4:30- 6:20	6:30- 8:20	Thursday March 19
4:30 p.m.†	2:30- 4:20*	2:30- 4:20	4:30- 6:20	6:30- 8:20	Friday March 20
EVENING CLASSES (5:30 or thereafter)	8-10 p.m. Wednesday March 18	8-10 p.m. Wednesday March 18	8-10 p.m. Thursday March 19	8-10 p.m. Tuesday March 17	
Make-ups Incomplete Removals Conflicts	When mutually agreeable to faculty and students concerned, provided scheduled <i>no later than</i> Friday, March 20.				

The examination schedule begins at 8:30 a.m. Monday, March 16.

Classes not assigned by the above schedules may use any time during the examination days which is mutually agreeable to faculty and students concerned, provided it is scheduled no later than Friday, March 20, and no student has conflict with another examination.

*Classes in which the entire class meets at the same hour every day may use 8:30-11:20 or 2:30-5:20 for the examination; but in 5-credit courses which meet Monday and Wednesday, or Monday, Wednesday, and Friday for lecture, with quizzes or laboratories at various hours, there may be students who have other classes meeting on Tuesday and Thursday at the same hours as the Monday and Wednesday, or Monday, Wednesday, and Friday lectures. In order not to penalize those students who will have an examination in the Tuesday and Thursday course from 10:30-12:20 or 4:30-6:20 the same day, and to insure equity, the examination must be terminated at the end of one hour and fifty minutes and all examination papers must be collected.

†Examinations for all 4:30 College of Education classes numbered 400 and above will be administered at 4:30 on the day of the final examination period on which the class is normally taught.

Instructors of 5-credit courses, which do not occupy the

same classroom five days a week, who wish to give a 3-hour examination must ascertain whether or not there is a 2- or 3-credit course occupying the classroom on other days of the week which will be holding an examination scheduled for the 10:30 hour. If that proves to be the case the instructor must arrange for another examination room by calling Room Assignments, Ext. 3-1080.

All students in undergraduate courses shall be required to take final examinations, provided that in a course for which an examination is not an appropriate test of the work covered, the instructor, with the consent of the dean of the school or college concerned, may dispense with the final examination.

The Faculty Code specifies that "special early examinations given to individual students or groups of students as substitutes for final examinations are prohibited."

Working students are responsible for arranging their work hours to enable them to attend the final examinations.

A student absent from a scheduled final examination, either by permission of his dean or through sickness or other unavoidable cause, shall be given a grade of Incomplete if his work in that course has been satisfactory until the time of his absence. He may remove this Incomplete in the manner provided for the removing of Incomplete grades. In all other cases of absence from the scheduled final examination, a student shall be given a grade of EW.

UNIVERSITY OF WASHINGTON
BULLETIN
General Series No. 1075
November 1969

Published monthly except in January
and February at Seattle, Washington,
by the University of Washington.
Second-class postage paid at Seattle,
Washington 98105.

CHANGES IN UNIVERSITY REGULATIONS

The University and its colleges and schools reserve the right to change the fees, rules, and calendar regulating admission and registration, instruction in, and graduation from the University and its various divisions, and to change any other regulations affecting the student body. Changes shall go into force whenever the proper authorities so determine, and shall apply not only to prospective students but also to those who at that time are matriculated in the University. The University also reserves the right to withdraw courses at any time.

A graduate student must satisfy the requirements for an advanced degree which are in force at the time the degree is to be awarded.

GENERAL REGISTRATION DIRECTIONS

See each quarter's registration poster for exact dates and deadlines.

It is the University's expectation that a student will follow University rules and regulations as they are stated in the *General Catalog*. In instances where no appeal procedure is spelled out and the student is persuaded that a special set of circumstances makes appeal reasonable, he may appeal the application of specific rules or regulations to the Office of the Dean of the School or College in which he is enrolled in the case of an academic matter, or to the Office of Student Affairs in the case of a nonacademic matter. These offices will either render a decision on the appeal or refer the student to the proper office for a decision.

1. All matriculated students currently in school who plan to register for the following quarter must register by Advance Registration and pay fees by the deadline stated on their fee cards. Registration will be cancelled if fees are not paid on time.

WARNING: STUDENTS WHO DO NOT COMPLETE ADVANCE REGISTRATION (INCLUDING PAYMENT OF FEES BY THE DATE STIPULATED ON THEIR FEE CARD) WILL NOT BE GUARANTEED A PLACE FOR WINTER QUARTER.

In-Person appointments, primarily designed for former and new students, may well be filled if a continuing student waits to apply for an In-Person Registration appointment. Continuing students who fail to participate in Advance Registration and are later granted permission to register In-Person will be assessed a \$15.00 service charge.

2. All nonmatriculated students currently in school who plan to register for the following quarter must request an appointment and register in person. Appointments will be issued on a space-available basis.

All former matriculated and nonmatriculated students not currently registered must make application as soon as possible since space is limited. (For information call 543-5920.)

All new entering students should file application for admission and credentials with the Director of Admissions as soon as possible. An In-Person Registration appointment will be mailed with the notification of admission. (For information call 543-5890.)
3. It is your responsibility to plan and select the required courses for your degree objective. Check your *General Catalog* for degree requirements.
4. Note the following University requirements.
 - a. Every student who has not satisfied the three-quarter lower-division Physical Education Activity graduation requirement is held responsible for including a Physical Education Activity on his Official Program each quarter until this requirement is satisfied.
 - b. The Selective Service requires full-time registration to maintain student status.
 - c. Students registering for more than 13 credits must select an afternoon class meeting at 12:30 p.m. or after, if one is available. Only a daily class or two 2-hour laboratories, except lower-division ROTC and Physical Education Activity, will satisfy this afternoon class requirement. Waiver of the afternoon class requirement must be approved by your dean or his authorized representative.
 - d. Immigration students with undergraduate status must register for a minimum of 12 credits per quarter; with graduate status, 8 credits.
 - e. Veterans: Minimum full-time load exclusive of lower-division ROTC and Physical Education activity:
P.L. 815 and 894 (Disabled Veterans), 15 credits. Veterans under P.L. 815 or 894 must have their Official Programs approved by their training officer each quarter.
P.L. 358 (Veterans Act of 1966), 14 credits.
P.L. 634 (Children of Deceased and Totally Disabled Veterans), 14 credits. Minimum requirement to use P.L. 634, 7 credits.
Graduate and Summer Quarter students should consult with the Veterans Division regarding minimum credits to be a full-time student.
 - f. New students and students returning after an absence of one calendar year are required to submit results of a medical examination by a private physician on the University's Health History and Medical Examination form prior to initial registration.
5. Obtain an Official Program at your adviser's office.
6. Print with a *BLACK LEAD PENCIL* on your Official Program.
 - a. Fill in all personal information, including your Permanent Student Number.
 - b. Enter courses, credits, and sections in the space provided. *Do not enter hours*. If you have work, transportation, or other activities that will affect the arrangement of your schedule, note them in the area provided.
 - c. Print an "R" before *required* courses, an "E" before *elective* courses, and a P/F for courses taken by Pass/Fail, in the column provided.
 - d. Check to be certain that you have the prerequisites, as indicated in the *General Catalog*, for the courses you select.
 - e. List *alternate courses* which can be substituted in case courses on your original schedule are closed. Indicate whether these alternates are required or elective. The listing of alternate courses may prevent a change of registration.
 - f. Obtain course permission signatures where indicated in this time schedule. If you are registering for a course out-of-quarter, obtain the required permission form at your advisory office.
 - g. If you have a known conflict of hours, obtain written permission for the conflict from the departments concerned. Authorization signatures must appear in the course permission area of the Official Program.
 - h. Take your Official Program to your adviser for his signature.

- i. All courses offered within the College of Arts and Sciences which have an Honors designation (excluding English 101H and 103H) require an ASPH permission stamp.

ADVANCE REGISTRATION ONLY

7. a. Take your adviser-approved Official Program to the Administration Building lobby (Engineering students go to 353 Loew Hall).
- b. Follow posted instructions.
- c. In Advance Registration, programs are accepted by class, with graduates and seniors first; then juniors, sophomores, and freshmen. Every effort is made to comply with your requests. If a course is closed an approved alternate course will be substituted.
- d. You will be mailed a fee card, a copy of your scheduled Official Program with additional registration instructions, and two Information Cards. *Read the enclosed instructions CAREFULLY.*
- e. Mail your fee card, fee payment, and your two Information Cards to the Cashier in the envelope provided, before the due date indicated. *Return your fee card and your Information Cards, without exception, even though no cash payment may be required.*
- f. If the above items are received by the date specified on your fee card, your registration will be complete.

If you find a conflict in hours or an error in credits, *pay your fees by the due date anyway*. Report to Sections at your earliest convenience for an adjustment of your schedule. You need not wait for the change of program period.

IN-PERSON REGISTRATION ONLY

8. On the day and time of your appointment :
 - a. Present your approved Official Program and your appointment card or Notice of Admission at the Registration Window in the Administration Building lobby to obtain a Registration Packet.
 - b. Take the Registration Packet and your Official Program to Sections, 101 Administration Building (Engineering students go to 353 Loew Hall).
 - c. As soon as you are scheduled and receive a copy of your Official Program, report to the Cashier's Office and pay your fees.

CHANGE OF PROGRAM

Drop or Add

1. Obtain a Change of Program card at your advisory office and have it approved by your adviser. Obtain permission signatures, where indicated in this *Time*

Schedule, for any courses that you plan to enter. All changes involving Freshman English Composition must be authorized in writing by the Freshman English Department, Padelford Hall. All changes in undergraduate chemistry courses must be cleared at 139 Bagley Hall.

2. Present the Change of Program card at Window 3 in the Administration Building lobby where you will be given an appointment for Sections.
3. A service charge of \$5.00 is made for Change of Program.

WITHDRAWAL FROM THE UNIVERSITY

1. Obtain a withdrawal form from your advisory office, and have it approved by your adviser.
2. Present the withdrawal form at the Information Window, Registrar's Office, Administration Building lobby. Withdrawal is not official until the form is presented to the Registrar's Office.

WARNING:

All Autumn, Winter, and Spring Quarter fees (except those indicated as not subject to refund) will be refunded less an enrollment service charge of \$50.00 if complete withdrawal is made prior to the sixth day of instruction; one-half of said fees less a \$25.00 enrollment service charge will be refunded if withdrawal is made during the first thirty calendar days, except for Air Force or Army ROTC uniform deposits.

Students withdrawing under discipline forfeit all rights to the return of any portion of the fees.

GUIDE

The name of the department appears only as a heading before the list of departmental course offerings. Course and section information is listed in the following columnar order :

Course number—listed with lecture section only
 Section designation
 Section type—laboratory, quiz, or conference
 Credits—listed with lecture section only
 Day of meeting
 Time of meeting and instructor of class
 Place of meeting
 Slash (/) means *or*
 Hyphen (-) means *to*
 *indicates "to be arranged"
 2.5 credits means 2½ credits
 H suffix means Honors Section

LISTING SEQUENCE

The University's course and section offerings are printed in the *Time Schedule* in the sequence below, which, in general, is in alphabetical order within colleges. The major exceptions are ROTC courses, which appear after the College of Engineering, the Graduate School divisions, and Dentistry and Medicine.

The quarterly COURSE CHANGES, and REQUIRED PERMISSION SIGNATURES, are also listed in this sequence.

COURSE CHANGES

The following pages describe :

1. **NEW COURSES.** These courses have been added to the University curriculum since publication of the 1969-70 *General Catalog*, therefore, they are not described in the catalog. **THEY ARE NOT NECESSARILY BEING OFFERED IN THE QUARTER COVERED BY THIS TIME SCHEDULE.**

2. **CHANGES IN COURSE NUMBER (CHG).** Descriptions of these courses are found in the 1969-70 *General Catalog* under the former number, which is indicated here. Use the *new* course number on your Official Program.

Courses listed here are those formally approved through September 18, 1969.

COLLEGE OF ARCHITECTURE AND URBAN PLANNING

BUILDING CONSTRUCTION

NEW

499 Undergraduate Research (*, max. 6)

Individual or small group studies in which students may select topics with approval of faculty sponsor and department. Prerequisite, permission.

LANDSCAPE ARCHITECTURE

NEW

242 Design Basics (6)

Intensive study in the analysis of, approach to, solution of, and presentations of, basic landscape architectural problems. Prerequisites, Architecture 401, 406, 411 (formerly 225) and/or permission.

URBAN PLANNING

NEW

210 Contemporary Urban Problems (2)

Study of major trends and problems in urban America which have grown out of our past or have become important today. A new topic and materials each quarter. Topics are selected for their contemporary importance, environmental (biocultural) impact, and planning implications. History is used as our chief record of their past, not as a blueprint of the present and future.

NEW

446 Field Study (2-4)

Explicit task assignment in a community development organization under professional and academic supervision. Placement arranged by the Bureau of Community Development. Participation ordinarily limited to seniors. Prerequisite, permission of the instructor.

NEW

475 Directed Social Change (3)

General course for both undergraduate and graduate students on the theories and practice of directed social change and citizen involvement in the planning process.

NEW

500 Survey of Urban Planning (3)

Concepts and logic of planning as a professional activity. Evolution of guiding ideas in relation to changing social, economic, and environmental conditions within the American political framework. Major procedures used by planners. Critical appraisal. Not open to students who have taken 400. Prerequisite, graduate standing in Urban Planning.

NEW

501 Resources for Urban Planning (2)

Introduction to areas of specialized study in environmental planning and policy programming. Organization for planning in the Seattle region; range of activities and emphasis, established and changing roles. Required of new graduate students; not open to others. Prerequisite, graduate standing in Urban Planning.

NEW

525 Transportation and Land Use Planning Models (3)

Theory underlying land use and transportation planning models; past attempts to model urban development; modeling of alternatives;

forecasting technological innovation, assessing its land-use implications. Offered jointly with CETC 525.

NEW

535 Airport Systems Planning (3)

Investigation of physical, sociopolitical, and economic features of air transportation system planning. Emerging technologies. Intermodal relationships. The decision-making environment for resource allocation, land-use planning, programming, and organization. Scenarios of anticipated conflict resolution problems. Offered jointly with CETC 535.

NEW

546 Practicum (3-5)

Field work assignments to participate in some phase of a community problem-solving activity utilizing planning skills. Placement is ordinarily arranged by the Bureau of Community Development. Enrollment for credit is limited to one quarter. Prerequisites, permission of the instructor.

NEW

575 Seminar in Citizen Participation (3)

Seminar on modes of citizen participation in public decision making, advocacy planning, participant democracy, and community development are considered in terms of contemporary problems. No prerequisite for graduate students; permission of instructor for undergraduates.

NEW

580 Theories and Methodology of Planning I (4)

A survey of the philosophy, methods, and analytical techniques used in planning public actions and policies, with emphasis on the logic and assumption on which these are based. Various planning surveys and methods discussed. Prerequisite, 400.

NEW

581 Theories and Methodology of Planning II (4)

Factors relating to the timing, phasing, and programming of urban development. The bearing of amenity, density, etc., on the actual development process. Prerequisite, 480.

NEW

591-592-593- Doctoral Seminar I, II, III (2-2-2)

Researchable issues and research methodology. Discussion and critique of selected pieces of recent research work. Presentation and critique of research proposed by members of the seminar. Credits given on satisfactory completion of the three-quarter sequence. Prerequisite, master's degree or the equivalent in a planning discipline.

COLLEGE OF ARTS AND SCIENCES

ANTHROPOLOGY

Specific areas in Anthropology are designated by departmental area letters. These letters must precede course numbers on the student's Official Program. Designation letters are:

ANTH Anthropology

ARCHY Archaeology

PHY A Physical Anthropology

ANTHROPOLOGY

CHG

111 Replaces 211

CHG

213 Replaces 313

CHG

216 Replaces 321

PHYSICAL ANTHROPOLOGY

NEW

487 Human and Comparative Osteology (3)

Introduction to the vertebrate skeleton. The skeleton is described in detail and various methods of determining age and sex are presented. Osteometry and modern statistical methods for handling such data. Prerequisite, instructor's permission.

NEW

586 Topics in Primate and Human Evolution (3, max. 9)

Enlargement of physical anthropology program made possible by enlargement of faculty.

ART

Specific areas in Art are designated by departmental area letters. These letters must precede course numbers on the student's Official Program. Designation letters are:

ART Art

ART H Art History

ART

NEW

ART

101 Special Studies in Art for Nonmajors (3, max. 9)

Individual and group instruction in art, with special projects, readings, and papers in art serving as a focus for studio work. Prerequisite, permission.

NEW

ART

356 Glass Blowing (3, max. 9)

The techniques of blowing molten glass by the use of the blow pipe. Glass furnace construction and lectures on glass technology. Prerequisite, permission of instructor.

NEW

ART

420 Art and Architecture of the Kansai (8)

A study, conducted in the field and lecture/discussion sessions, of all the important monuments of Japanese art in the temples, shrines, and museums of Kyoto, Otsu, Nara, Osaka, and their vicinities.

NEW

ART

491 Readings in Art Education (3)

Basic readings in art education. A survey of leaders and movements that have contributed to the development of art education, with special attention given to social and philosophical factors that have influenced art programs in American schools. Prerequisite, senior standing.

NEW

ART

492 Field Study in Art Education (3, max. 9)

Individual study under the direction of a faculty member of a selected problem in art edu-

cation within a school setting. Prerequisites, approved plan of study and permission of instructor.

**NEW
ART**

493 Problems in Art Education (3, max. 9)
A course designed to consider significant and critical problems in the field of art education. Topic to be announced. Prerequisite, permission of instructor.

**NEW
ART**

494 Instructional Materials in Art Education (3, max. 9)
The preparation of teaching materials in selected media appropriate to the learner and with concern for subject matter. Prerequisite, senior standing.

ART HISTORY

**NEW
ARTH**

308 Survey of Modern Art (5)
The art of Europe and America from the late eighteenth century to the present, with emphasis on stylistic and thematic changes in painting.

**NEW
ARTH**

469 Problems in Northern European Art (3, max. 12)
The evolution of North European art during the fifteenth through the seventeenth centuries, the study of which will direct the attention of students to the many points of iconography, style, and attribution that need clarification. During four quarters the major artistic traditions of this area will be covered. Prerequisite, upper-division standing.

**NEW
ARTH**

581 Problems in Modern Art (3, max. 9)
Art historical problems of the nineteenth and twentieth centuries. Prerequisites, graduate standing and 308 or equivalent, or instructor's permission.

**ASIAN LANGUAGES AND
LITERATURE**

HINDI-URDU

**NEW
301, 302, 303 Advanced Hindi (5,5,5)**
Advanced conversation. Rapid reading of Hindi prose, drama, and poetry. Introduction to literary criticism and history of Hindi language and literature. Prerequisite, 203 or equivalent.

NEW

468 Seminar on Modern Hindi Literature (3)
Genre and contextual analysis of literary forms of a rapidly developing language.

TAMIL

**NEW
411, 412, 413 Advanced Tamil (5,5,5)**
Readings in modern literary Tamil. The modern novel and short story, as seen in the writings of such writers as Jeyakantam, Putumaippittan, Vayyavan, Janakiraman, Sundara Ramaswamy, and Ramamirtham. Laboratory sessions will continue practice in the colloquial dialect. Prerequisite, 403.

NEW

455 Structure of Dravidian (3)
Comparative analysis of the phonologies and morphologies of the major Dravidian languages.

THAI

**NEW
411, 412, 413 Reading in Thai (5,5,5)**
Readings in a variety of modern styles, with oral and written practice. Prerequisite, 403 or equivalent.

TURKIC

NEW

542, 543 Comparative and Historical Grammar of Turkic Languages (3,3)
Classification of the Turkic languages; alphabets used; phonology, morphology, and syntax; lexical composition; structure changing developments. Offered every third year; offered first time Winter, 1970, Spring, 1970. Prerequisites, Turkic 301, 302, 303, 404, or Turkish 101-102, 103.

NEW

546 Old Turkic (Orchon Turkic) (3)
Introduction to Runic script, phonology, morphology, and syntax of the oldest form of Turkic; reading and translation of the seventh through eighth century inscriptions, of importance for the history of the Turks during this period. Offered every third year; offered first time Winter, 1970. Prerequisite, permission.

NEW

547 Old Uighur (3)
Introduction to script systems, phonology, morphology, and syntax. Reading and translation of mainly Buddhist texts in Uighur script (eighth through eleventh century). Offered every third year; offered first time Spring, 1970. Prerequisite, permission, or background in Old Turkic or a modern Turkic language.

NEW

600 Independent Study or Research (*)
Independent study or research on different topics of Turkic language and literature. Prerequisite, permission.

BIOLOGY

NEW

587 Analysis of Development Laboratory (1-5, max. 5)
A series of intensive workshops in developmental biology, each extending from seven to ten days. Each will be based on problems under study in the laboratory of the instructors involved and will use materials, methods, and approaches characteristic of that laboratory. Prerequisites, 586 and permission.

BOTANY

NEW

350 Introduction to Plant Geography (3)
Patterns of world vegetation distributions; the relationships between vegetation and climate; introduction to general theories of plant distribution. Emphasis will be upon the affinities between vegetation in different parts of the world.

CLASSICS

HEBREW

NEW

401, 402, 403 Advanced Classical Hebrew (5,5,5)
Extensive readings in the Hebrew Bible and relevant materials, with special emphasis on the various genres and styles used and analysis of problems of interpretation and translation. Prerequisite, 203 or equivalent.

NEW

600 Independent Study or Research (3-6, max. 18)

NEW

700 Thesis (*)

NEAR EAST

NEW

220 Ancient Near Eastern Culture (5)
Ancient Near Eastern civilizations, with emphasis on the culture and civilization of the Northwest Semites.

NEW

442 Turkish Literature in English (3)
Survey of Turkish literature, both Ottoman and modern, with emphasis on poetry.

NEW

490 Supervised Study (3-6, max. 18)
Special work in Near Eastern studies for graduates and undergraduates.

NEW

499 Undergraduate Research (3-6, max. 18)

PERSIAN

NEW

401, 402, 403 Advanced Persian (5,5,5)
Reading selected Persian literary texts. Prerequisite, 203 or equivalent.

NEW

600 Independent Study or Research (3-6, max. 18)

NEW

700 Thesis (*)

TURKISH

NEW

600 Independent Study or Research (3-6, max. 18)

NEW

700 Thesis (*)

COMMUNICATIONS

NEW

583 Regional Communication Systems (5)
Analysis of communications problems of regional economic associations, theory of political community, and examination of empirical research on regional communications. Special emphasis will be given to Western Europe and the North Atlantic area. Prerequisites, 480, 485 or equivalent, or permission. Offered alternate years with 585.

NEW

584 Research Seminar in Regional Communication Systems (3)
Directed research in communications factors in regional integration in a determined region of the world. Offered alternate years with 586. Prerequisite, 583.

COMPARATIVE LITERATURE

NEW

261, 262, 263 Modern African Literature (3, 3, 3)
A survey course in African literature from the colonial period to the present with specific references to the themes of nostalgia, rebellion, and humanism. Readings, discussions of, and reports on, representative works in prose, poetry, and drama. Among authors studied: Achebe, Mphahlele, Oyono, Paton, Senghor, Soyinka, Tutuola. Prerequisite, sophomore, junior, or senior standing.

NEW

571 Studies in the Lyric (3-5, max. 15)
An examination of central questions in the study of the lyric genre, as approached from an international point of view. Course will change, so consult department each quarter for specific information. Prerequisite, ordinarily, reading knowledge of one foreign language.

DRAMA

NEW

102-103 Play Analysis (3-3)
Descriptive analysis of plays, both modern and historical, to provide tools to assist students to read texts critically and creatively.

CHG

275, 276, 277 Replace 471, 472, 473

NEW

371, 372, 373 Special Studies (2,2,2)
Specialized and individual work related to the main curriculum of the third year of the

Experimental Drama Program. Prerequisite, completion of two years of work in the Experimental Drama Program.

NEW
410, 411, 412 Advanced Theatre Technical Practices (3,3,3)

Apprenticeship under faculty-staff supervision, in theories, techniques, and equipment of stage scenery, lighting, costumes, and scene painting. 410: scene construction and scene painting; 411: costumes; 412: lighting and technical stage procedures. Prerequisites, 210 for 410; 211 for 411; 212 for 412.

NEW
416 History of Clothing and Costume (5)
Survey of history of clothing and theatrical costume; emphasis on the dress of the audience and the actor in historic periods of theatrical activity.

CHG
417 Replaces 411

NEW
459 Intensive Rehearsal and Performance (6, max. 18)
Prerequisites, acceptance for Experimental Drama Program and completion of previous two years.

NEW
460 Introduction to Directing (3)
Introduction to the art of the stage director.

NEW
461, 462 Elementary Directing (3,3)
An elementary study of the art of the stage director. Prerequisite for 461, B average or above in 460; for 462, B average or above in 461.

CHG
464 Replaces 462

NEW
511 Design Studio (3, max. 9)
Artistic principles and techniques as a basis for creative work in theatre design. Studio work in composition, color, line, space, light, and shade. Reports and outside reading may be required.

NEW
517, 518, 519 Studies in Historic Design (3, 3, 3)
The investigation of artistic principles and modes that influenced the art, architecture, furniture, and decor of selected historic periods. Prerequisites, 517 for 518; 518 for 519; or permission.

NEW
561 Directing Apprenticeship (5, max. 15)
Apprenticeship with professional director or association with thesis director. Prerequisite, graduate standing.

NEW
563 Seminar in Directing (2, max. 12)
Weekly meeting of all graduate directing students to discuss working problems on major productions in which they are involved. Examination of problems of the stage director on the advanced level. Prerequisite, graduate standing.

NEW
571, 572, 573 Problems in Theatre History Research (3,3,3)
Methods and techniques of research in theatre history. Relationship of theatre arts to other arts and society in major periods of theatre history. Prerequisites, 571 for 572; 572 for 573.

ENGLISH

NEW
104-105 Introductory English Seminar (2-2)
Study and discussion sessions, designed to complement the work of introductory English. English 104- must be taken concurrently with 101; -105 with 102. Open only to students approved for the program.

FAR EASTERN AND RUSSIAN INSTITUTE

CHG
426 Origins of the East European States (5)
Offered jointly with HSTAM 426.

NEW
515 Chinese Materials on Modern History (3-6)

Modern history as written by the Chinese. Includes discussion of reference materials and research aids as well as problems of historical interpretation. Differences between Communist and non-Communist historians will be discussed. Prerequisite, permission of instructor. Offered jointly with HSTAS 559.

NEW
517-518 Seminar on Modern Chinese Social History (3-6)-(3-6)

A seminar on social change in twentieth-century China, with special attention to urban society. Prerequisite, permission of instructor. Offered jointly with HSTAS 560-561.

CHG
566 to be offered jointly with HSTAS 566

GEOGRAPHY

NEW
200 Introduction to Human Geography (5)
Survey of non-economic components of patterns and systems of human occupancy of the world. Emphasis on cultural processes, dynamic change, functional relations and networks. No prerequisite; Geography 100 recommended.

NEW
227 Historical Geography of Black America (3)

Study of the historical processes of Afro-American migration and segregation in Afro-American settlement patterns in the United States; study of theories of the human use of space as related to Afro-American migration and settlement.

GEOLOGICAL SCIENCES

NEW
418 Periglacial Processes and Environments (3)

An introduction to environmental processes in glacier-free areas, with emphasis on frost action and its effects. Prerequisite, permission of instructor.

GERMANIC LANGUAGES AND LITERATURE

NEW
299 Directed Reading (1-5, max. 10)
This course in independent study is designed specifically for nonmajors who have demonstrated a level of proficiency equivalent to the completion of German 203 and who wish to go on with reading original texts in German literature and thought.

NEW
310 Introduction to Twentieth-Century Literature (3)
Short stories, poems, and a play by modern and contemporary representative writers. Prerequisite, 15 credits of second-year German.

NEW
311 Introduction to the German Novelle (3)
Representative writers, such as Keller, Meyer, and Storm. Theory of the Novelle. Prerequisite, 310.

NEW
312 Introduction to Goethe (3)
Faust and selected poems. Prerequisite, 311.

NEW
340 Friedrich Nietzsche and His Impact on German Literature (3)
The course is concerned with the analysis of Friedrich Nietzsche's brief works and with the discussion of his position within modern Ger-

man literature and thought. Nietzsche marks the dividing line between the classical-romantic tradition of German intellectual life and the inception of a new critical age during which the values of the past were put on trial. Special emphasis will be placed on Nietzsche as a forerunner of modern and contemporary German literature. Prerequisite, permission; open to upper- and lower-division students.

NEW
341 Kafka in English (3)
Intensive study of the short stories and novels of Franz Kafka in English translation; emphasis on philosophical relevance and esthetic significance. Prerequisite, permission; open to upper- and lower-division students.

CHG
342 Replaces 464

NEW
495 Proseminar in German Literature (3, max. 15)

Topics to be arranged and announced. Prerequisite, permission.

NEW
513 Germany 1918-1968: Study in German Fiction and Thought (3)
German intellectual life from 1918 to 1968. A study in German fiction and thought in relation to the cultural, political, and social aspects of the period. Prerequisite, permission.

NEW
570 Nietzsche (3)
Intensive study of the short stories and novels of Friedrich Nietzsche in the original. Emphasis on philosophical relevance and esthetic significance. Prerequisite, graduate standing.

HISTORY

Specific areas in History are designated by departmental area letters. These letters must precede course numbers on the student's Official Program. Designation letters are:

HST General History
HSTAA History of the Americas
HSTAM Ancient and Medieval History (including Byzantine)
HSTAS Asian History
HSTEU Modern European History

GENERAL HISTORY

NEW
HST
111 The Ancient World (5)
A history of the origins of Western civilization to the fall of Rome.

CHG
HST
112 Replaces 101

CHG
HST
113 Replaces 102

NEW
HSTAA
443 Black Americans, 1877-1933: From Reconstruction to the New Deal (5)
A study of Black Americans from Reconstruction to the New Deal with special emphasis upon their institutional and social life, and the impact of society upon their development.

NEW
HST
465 Numismatics Seminar (3)
An introduction to the use of numismatic evidence for political, economic, and cultural history. Prerequisite, permission of instructor.

NEW
HST
563 Modern Near East (3-6)
Field course to introduce the student to the major periods and problems of Near Eastern history, 1798 to the present. Prerequisite, permission of instructor.

HISTORY OF THE AMERICAS

NEW
HSTAA

405-406 History of American Character and Values (5-5)

A course designed to explore the origins and nature of American character and values, past and present, with special emphasis upon American Protestantism and the role of religion in American life. Prerequisite, permission of instructor. Limited enrollment.

NEW
HSTAA

444 Black Americans Since 1933: From the New Deal to the Present (5)

A study of Black Americans from the New Deal to the present with special emphasis upon their institutional and social life, and the impact of society upon their development.

NEW
HSTAA

555-556 Seminar: American Intellectual History (3-6)

This course seeks to develop research and writing competence in American intellectual history. Prerequisite, permission of instructor.

ANCIENT AND MEDIEVAL HISTORY

NEW
HSTAM

426 Origins of the East European States (5)

Analysis of social, cultural, and political development among the Slavs and other peoples of Eastern Europe that led to the emergence of national states of the Middle Ages. Prerequisite, HST 112 or permission. Offered jointly with Far E 426.

NEW
HSTAM

431 Topics in Medieval History: 500-1000 (5)

A study in depth of one or more topics in the history of Europe during the early Middle Ages. Prerequisite, a course in medieval history.

NEW
HSTAM

432 Topics in Medieval History: 1000-1250 (5)

A study in depth of one or more topics in the history of Europe during the High Middle Ages. Prerequisite, a course in medieval history.

NEW
HSTAM

433 Topics in Medieval History: 1250-1500 (5)

A study in depth of one or more topics in the history of Europe during the Later Middle Ages. Prerequisite, a course in medieval history.

ASIAN HISTORY

NEW
HSTAS

559 Chinese Materials on Modern History (3-6)

Modern history as written by the Chinese. Includes discussion of reference materials and research aids as well as problems of historical interpretation. Differences between Communist and non-Communist historians will be discussed. Prerequisite, permission of instructor. Offered jointly with FAR E 515.

NEW
HSTAS

560-561 Seminar on Modern Chinese Social History (3-6)-(3-6)

A seminar on social change in twentieth-century China, with special attention to urban society. Prerequisite, permission of instructor. Offered jointly with FAR E 517-518.

MODERN EUROPEAN HISTORY

NEW
HSTEU

380 History of Scandinavia to 1814 (3)

A survey of Scandinavian history from the Viking Period to 1814, with primary emphasis

on the development of Denmark, Finland, Iceland, Norway, and Sweden, and the role of the Scandinavians in world history. Offered jointly with SCAND 380.

NEW
HSTEU

381 History of Scandinavia Since 1814 (3)

A survey of Scandinavian history from 1814 to the present, with major emphasis on the political, social, cultural, and economic development of the Scandinavian countries. Offered jointly with SCAND 381.

NEW
HSTEU

562 Early Spanish History (3-6)

Problems in the history of Spain, antiquity through the Middle Ages. Prerequisites, HSTEU 461, HSTEU 462. (Formerly History 495, 496.)

NEW
HSTEU

563 Modern Spanish History (3-6)

Problems in the history of Spain, 1500 to the present. Prerequisites, HSTEU 461, HSTEU 462. (Formerly History 495, 496.)

LINGUISTICS

NEW

447 Language Development (3)

The study of first-language acquisition and use by children. Emphasis will be placed on theoretical issues and research techniques. Offered jointly as PSYCH 457. Prerequisite, senior or graduate major standing, or permission.

MATHEMATICS

NEW

394 Probability (3)

Sample spaces; basic axioms of probability; combinatorial probability; conditional probability and independence; binomial, Poisson, and normal distributions. Prerequisite, 136 or 224.

NEW

395 Probability (3)

Random variables; expectation and variance; laws of large numbers; normal approximation and other limit theorems; multidimensional distributions and transformations. Prerequisite, 394.

NEW

396 Probability (3)

Characteristic functions and generating functions; recurrent events and renewal theory; random walk. Prerequisite, 395.

MUSIC

NEW

129 Afro-American Music (5)

A survey course centering on Black music in the United States but also clarifying the relationship of this music to the musics of other Afro-American cultures as well as to their African roots.

NEW

207 University Oratorio Chorus (1)

A choral ensemble that performs major works with orchestra. Prerequisite, permission of instructor.

NEW

208 University Laboratory Band (1)

Large ensemble performance practices in the jazz idiom. Prerequisite, audition or permission.

NEW

533 Preceptorial Reading in Ethnomusicology (5)

Basic literature in ethnomusicology in the geographic areas of India, Southeast Asia, and Indonesia with laboratory listening sections meeting concurrently with 316. Prerequisite, graduate standing.

NEW

534 Preceptorial Reading in Ethnomusicology (5)

Basic literature in ethnomusicology for the geographical areas of Africa, Western Europe,

and North and South America with laboratory sections and listening sections meeting concurrently with 317. Prerequisite, graduate standing.

NEW

535 Preceptorial Reading in Ethnomusicology (5)

Basic literature in ethnomusicology in the geographic areas of Eastern Europe, the Middle East, and the Far East with laboratory and listening sections meeting concurrently with 318. Prerequisite, graduate standing.

NEW

536 Transcription and Analysis (3)

A study of practice in different notational analytical systems used in nonwestern music. Prerequisite, 471.

OCEANOGRAPHY

NEW

458 Chemical Aspects of Marine Sediments (5)

A survey of minerals in marine sediments: their origin or mode of formation, their isotopic and chemical composition, their rate of deposition, their chemical alteration after deposition, their distribution and relative importance in the major sedimentary cycle. Prerequisite, one year of general chemistry.

PHYSICAL AND HEALTH EDUCATION

PHYSICAL EDUCATION

NEW

314 Movement Exploration for Children (3) (Men and Women)

Theory and techniques of movement exploration utilizing time, space, force, and flow variables as elements of movement organization.

CHG

350 Replaces 374

PHYSICS

NEW

101-102, 103 Physics for Teachers (5-5,5)

Basic concepts of physics, with particular emphasis on background needed for confident use of the new science curriculum materials in the schools. No credit granted for 101-until -102 is satisfactorily completed. Serves general education objectives by simultaneously dealing with historical, philosophical, and humanistic aspects of science. Prerequisites, 101-for -102; -102 for 103.

NEW

527, 528, 529 Current Problems in Physics (1,1,1)

Introduction to current research topics for beginning graduate students.

PSYCHOLOGY

NEW

210 Psychology of Human Sexual Behavior (3)

Survey of the current literature concerning the development of human sexual behavior. Physiological and psychological components of human sexuality and its deviations will be considered.

NEW

250 Mental Health of Minority Groups (3)

A survey of the problems of minority groups, with particular emphasis on the conditions related to the development of mental health. Emphasis will be placed on the situation of the Negro, although Indian, Oriental, and Spanish-American groups will be included. Offered jointly as PSYC (Psychiatry) 250.

NEW

260 Psychological Aspects of Poverty (3)

Psychological effects of poverty and related social phenomena; the effects on psychological development, personality, mental health, and social behavior. Where possible, remedial steps will be discussed.

NEW**428 Survey of Psychoacoustics (3)**

Study of the auditory stimulus, the hearing mechanism, and man's abilities to discriminate simple and complex sounds. Topics included are speech perception, hearing tests, and the effects of noise upon efficiency, speech communication, and the hearing mechanism. Prerequisite, 303 or equivalent.

NEW**443 Social Psychology of Prejudice (3)**

An examination of social psychological theory and research regarding the development, maintenance, and dissolution of prejudicial attitudes, with particular emphasis on anti-Black sentiment. Topics to be covered include personality traits such as authoritarianism and dogmatism, environmental factors such as conformity and forced compliance, and cultural elements such as the notion of justice. In addition, an attempt will be made to characterize the personal psychology of the oppressed and to suggest ways in which low-power groups may decrease their power deficit. Prerequisites, 100 and 345.

NEW**457 Language Development (3)**

The study of first-language acquisition and use by children. Emphasis will be placed on theoretical issues and research techniques. Offered jointly with Linguistics 447. Prerequisite, senior or graduate major standing, or permission.

CHG**461, 462 Replace 401****NEW****500 Learning and Motivation (3)**

A general survey of animal learning and motivation; emphasis is upon recent problems, findings and theoretical developments; topics may include avoidance learning, cyclic behavior, defensive behavior, food preferences, incentive motivation, noncontingent reinforcement, and territoriality. Prerequisite, graduate major standing.

CHG**505 Replaces 513****NEW****506 Personality and Social Development (5)**

A survey of the theories and empirical literature in the area of personality and social development of children. Prerequisite, first-year graduate status.

NEW**509 Leadership (3)**

A critical review of leadership literature and research with emphasis on empirical studies on leadership selection, training, and prediction of group and organizational effectiveness. Prerequisites, 345 and 514 or equivalents, or permission.

NEW**519 Statistical Methods for Developmental Psychology (3)**

Presentation of those aspects of statistics and experimental design that are unique to or heavily used in research in developmental psychology. Prerequisites, 515 and graduate standing.

NEW**561 Advanced Cognitive Development (3)**

Survey and discussion of the literature in the area of cognitive development in children, including language, attention, problem solving, and concept formation. Prerequisite, graduate standing.

CHG**562 Replaces 512****ROMANCE LANGUAGES AND LITERATURE****FRENCH****NEW****410, 411, 412 Literature of the Renaissance (3,3,3)**

Study of the main currents and writers of the Italian Renaissance—the lyric, drama, epic, and prose as exemplified by such writers as

Poliziano, Sannazzaro, Guarini, Boiardo, Ariosto, Castiglione, Machiavelli, Guicciardini, and Tasso. Prerequisites, French 304, 305, 306.

NEW**415 Trends in Twentieth-Century Theatre in English (5)**

A study of the evolution of the French theatre from the turn of the century to the present. Special emphasis will be given to the French theatrical scene since World War II.

NEW**453 Sixteenth-Century Literary Prose (3)**

Fiction and nonfiction of the French Renaissance: Rabelais, des Périers, Marguerite de Navarre, Calvin, Brantôme, Montaigne, etc. Prerequisite, French 304.

NEW**460 Sixteenth-Century Drama (3)**

The late medieval dramatic forms and their suppression. The rise of theatre based on Greco-Latin models. The influence of the Italian comedy. The pastoral drama and tragic-comedy. Prerequisite, French 304.

NEW**480 Social and Cultural Background (3)**

Common values, presuppositions, social-behavior patterns, and institutions of the culture area, as differentiated by social classes, regions, age groups, and time change over the past twenty years. Conducted in English, depending on the major. For French majors, some reading in French, with papers written in French. Required for teaching certificate with elementary- or secondary-level major in French. Prerequisite, French 222.

NEW**485 The French Enlightenment (6)**

French thought and literature of the eighteenth century. Students may not receive credit for both this course and for 421 or 455. Prerequisite, French 305 or permission.

ITALIAN**NEW****319 The Italian Short Story in English (3)**

The short story from the *Novellino* and Boccaccio to modern masters of the form. The translations will be studied both as examples of narrative technique and as reflections of particular moments in Italian cultural history. Prerequisite, at least sophomore standing.

NEW**465 Contemporary Italian Narrative (3)**

A critical reading of selected modern exponents of the short story and novel. Prerequisite, Italian 304, 305, 306, or equivalent.

SPANISH**NEW****413, 414 Hispanic Poetry (3, 3)**

A three-quarter course (beginning with 412) treating modern lyric poetry of the Hispanic world. The period studied extends from 1870 to 1936 and deals with thirteen major poets from Becquer to Hernandez. Prerequisites, Spanish 306, 351.

NEW**417 The Epoch of Cervantes (3)**

An introductory study to Cervantes' environment, emphasizing the cultural and artistic background of that outstanding period. Preliminary to 418. Prerequisites, Spanish 304, 305, 306.

NEW**441 Spanish Drama: 1150-1600 (3)**

Development of the drama in Spain. Selected texts, collateral readings, and reports. Prerequisites, Spanish 304, 305, 306.

NEW**442 Spanish Drama: 1600-1635 (3)**

Development of the drama in Spain. Selected texts, collateral readings, and reports. Prerequisites, Spanish 304, 305, 306.

NEW**443 Spanish Drama: 1635-1681 (3)**

Development of the drama in Spain. Selected texts, collateral readings, and reports. Prerequisites, Spanish 304, 305, 306.

NEW**444 The Modern Theatre in Spain: 1700-Romanticism (3)**

A study of the directions, documents, and literature of Spain's theatre during the eighteenth and early nineteenth centuries. Special attention to the concepts and manifestations of Neoclassicism and Romanticism. Prerequisites, Spanish 304, 305, 306.

NEW**445 The Modern Theatre in Spain: 1850-1900 (3)**

The theories and literature of the Spanish theatre in the second half of the nineteenth century. Postromantic drama, *genero chico*, Naturalism. Prerequisites, Spanish 304, 305, 306.

NEW**446 The Modern Theatre in Spain: 1900-Present (3)**

Major currents and literature of Spain's theatre in this century. Special attention to modern reactions against Realism. Benavente, Valle-Inclan, Sastre, Lorca, and others. Prerequisites, Spanish 304, 305, 306.

CHG**450 Replaces 445****SCANDINAVIAN LANGUAGES AND LITERATURE****SCANDINAVIAN****NEW****380 History of Scandinavia to 1814 (3)**

A survey of Scandinavian history from the Viking period to 1814, with primary emphasis on the development of Denmark, Finland, Iceland, Norway, and Sweden, and the role of the Scandinavians in world history. Offered jointly with HSTEU 380.

NEW**381 History of Scandinavia Since 1814 (3)**

A survey of Scandinavian history from 1814 to the present with major emphasis on the political, social, cultural, and economic development of the Scandinavian countries. Offered jointly with HSTEU 381.

NEW**483 Strindberg and the Swedish Drama (5)**

The study and discussion of representative Strindberg plays and of post-Strindberg plays by dramatists from Lagerkvist to Forsell in English translation. Students who have taken 481 and 482 cannot receive credit for 483.

SLAVIC LANGUAGES AND LITERATURE**RUSSIAN****NEW****240 Accelerated Scientific Russian (10)**

Introduction to written Russian as a research tool; for science students only. Readings in chemistry and physics. Not accepted for Russian major language credit.

NEW**380 Russian Language in Leningrad Program (15)**

Academic credit offered to students participating in University-sponsored Russian Language Program at the University of Moscow. Prerequisite, 305 or equivalent.

NEW**572 Seminar in Russian Poetry (3, max. 9)**

Topics in Russian poetry, to be selected by the instructor. Prerequisite, graduate standing.

CHG**-590 Replaces 590****SOCIOLOGY****NEW****452 Health and Social Behavior (5)**

Theoretical and methodological aspects of health, disease, and illness as deviant behavior in relation to social (organizational and occupational), ecological, demographic, and cul-

tural determinants of health and health care. Prerequisite, 110.

SPEECH

Specific areas in Speech are designated by departmental area letters. These letters must precede course numbers on the student's Official Program. Designation letters are:

SPCH Speech Arts and Sciences
S&HSC Speech and Hearing Sciences

SPEECH

CHG

355 Speech in the Elementary Classroom (3)
Replaces Speech 359 Speech in the Classroom (3)

CHG

356 Speech in the Secondary Classroom (3)
Replaces Speech 359 Speech in the Classroom (3)

ZOOLOGY

NEW

470 Concepts and Issues (5)

Zoological concepts, their current and potential applications to cultural dilemmas and frontiers. Prerequisite, advanced standing.

SCHOOL AND GRADUATE SCHOOL OF BUSINESS ADMINISTRATION

ADMINISTRATIVE THEORY AND ORGANIZATIONAL BEHAVIOR

NEW

301 Behavioral Science and Administration (4)

An introduction to some of the fundamental research and theories of behavioral science that are particularly relevant to the study of management. Presented are materials that aid the student of management and administration in understanding the behavior of individuals and work groups. Prerequisite, junior standing.

BUSINESS ECONOMICS

NEW

512 Advanced Managerial Economics (3)

Focus is on application of basic form theory as developed in Business Economics 500. Principles of optimum resource allocation, empirical estimation of cost and demand schedules. Prerequisites, 500 and Quantitative Methods 500, or permission.

NEW

571-572 Research Reports (3-3)

Independent study in business administration; critical evaluation of business analysis and research methods. Effective communication of ideas is emphasized. Methods and content of independent research studies being completed by the students are subjected to critical evaluation. Prerequisite, permission.

NEW

588 Seminar in Applied Micro-economic Analysis (3)

Seminar in applied micro-economic analysis; emphasis on individual selected topics and presentation of papers with application to economic problems of industries and firms such as the estimation of aggregate production functions for industries, consumer preference patterns, firm forecasting, and intrafirm pricing policies. Prerequisite, 512 or permission.

NEW

599 Doctoral Seminar in Business Economics (3)

Study and research in advanced topics of business economics. The seminar is generally concerned with unpublished areas of research and is conducted by visiting professors and departmental faculty. Prerequisites, permission; doctoral students only.

NEW

600 Independent Study or Research (*, max. 10)

Prerequisite, permission.

NEW

700 Thesis (*)

Prerequisite, permission.

NEW

702 Degree Final (3)

Prerequisite, permission.

BUSINESS, GOVERNMENT, AND SOCIETY

NEW

310 Legal Aspects of Business and Public Policy (5)

Legal questions involved in business and government relations, including government regulation of competition, of business labor relations, and of business effects on the public. The course will discuss government assistance to business as well as business influences on government. Discussion of regulations and the alternative of public ownership in selected case studies in such areas as pollution control and public utilities. Prerequisite, 200 or permission.

MARKETING

NEW

430 Quantitative Methods in Marketing (4)

Application of quantitative methods to marketing decision problems, such as product testing, advertising effectiveness, routing of salesmen, distribution systems, pricing, and marketing models. Methods include analysis of variance, multiple regression, Bayesian statistics, linear programming, and others as are appropriate. Prerequisites, 301 and Quantitative Methods 201, or equivalent.

NEW

525 Seminar in Consumer Behavior (3)

Analysis of current research in consumer behavior. Topics will include consumer decision-making processes, models of buyer behavior, and contributions from the behavioral sciences. Prerequisite, MBA core requirements or permission.

QUANTITATIVE METHODS

NEW

404 Computer Programming for Business (4)

In-depth coverage of FORTRAN IV with programming assignments. Machine and assembly languages. Overview of ALGOL, PL/I, COBOL. Basic data processing techniques. Operating systems. Prerequisite, 200.

NEW

424 Simulation Techniques (4)

Construction and operation of simulation models including the use of specialized simulation languages in conjunction with digital computers. Prerequisites, 200, 201.

URBAN DEVELOPMENT

NEW

320 Law of Urban Development (3)

Legal aspects of modern land utilization, including the urban plan, zoning, and private and public ownership, with a preliminary discussion of the nature of property and a brief survey of real property law.

COLLEGE OF EDUCATION

Specific areas in Education are designated by departmental area letters. These letters must precede course numbers on the student's Official Program. Designation letters are:

EDADM Educational Administration
EDC&I Curriculum and Instruction

EDHED Higher Education

EDIHPS History, Philosophy, and

Sociology of Education

EDPSY Educational Psychology

EDSPE Special Education

EDUC Independent Study, Research,
and Student Teaching

CURRICULUM AND INSTRUCTION

NEW

EDC&I

101 Educating Children in a Responsive Environment (9)

A systematic program of experiences for teachers of young children based upon the concept of a "responsive environment." Areas such as the observation of young children, parent relations, concept learning, language development, and group interaction receive emphasis. The development of teacher skill in curriculum design is focal.

NEW

EDC&I

423 Workshop in Instructional Improvement: Industrial Education (2-6)

Individual or group study projects on the improvement of instruction in industrial education.

NEW

EDC&I

428 Organization and Supervision of Post-Secondary Distributive Education (3)

Development of supervisory personnel for community colleges and technical vocational schools to initiate, operate, and administer postsecondary and midmanagement programs.

NEW

EDC&I

456 Workshop in Instructional Improvement: Language Arts (2-6)

Individual or group study projects on the improvement of instruction in language arts.

NEW

EDC&I

461 Supplementary Materials for the Teaching of Reading (3)

Designed to provide acquaintance with, and bases for, evaluation of materials used in the teaching of reading. Basal readers, material from the content areas, recreational reading materials, and supplementary practice materials will be examined. Prerequisite, teaching experience.

NEW

EDC&I

468 Workshop in Instructional Improvement: Social Studies (2-6)

Individual or group study projects on the improvement of instruction in social studies.

NEW

EDC&I

473 Workshop in Instructional Improvement: Science (2-6)

Individual or group study projects on the improvement of instruction in science.

NEW

EDC&I

479 Workshop in Instructional Improvement: Mathematics (2-6)

Individual or group study projects on the improvement of instruction in mathematics.

NEW

EDC&I

485 Workshop in Instructional Improvement: Learning Resources (2-6)

Individual or group study projects on the improvement of instruction in learning resources.

NEW

EDC&I

560 Seminar in Reading (3)

Designed to focus primarily on those aspects of the reading process that are of concern in a developmental reading program. Emphasis is placed on research dealing with factors influencing reading ability, with problems in skill development, with effectiveness of various methods and approaches for teaching reading, with reading in content fields, and with recreational reading. Course work includes group and individual analysis of studies with attention given to research design and measurement. Prerequisite, permission of instructor.

NEW**561 Seminar in Language Arts (3)**

Study of recent research in language structure, with special attention given to research pertaining to the teaching of language skills: aural, speech, and written composition. Course work includes group and individual analysis of language arts studies, with attention given to research design and measurement. Prerequisite, permission of instructor.

NEW**EDC&I****563 Current Issues in Language Arts Education (1, max. 6)**

Discussion of problems and issues of current interest and importance in language arts education.

NEW**EDC&I****567 Current Issues in Social Studies Education (1, max. 6)**

Discussion of problems and issues of current interest and importance in social studies education.

NEW**EDC&I****572 Current Issues in Science Education (1, max. 6)**

Discussion of topics and problems of current interest and importance in science education. Prerequisite, graduate status.

NEW**EDC&I****577 Current Issues in Mathematics Education (1, max. 6)**

Discussion of problems and issues of current interest and importance in mathematics education.

EDUCATIONAL PSYCHOLOGY**CHG****EDPSY****421 Replaces EDSPE 421****CHG****EDPSY****422 Replaces EDSPE 422****CHG****EDPSY****425 Replaces EDSPE 425****NEW****EDPSY****491 Computer Utilization in Education (3)**

An introduction to programming languages, computer utilization in the solution of research problems in education, data reduction to forms amenable to computer processing, appropriate framing of problems for solution by computers; utilization of program packages and practice on the computer. Prerequisite, EDPSY 490.

CHG**EDPSY****507 Reading Disability: Etiology and Diagnosis—Practicum (5) Replaces EDSPE 505 Reading Disability: Etiology and Diagnosis (5)****CHG****EDPSY****508 Clinical Supervision—Practicum (3-6, max. 6) Replaces EDSPE 507 Reading Disability: Clinical Supervision (3-6, max. 6)****NEW****EDPSY****561 Group Process Laboratory (3)**

Experience in small group process following the "T" group model. Collateral discussions of process and independent study. Prerequisite, permission.

SPECIAL EDUCATION**NEW****EDSPE****416 Evaluation of Instructional Materials for Exceptional Children (3)**

An introduction to techniques of determining

the quality of instructional materials in terms of (a) the systems of specific subject matter organization, and (b) specified instructional outcomes. Prerequisite, permission of instructor.

NEW**EDSPE****418 Vocational Development of Handicapped Children and Youth (3)**

Curricular aspects of vocational training relevant to each age level in the education of handicapped children. Application of programmed instructional techniques to the breaking down of the occupational task. Emphasis on familiarizing school personnel with interdisciplinary services and community resources available to assist them in facilitating the maximal vocational development of handicapped children and youth. Prerequisite, permission of instructor.

NEW**EDSPE****508 Administration of Special Education (3)**

Research and trends in administrative organization of special education programs, of personnel assignments, and of instructional groupings for the education of exceptional children as these relate to the total school program, pupil personnel services, community agency services, and state and federal legislation. Prerequisites, background in special education and/or public school administration, and permission of instructor.

NEW**EDSPE****513 Clinical Appraisal of Exceptional Children (3)**

Diagnostic instruments used in the clinical appraisal of exceptional children. Theoretical considerations will be used to buttress practical experiences in appraisal related to intervention. Prerequisite, EDSPE 404 or permission of instructor.

NEW**EDSPE****515 Problems and Issues in Special Education (3, max. 9)**

An intensive examination of the issues pertinent to all of special education, such as legislation, interdisciplinary function, role of special education in general education and placement practices. Prerequisites, permission of instructor.

NEW**EDSPE****517 Practicum in Research Design and Analysis in Special Education (3)**

Critical analysis of current research practices in special education will serve as background for student carrying out a small independent research project. Projects will be evaluated in seminar discussion. Prerequisites, EDPSY 490 and 591 or equivalent, and permission.

NEW**EDSPE****518 Seminar in Special Education Research (1-3)**

Designed for doctoral students in special education during their year of residency. Each candidate will select a dissertation problem and submit a proposal. Topics such as the procurement of subjects, the reporting and communication of research findings, and the evaluation of research will be stressed. The seminar will lead to the evolution of a viable dissertation proposal.

INDEPENDENT STUDY, RESEARCH, AND STUDENT TEACHING**NEW****EDUC****524 Seminar in Teacher Education (3)**

The seminar will focus on recent trends, issues, and proposals for future development in teacher education and certification. Prerequisite, permission.

COLLEGE OF ENGINEERING**AERONAUTICS AND ASTRONAUTICS****NEW****370 Introduction to Applied Analysis (3)**

Advanced calculus, from applications point of view. Matrix methods. Dimensional analysis and theory of modeling. Review of vectors; surface and volume integral identities. Fourier series. Prerequisite, Mathematics 238.

NEW**452 Space Mechanics III (3)**

Variation of parameters for continuous orbit perturbations, gravitational potential of non-symmetric planets, effects of oblateness on near-Earth orbits, third-body perturbation effects, elementary three-particle problem, rigid body motion of space vehicles, stability of space vehicle attitude oscillations, elements of orbit determination. Prerequisite, 451.

NEW**527, 528, 529 Space Propulsion and Energy Conversion I, II, III (3,3,3)**

Physics, nucleonics, and heat transfer of nuclear heated rockets, gaseous rockets, etc. Electrothermal, electromagnetic, and electrostatic thrusters. Analysis of space power generation, and solar collectors. (Offered alternate years; offered Winter Quarter 1971.)

CERAMIC ENGINEERING**CHG****422 Replaces 522****CIVIL ENGINEERING**

Specific areas in Civil Engineering are designated by departmental area letters. These letters must precede course numbers on the student's Official Program. Designation letters are:

CEEM Engineering Mechanics

CEHY Hydraulic Engineering

CEST Structural Engineering

CETC Transportation, Construction, and Materials Engineering

CEWA Water and Air Resources

CIVE Civil Engineering Core Courses

CORE COURSES**CHG****CIVE****390 Replaces CIVE 201, 202****CIVE****393 Replaces CEEM 293****ENGINEERING MECHANICS****NEW****CEEM****295 Dynamics Tutorial (0)**

To be taken concurrently with CEEM 291.

NEW**CEEM****296 Mechanics of Materials I Tutorial (0)**

To be taken concurrently with CEEM 292.

CHG**CEEM****470 Replaces CEEM 570****TRANSPORTATION, CONSTRUCTION, AND ENGINEERING MATERIALS****NEW****CETC****401 Highway and Traffic Engineering Functions (3)**

Historical development of highway transportation in the United States and significant legislation in development, including current federal, state, and local programs. An overall view of the functions of traffic engineering relating to planning, design, operations, administration, safety, and research. (Not approved as a technical elective for Civil Engineering students with credit for CETC 410.)

Prerequisite, senior or graduate standing in Education and Urban Planning, or permission.

**NEW
CETC**

535 Airport Systems Planning (3)
Investigation of physical, sociopolitical, and economic features of air transportation system planning. Emerging technologies. Intermodal relationships. The decision-making environment for resource allocation, land-use planning, programming, and organization. Scenarios of anticipated conflict resolution problems. Offered jointly with Urban Planning 535.

**NEW
CETC**

500 Transportation Safety—Introduction Seminar (1)

A general review of all aspects of transportation safety, utilizing special lectures that reflect federal, state, and local safety programs as well as supporting interests such as motor vehicle and driver administration, enforcement, courts, traffic engineering, insurance, and public support. Prerequisite, senior or graduate standing.

**NEW
CETC**

525 Transportation and Land Use Planning Models (3)

Theory underlying land-use and transportation planning models; past attempts to model urban development; modeling of alternatives; forecasting technological innovation and assessing its land-use implications. Offered jointly as Urban Planning 525.

**NEW
CETC**

526 Transportation Studies: Model Calibration and Network Flow (3)

Review of the organization of regional transportation studies, including functions of engineers, planners, and others. Specific examination of transportation and land-use models, as applied to transportation studies, and detailed analysis of current models in use. Application of technology of traffic assignment to transportation networks, with problems of tree building, network flow, restrictions and system optimization by computer. Prerequisite, graduate standing or permission.

WATER AND AIR RESOURCES

**NEW
CEWA**

450 Man and Pollution of His Environment (3)

Description of growing problems of air, water, and land pollution that the engineer must define and must solve if the quality of man's environment is to be maintained. This description includes the quantity and quality of present production of wastes, their known environmental effects, and practical methods of control, as well as prospects for the future. The essential team approach to these engineering problems is stressed by illustrating the interrelated nature of the physical, chemical, and biological causes and effects. Prerequisite, junior standing.

**NEW
CEWA**

566 Gas Cleaning Design I (3)

Procedures and equipment for evaluating the emissions of air pollutant sources. Principles and design of the physical and chemical processes employed in the removal of gaseous pollutants. Comprehensive design of specific processes. Prerequisite, 461.

**NEW
CEWA**

567 Gas Cleaning Design II (3)

Principles and designs of processes used to control the emission of particulate air pollutants. Relationship of design parameters to the specifications of commercially available equipment. Prerequisites, CEWA 564, CEWA 566, or permission.

ELECTRICAL ENGINEERING

CHG

301, 302 Replace 303

NEW

409 Engineering Concepts for Teachers (9)
Development of concepts required for teaching Man-Made World ECCP curriculum. Computers, models, systems evaluation, and control. Prerequisite, teaching certificate.

NEW

415 Computer-Aided System Analysis (3)
Concepts, principles, and techniques concerned with the design, testing, and application of general purpose problem-oriented computer programs for analyzing large-scale systems. Specific attention to implementation on computers. Prerequisites, General Engineering 115 and senior standing.

NEW

470 Design of Digital Data Systems (4)
Fundamental gating circuits are developed into large logic gating structures. The use of these structures in the design of central processing units, memories, and peripheral equipment is illustrated. Offered jointly with Computer Science 470. Prerequisite, permission of instructor.

CHG

501, 502 Programming Languages and Systems I, II (3,3)

Offered jointly with Computer Sciences 501, 502.

HUMANISTIC-SOCIAL STUDIES

NEW

431 Human Rights and the Governmental Process (3)

An analysis of governmental actions, particularly those by antidiscrimination legislation, designed to reduce discrimination on account of race, color, religious creed, national origin, and more recently, age and sex in various sectors of American life. The attendant issues, problems, and administrative solutions to leading cases are examined. Prerequisite, upper-division standing.

NEW

407 Thesis Guidance for Foreign Students (1, max. 3)

Individual tutorial assistance in writing problems for the foreign student preparing to write or writing a thesis in one of the engineering disciplines. Prerequisites, English 303 or HSS 265 (for foreign students) or equivalent, and permission.

NEW

461 Experience in the Arts (1)

Informal experiences with the arts through attendance at theatres, concerts, art exhibits, etc.; through discussions with creative artists; and through personal attempts at producing a "work of art." Prerequisite, upper-division standing or permission.

MECHANICAL ENGINEERING

CHG

322 Replaces 330

NEW

451 Human Factors in Design (3)

Engineering consideration of the abilities and limitations of the human operator in the design of industrial systems and components. Scope includes functional, psychological, physiological, and environmental aspects. Prerequisite, senior standing in engineering or permission.

METALLURGICAL ENGINEERING

NEW

400 Materials Science for Teachers (5)

A course designed to give junior high school and high school science teachers and science consultants a broad background in the structure and properties of solids, solid-state reactions, and phase equilibria, and in typical engineering applications of these principles.

Laboratory and discussion sections on the educational implications and applications of this material in the classroom. Prerequisite, knowledge of freshman chemistry.

NEW

423 Corrosion of Engineering Materials (3)

Applications of physical chemical principles to the reaction of materials with their environments. Prevention and control of corrosion and oxidation processes. Corrosion problems in materials applications, including chemical process industries, nuclear engineering, and marine environments. Prerequisite, Materials Engineering 250.

MINING ENGINEERING

NEW

551 Special Topics (*)

Topics of current interest and importance in the mineral industries or individual study on a subject of special interest. Prerequisite, graduate standing.

NUCLEAR ENGINEERING

NEW

477 Introduction to Radioactive Tracer Techniques (2)

To introduce the student to the basic concepts of the use of radioactive tracers in measuring the transfer between the compartments of a biological system. The theoretical analysis will be restricted to systems with no more than three compartments. The experiments are designed to permit the student to utilize the theory discussed and to make actual determinations of transfer coefficients. Offered jointly with Radiology 477. Prerequisite, permission.

**COLLEGE OF FOREST
RESOURCES**

NEW

456 Wilderness Preservation and Management (3)

A review of American wilderness philosophies, concepts, and values. Development of the Wilderness Act. Examination of current wilderness management policies, problems, trends in use, issues and controversies, wilderness research, social costs, and benefits of wilderness. Prerequisite, permission.

NEW

517 Soil Plant-Atmospheric Relations (3)

Principles of mass and energy exchange between the earth and the atmosphere with special emphasis upon the state and movement of water in soils, energy balance of the vegetated surface and individual leaves, and methods of evapotranspiration determination. Prerequisites, Mathematics 126, Physics 123, Atmospheric Sciences 329.

NEW

531 Forest Fire Science Seminar (2)

Preservation and discussion of current issues in forest fire prevention and control, and use and discussion of on-going fire research. Prerequisite, permission.

NEW

577 Wood and Fiber Science Seminar (1)

Discussion of current topics in the science of wood and its various composites in the form of composition boards, laminates, and paper. Prerequisite, permission.

COLLEGE OF PHARMACY

PHARMACY

NEW

445 Radiopharmaceutics (3)

The fundamentals of radioactivity; properties of radiation; instrumentation used in nuclear medicine; problems associated with the formulation, production, and use of radiopharmaceuticals currently used for diagnosis and therapy. Prerequisite, 333 or permission.

NEW

452 Contemporary Problems (1)

An examination of trends in the field of pharmacy as influenced by social and economic factors. The effect of changing patterns of health care on professional practice. Prerequisite, fifth year standing.

NEW

485 Clinical Pharmacy (5)

The pharmacist on the health-care team; lectures and conferences; laboratories in various clinical areas of the hospital. Students associate symptomology observed in patients with textbook descriptions of disease states, gain insight into problems of diagnosis and treatment planning, and relate disease states with complex drug therapy. Prerequisites, permission; Pharmacy 483 is recommended.

NEW

486 Clinical Pharmacy (4-10)

The pharmacist on the health-care team. Lectures, conferences, and laboratories in various clinical areas of the hospital and outpatient clinics. Students relate complex drug therapy to disease states and treatment planning. Consideration of the pharmacist's responsibilities for inpatient and outpatient care. Prerequisites, Pharmacy 485 and permission.

NEW

515 Topics in Nursing and Pharmacy (2)

Readings and discussions of assigned topics of current interdisciplinary interest in the fields of nursing and pharmacy. Subject matter changes from year to year. Offered jointly as Nursing 515. Prerequisite, permission.

PHARMACOLOGY

CHG

412 Replaces 312

CHG

413 Replaces 313

CHG

414 Replaces 314

GRADUATE SCHOOL

COMPUTER SCIENCE

NEW

470 Design of Digital Data Systems (4)

Fundamental gating circuits are developed into large logic gating structures. The use of these structures in the design of central processing units, memories, and peripheral equipment is illustrated. Offered jointly with Electrical Engineering 470. Prerequisite, permission of instructor.

NEW

501 Programming Languages and Systems I (3)

Discussion of computer languages; machine language, assembly language, problem-oriented languages. Manipulation of symbols and strings. Formal definition of computer languages. Prerequisite, 478 or permission. (Offered jointly with Electrical Engineering 501.)

NEW

502 Programming Languages and Systems II (3)

Basic concepts and design of interpreters, assemblers, compilers, and operating systems for digital computers. Prerequisite, 501. (Offered jointly with Electrical Engineering 502.)

NEW

541 Computer Measurements and Evaluation Techniques (3)

Viewpoints, problems, and techniques in assessment of computer systems and subsystems. Selection of models, analysis, simulation, and instrumentation, with problem assignments making use of computers available on campus. Prerequisite, 478, Electrical Engineering 478, or permission.

NEW

551 Operating Systems (3)

Description of design of operating requirements and design criteria for batch processing, real time, and time-sharing systems. Practical exercises and illustrations using Computer Science Research Facility. Prerequisite, 502 or permission.

NEW

574 Artificial Intelligence II (3)

Continuation of studies of artificial intelligence systems, emphasizing theorem proving, symbolic problem solving, pattern recognition, and natural language data processing. Students will be required to do projects. Prerequisite, 573 or permission of instructor.

GEOPHYSICS

NEW

520 Seminar (1-2)

Review of current literature in geophysics and graduate student research with faculty participation. Prerequisite, graduate standing.

SCHOOL OF LIBRARIANSHIP

NEW

555 History of Children's Literature (3)

Literature for children from the earliest times through the nineteenth century. Consideration of significant qualities in the cultural context of the time, with attention given to representative authors and titles. Prerequisites, 451 or 550, and 554.

NEW

590 Special Topics in Librarianship (3)

Seminar dealing with various topics in librarianship. To be offered by visitors or resident faculty. Topics will change from quarter to quarter. May not be offered every quarter. May be repeated for credit. Prerequisite, permission.

INTERSCHOOL OR INTERCOLLEGE PROGRAMS

BIOENGINEERING

NEW

299 Introduction to Bioengineering (1)

The scope of bioengineering will be presented for purposes of orientation by means of video tapes or motion pictures (about one-half hour) followed by presentation of problems and informal discussion to illustrate the nature and diversity of applications of engineering disciplines to biology and medicine.

QUANTITATIVE SCIENCE

NEW

291, 292 Analysis for Biologists (3, 3)

Differentiation; integration including multiple integrals and partial derivatives. Numerical and computing techniques in analysis. Emphasis on biological problems, particularly in ecology. Prerequisites, Mathematics 105 for 291; 291 or Mathematics 124 for 292.

NEW

491 Systems Analysis in Resource Management (4)

Nature of systems; systems goals and objectives; models; transformation of inputs to outputs; control systems; information; survey of methods of optimization; general systems; comparative systems; fishing systems; design and analysis of actual systems. Prerequisites, Mathematics 124.

QUATERNARY STUDIES

CHG

QUAT 501 Replaces GEOL 501

NEW

502 Interdisciplinary Quaternary Investigations (2-6)

Course provides for individual or group work that cuts across departmental boundaries.

UNIVERSITY CONJOINT

NEW

410 Study of Interdisciplinary Evaluation and Management of Handicapped Children (3)

Multidisciplinary study of handicapped children, including identification of children with problems, clinical assessment by a multidisciplinary team, formulation of plans for management, and reassessment in terms of progress made. The primary emphasis in this course will be on the mentally handicapped child. Prerequisite, permission. (Course offered cooperatively by Dentistry, Education, Home Economics, Nursing, Pediatrics, Psychiatry, Psychology, Social Work, and Speech.)

GRADUATE SCHOOL OF PUBLIC AFFAIRS

PUBLIC POLICY

NEW

561, 562 Urban Politics and Administration (3, 3)

A two-quarter graduate course in the structures, functions, and processes of government in cities, with special emphasis on the origin, content, and implementation of public policies. Major focus is on the political process at the municipal level: the distribution of influence, the political actors, the decision-making machinery, and the policy outputs. Of special interest to graduate and professional students preparing for careers in urban government. Prerequisites, Public Administration 501, 502 or Political Science 584, 585, or equivalent.

NEW

565 Seminar in Urban Public Policy Analysis (3)

The use of methodology from Public Administration, Political Science, and Economics to examine urban public policies. Emphasis on the relationships between research and public policy. Topic announced in advance. Prerequisites, Economics 416, Political Science 584, Public Policy 560, and permission.

SCHOOL OF DENTISTRY

OPERATIVE DENTISTRY

CHG

500 Replaces 563

CHG

520 Basic Principles of Operative Dentistry (4) Replaces -592 Teaching Training (-1-3)

NEW

521 Teaching and Administration of Technic Courses in Operative Dentistry (4)

Study of course content, organization and presentation, laboratory procedures, teaching aids, and textbook selection. Consideration is given to professional responsibility for promotion and maintenance of high standards of dental health care. (Alternates with 522.)

NEW

522 Teaching and Administration of Clinic Courses in Operative Dentistry (4)

Selection of standards of performance and evaluation of teaching methods to promote student achievement. Discussion of public relations, legal, ethical, and executive responsibilities involved in administering an undergraduate dental operator. (Alternates with 521.)

CHG

523 Teaching Observation (1, max. 6) Replaces 590- Teaching Training (1-3-)

CHG

524 Teaching Practice (4, max. 12) Replaces -591- Teaching Training (-1-3-)

CHG

530 Replaces 565

NEW

550 Clinical Operations (1-4, max. 20)

Clinical procedures in all phases of operative dentistry; varied clinical experience under supervision.

CHG

571 Resin and Other Interim Restorations (2) Replaces 561 Plastics as Restorative Materials (4)

CHG

572 Dental Amalgam Restorations (3) Replaces 567 Operative Dentistry Literature Review (2)

CHG

573 Cast Gold Restorations (3) Replaces 568 Operative Dentistry Literature Review (2)

CHG

590 Special Studies (*) Replaces 570 Principles of Dental Practice (2)

ORAL BIOLOGY

NEW

200 Dental Caries (1)

An integrated treatment of the anatomical, microscopic, ultrastructural, biochemical, and microbiological aspects of dental caries, together with discussions concerning the current theories of etiology and the contributing factors of this disease. Prerequisite, 431 or equivalent.

NEW

500 Dental Caries (2-3)

A series of lectures outlining the morphological, biochemical, and microbiological aspects of dental caries with the additional requirement of participation in a seminar for purposes of review of the current literature and discussion of research in this field. Prerequisite, permission.

NEW

560 Biomineralization (2)

A series of lectures outlining the current state of knowledge concerning the formation and metabolism of mineralized tissues of the human body, with particular emphasis on the hard tissues of the tooth and alveolus. Prerequisite, permission.

NEW

565 Comparative Odontology (2)

A broad view of the dentition in terms of its evolution and its morphologic, functional, and ecological relationships. Prerequisite, permission.

NEW

570 Oral Facial Development (2-3)

The embryological development of the tissues and organs of the human face and oral regions. Contribution of embryonic primordia to adult structures will be studied. Mechanisms resulting in abnormal development will receive special emphasis. Prerequisite, permission.

NEW

581 Biological Structure and Functions of Exocrine Glands (1-3)

The development and structure of the salivary glands will be traced in a number of mammalian species. Morphologic details will be related to function. The effect of environment on morphology will also be shown. Prerequisite, permission.

NEW

582 Physiology of Exocrine Glands (3)

The autonomic innervation of salivary glands. The action of drugs, changes in blood flow

and metabolism during activity as well as the processes involved in the transport of water and electrolytes through the glands will be explored in depth. Prerequisite, permission.

NEW

583 Biochemistry of Exocrine Glands (2)

Survey of the protein products synthesized and secreted by exocrine pancreas and salivary glands. Structure-function relationships of the digestive enzymes and other proteins secreted by these glands will be examined. The biochemical events of biosynthesis, transport, and secretion will be explored and the relationship of pancreatic and salivary heteroenzymes will be discussed. Prerequisite, permission.

ORTHODONTICS

NEW

301-302 Orthodontics (0-1)

This course is designed to provide a clinical background in orthodontics diagnosis and treatment planning. The student will be required to participate in graduate-level seminars from 7:30 to 8:30 a.m. and clinical examination and treatment planning from 8:30 to 11:30 a.m. Prerequisites, 300 for 301; 301 for 302.

PERIODONTICS

NEW

560 Morphology of the Periodontium (1)

Study of the structure of the periodontium. This course is designed to correlate closely with 599. Prerequisite, permission.

NEW

561, 562, 563 Periodontal Case Management (1, 1, 1)

A didactic presentation of clinical periodontics to provide a comprehensive view of the field and a grasp of modern therapeutics.

SCHOOL OF MEDICINE

ANESTHESIOLOGY

NEW

481 Advanced Anesthesiology Clerkship (6)

This course is designed to meet the specific needs and goals of the individual student who desires greater exposure to anesthesiology. Individual programs are arranged with the student's interest in mind, including the areas of respiratory care, regional anesthesia, obstetrical anesthesia, and dolorology. Full time for four weeks. Prerequisite, 480.

BIOCHEMISTRY

CHG

540, 541, 542 Replace 519

BIOMEDICAL HISTORY

NEW

421 The Theory of Evolution in Historical Perspective (3)

A detailed examination of the development of the theories of organic evolution from antiquity to the present, emphasizing the eighteenth and nineteenth centuries. The works of Buffon, Cuvier, Lamarck, Darwin, and Mendel will be considered, in addition to those of lesser figures.

NEW

422 Revolutions in the Biomedical Sciences (3)

Major shifts in biological concepts, interpreted as paradigm revolutions. Under consideration will be the theory of the circulation of the

blood, the theories of generation in the seventeenth and eighteenth centuries, the germ theory of disease, and the theory of organic evolution, among others.

NEW

423 History of Biological Classification (3)

A detailed examination of biological classification in historical perspective. Emphasis will be given to the philosophical foundations of the discipline in antiquity and to the subsequent development of biological classification since the Renaissance. Attention will be paid to such problems as the conflict over the Natural System, the impact of evolutionary concepts on classification, and the historical and philosophical background of contemporary disputes in taxonomy.

NEW

600 Independent Study or Research (*)

Independent study or research in biomedical history. Prerequisite, permission.

NEW

700 Thesis (*)

Prerequisite, permission.

CONJOINT

CHG

505 Histochemical and Cytochemical Methods (3) Replaces Path 505, 506

Introduction to principles and techniques of tissue fixation, sectioning, and staining; theory and application of histochemical methods for carbohydrates, lipids, nucleic acids, minerals, and proteins, including enzyme histochemistry and fluorescent antibody methods. Prerequisites, Human Biology 410 and permission.

MICROBIOLOGY

NEW

236 Microbiology Laboratory for Students of Dentistry (2)

A laboratory and demonstration course in medical microbiology designed to supplement the laboratory exercise given with 235 and intended for second-year dental students with a special interest in microbiology. Prerequisite, permission.

ORTHOPEDICS

NEW

477 Musculoskeletal Trauma (6)

Open to medical students who have completed the basic curriculum. Teaching will be at Harborview Medical Center, where a large amount and considerable variety of trauma to the musculoskeletal system is treated. First-hand experience in the Emergency Room and Trauma Center, in the wards, the Operating Room, and with outpatients will be available. Emphasis will be placed on the examination of the patient and the eliciting of clinical signs. Prerequisite, Human Biology 460. Four weeks, full time.

NEW

478 Pediatric Orthopedics and Musculoskeletal Trauma Combined (*)

Open to medical students who have completed the basic curriculum. Time will be divided equally between Harborview Medical Center and Children's Orthopedic Hospital and Medical Center. Four weeks, full time. Prerequisite, Human Biology 460.

NEW

481 Correlative Pathology of the Musculoskeletal System (1/2)

A review of the pathology of the musculoskeletal system as it involves common clinical problems. Prerequisite, Human Biology 460 or Surgery 465. Required course with Orthopedics 475, 476, 477, 478, 480, or 481. No additional credit given with clerkships. One one-and-one-half-hour conference weekly for four weeks.

NEW

482 Correlative Anatomy of the Musculoskeletal System (1/2)

Review of gross anatomy relating to the clinical problems affecting the musculoskeletal

system; an anatomic, clinical, and radiologic correlation of disease processes. Prerequisite, Human Biology 460 or Surgery 465. Required course with Orthopedics 475, 477, 478, 480, or 481. No additional credit given with clerkships. Two one-and-one-half-hour conferences weekly.

NEW

483 Surgical Management of Joint Disease (1)
An introduction to the principles and techniques of reconstructive surgery utilized in acute and chronic joint disease. Special emphasis will be placed on the diagnosis and evaluation of functional deficits amenable to surgical reconstruction. Prerequisite, 478. One three-hour conference weekly for four weeks.

OTOLARYNGOLOGY

NEW

484 Otolaryngology Clerkship (4½)
The student will participate in evaluation and care of outpatients and inpatients at Harborview Hospital, and he will assist in surgery. In addition, he will attend department conferences at both Harborview and University Hospitals in conjunction with department training. Prerequisite, permission.

NEW

496 Otolaryngology Seminar (1)
An advanced course on diseases of the ear, nose, and throat intended for those physicians interested in the field in more depth than provided in the core. Open to sophomore, junior, and senior medical students. Prerequisite, Human Biology 431.

NEW

497 Otolaryngology Rounds (1)
Weekly rounds are held alternately at the University Hospital and the U.S. Public Health Service Hospital, during which the most interesting cases seen at the University and affiliated hospitals are seen and discussed. Prerequisite, Human Biology 431 or equivalent.

PATHOLOGY

NEW

471 Neuroanatomic Pathology (2½)
The particular diseases occurring in specific parts of the nervous system are considered in terms of the segmental (motor, sensory, and association plates), intersegmental (reticular formation) and suprasegmental (cerebellum, colliculi, and forebrain) components. Clinicopathologic correlations are emphasized. Prerequisite, Human Biology 432.

NEW

472 Neuropathologic Reactions (2½)
The reactions of the nervous system, only more or less similar to those of other organs of the body as summarized in the course in general pathology, are considered in terms of congenital malformations, inflammations, vascular, traumatic, metabolic-toxic-degenerative, and neoplastic diseases peculiar to the nervous system as a whole. Clinicopathologic correlations are emphasized. Prerequisite, Human Biology 432.

PEDIATRICS

NEW

410 Community Night Clinics (2)
Students would attend two night clinics each week for youth with medical and social problems related to adjustment in society. Clinics such as J.U.M.P. (located in FOCUS office—Fellowship of Christian Urban Service) for young drug users; First Avenue Hustler (male prostitute) rehabilitation and counseling service clinic; and other similar clinics. Prerequisite, Human Biology 460.

NEW

451 Pediatric Electrocardiography (1)
Theory and practice of electrocardiography will be reviewed in seminars. Electrocardiograms from children will be read by the student and reviewed with the appropriate faculty member. Prerequisite, Human Biology 440.

PHARMACOLOGY

NEW

442 General Pharmacology (3)
A study of drugs acting on the autonomic nervous and cardiovascular systems. Emphasis will be placed on physiological and biochemical mechanisms; consideration of their therapeutic and adverse effects will be discussed. Prerequisites, 441 or Human Biology 440 or permission.

NEW

443 General Pharmacology (2)
Lectures and discussions on the pharmacology of the kidney, gastrointestinal tract, endocrine system, and chemotherapy of parasitic, microbial, and neoplastic disease. Prerequisite, 441 or Human Biology 441 or permission.

NEW

444 General Pharmacology (3)
Advanced elective neuropsychopharmacology as a basis for therapeutic applications of drugs for use in neurology, psychiatry, and anesthesiology. Neuropharmacological and psychopharmacological correlates will be presented with clinical demonstration material, where applicable and available, in an attempt to understand drug choice, efficacy, mechanism of therapeutic action, drug interactions, safety, and limitations of therapeutic effectiveness. Prerequisite, 441 or Human Biology 432 or permission.

PHYSICAL MEDICINE AND REHABILITATION

NEW

340 Spinal Orthotics (3)
Instruction in, and experience with, the use of orthotic components and materials, including the layout, measurement, and fitting of orthoses for management of spinal pathology. Each student plans, fabricates, and fits orthoses for lumbar, dorsolumbar, thoracic, and cervical regions. Required for prosthetic-orthotic majors; others by permission.

NEW

341-342 Upper Extremity Prosthetics I, II (6-5)
Instruction in, and experience with, the use of prosthetic components and materials, including preprosthetic care, prosthetic components, principles of fabrication and harnessing, and techniques of check-out and prosthetic training for all amputation types. Required for prosthetic-orthotic major; others by permission.

NEW

343 Upper Extremity Orthotics (9)
Instruction in, and experience with, the use of orthotic components and materials. Students will evaluate and fabricate therapeutic and functional orthoses, including externally powered devices. Required for prosthetic-orthotic majors; others by permission.

NEW

420 Lower Extremity Prosthetics I (6)
Instruction in the fabrication, fitting, and alignment of the patellar-tendon-bearing prosthesis. Emphasis is placed on the biomechanics of below-knee fit and alignment, dynamic alignment, and the use of the below-knee adjustable leg and duplication devices, as well as methods of suspension. Required for prosthetic-orthotic majors; others by permission.

NEW

421 Lower Extremity Prosthetics II (11)
Instruction in stump casting, cast modification, socket fabrication, static and dynamic alignment, alignment duplication, and suspension systems. Required for prosthetic-orthotic majors; others by permission.

NEW

422 Lower Extremity Prosthetics III (6)
Instruction in, and experience with, the use of prosthetic components and materials, including casting techniques and alignment procedures used for hip disarticulation patients and the Symes prostheses. Required for prosthetic-orthotic majors; others by permission.

NEW

423 Lower Extremity Orthotics (11)
Instruction in, and experience with, the use of orthotic components and material, including the measurement and fitting of lower extremity orthoses and shoe modifications to patients. Each student will evaluate patients and plan, fabricate, fit, and check out several orthoses. Required for prosthetic-orthotic majors; others by permission.

NEW

424 Special Problems in Orthotics (2)
Instruction in alignment of mobile arm supports and control of devices by photoelectric cells, artificial muscles, pistons, and motors. The design of special adaptive devices as aids to daily living for the physically handicapped. Required for prosthetic-orthotic majors; others by permission.

NEW

425 Child Amputee Prosthetics (3)
Instruction in, and experience with, the use of special prosthetic components and materials, including the measurement and fitting of the patient who has congenital anomalies. Required for prosthetic-orthotic majors; others by permission.

NEW

426 Special Problems in Prosthetics (2)
Instruction in fitting and alignment techniques in amputees with flexion contractures, use of hydraulics and special components, wheel chairs and ambulation aids. Required for prosthetic-orthotic majors; others by permission.

NEW

427-428 Applied Prosthetics-Orthotics (4-7)
Further clinical experience in patient evaluation and in planning, fabricating, and fitting of prosthetic-orthotic devices; attendance at prosthetic-orthotic clinics at the University Hospital and affiliated Seattle hospitals; experience in immediate postoperative prosthetics. Required for prosthetic-orthotic majors; others by permission.

CHG

451, 452 Replace 451

NEW

453 First-Year Clinical Elective in Physical Medicine and Rehabilitation (3)
This course will emphasize comprehensive evaluation of the patient, his disability, and the interaction of the patient and his disability with his environment. Experience in the use of physical therapy for various disabilities, discussion of the psychological aspects of disability, and the evaluation of the patient for ability to function will be included. Prerequisite, medical student.

NEW

454 Second-Year Clinical Elective in Physical Medicine and Rehabilitation (18)
Special emphasis on the techniques of eliciting historical and physical evidence of ability of the patient to function in his environment. Topics will include transfer abilities, normal and abnormal gait, reambulation, communication disorders, modalities in physical medicine, psychological aspects of disability, learning aspects in chronic disease, vocational evaluation, principles of physical and occupational therapy, educational problems of the disabled, neuromuscular electrodiagnosis, braces and prosthetics. Patients with stroke, amputation, spinal cord injury, arthritis, and multiple disabilities appropriate with his level will be assumed by the student. Ten weeks full time. Completion of neurological and musculoskeletal systems required. Not open to students who have completed first-year clinical elective in Physical Medicine and Rehabilitation.

NEW

456 Clinical Biomechanics and Kinesiology (3)
The physical and mechanical properties of the musculoskeletal system will be discussed. Mechanical principles used in the functional re-

placement utilizing ambulation aids, braces, and prostheses will be reviewed. Emphasized will be the basic understanding of the biomechanical principles involved, as well as discussion of the clinical application. Prerequisite, third-year medical student.

CHG

463 Replaces 463-464

NEW

486 Basic Physical Medicine and Rehabilitation (4)

A combined outpatient, inpatient, and consultation experience, in which the human organism is studied as a social being. The concept of disease is broadened to include the external environment. The student will learn the functional consequences in the environment of disease or impairment, the need for modifying the environment to support maximal function, and the impact of the illness or disability on the people around the patient in his environment. The concern is with the relationship of disability to work, social functioning, and leisure time. Prerequisites, Human Biology 460. Not open to students who have had 454.

NEW

487 Physical Medicine and Rehabilitation Clerkship: Medical (9)

A clerkship experience for medical students in the specific rehabilitation approaches for the various "nonsurgical" diseases. Designed primarily for those interested in the medical, i.e., nonsurgical, specialties and tailored to the individual student's requirements. Prerequisite, Human Biology 460.

NEW

488 Physical Medicine and Rehabilitation Clerkship: Surgical (9)

A clerkship experience for medical students in the specific rehabilitation approaches for the various surgical problems. Designed primarily for those interested in the surgical specialties and tailored to the individual student's requirements. Prerequisite, Human Biology 460.

NEW

522 Physical Medicine and Rehabilitation (2)
A review of traditional neurophysiological concepts and an exposition of recent advances in neurophysiological research related to the practice of physical medicine. The mechanisms underlying facilitation techniques and other techniques used in neuromuscular re-education will be elucidated, and various techniques will be compared and evaluated. Prerequisites, Resident M.D. status and permission.

NEW

532 Clinical Affiliation for Rehabilitation Counselors (5-6)

Under the general preceptorship of the rehabilitation counseling professional staff, the student counsels patients who have severe physical and/or emotional problems, arranges for vocational testing and placement on job stations, and works with community resources in planning for vocational placement after followup. Prerequisite, permission.

PHYSIOLOGY AND BIOPHYSICS

NEW

420 Quantitative Methods in Physiology and Biophysics (3)

Selected areas in physiology where applications of physics and mathematics are useful and necessary to analyze biological function will be presented. Prerequisite, differential equations or permission.

PSYCHIATRY

NEW

449 Principles of Research in Psychopathology (2)

Review of current literature on selective aspects of personality deviation. Theoretically relevant research on the functional psychoses will be stressed. Open to medical students and to advanced undergraduate students with an equivalent of an introductory or abnormal psychology course. Prerequisite, permission.

NEW

457 Theory of Learning and Behavior Modification (2)

This course will present the theory and technique of behavior modification as they are applied to behavioral adjustment problems of adults and children. Open to second-, third-, or fourth-year medical students. Prerequisite, Human Biology 433.

NEW

461 Workshop on Suicide and Crisis Intervention (1)

After a presentation of current theories on crisis, suicide, and crisis intervention, students will have an opportunity to learn and to practice various techniques of intervention at the emergency room of Harborview Hospital. Open to second-, third-, or fourth-year medical students or graduate students. Prerequisite, Human Biology 433.

NEW

470 Chemical Aspects of Behavior (2)

Behavior from the point of view of biochemistry and physiology, e.g., some genetic aspects of behavior, aberrant biochemistry and disease, brain biochemistry, learning and biochemistry, brain substances and drugs, and behavior. Open to third- and fourth-year medical students. Prerequisite, permission.

RADIOLOGY

NEW

460 Basic Radiology Clerkship (1)

A basic clerkship in both diagnostic and therapeutic radiology designed to familiarize with clinical radiology and to expand and to demonstrate application of knowledge acquired during Autumn and Winter Quarter basic courses. Prerequisite, first-year Autumn and Winter Quarters of basic curriculum.

NEW

477 Introduction to Radioactive Tracer Techniques (2)

To introduce the student to the basic concepts of the use of radioactive tracers in measuring the transfer between the compartments of a biological system. The theoretical analysis will be restricted to systems with no more than three compartments. The experiments are designed to permit the student to utilize the theory discussed and to make actual determinations of transfer coefficients. Offered jointly as Nuclear Engineering 477. Prerequisite, permission.

NEW

496 Nuclear Medicine Clerkship (3 or 6 or 9)

The student will participate daily in the Radioisotope Clinical Laboratory where diagnostic studies of various types are performed. He will have some responsibility for examining patients, will assist in the procedures, and will also be expected to assist in examination and consultation of referred patients, attend daily clinical report rounds, and participate in the clinical ward rounds of the division. Prerequisite, Surgery 465 or Human Biology 460.

NEW

497 General Radiology Clerkship (6)

Four-week clerkship offering combined experience in diagnostic radiology, radiotherapy, and nuclear medicine. Prerequisite, completion of third year of medicine.

CHG

503- Replaces 501L-

CHG

-504 Replaces -502L

CHG

505 Replaces 504

SURGERY

NEW

481 Peripheral Vascular Disease (4½)

This course will offer an intensive, in-depth look at peripheral arterial and venous problems. This will include (a) methods of clinical evaluation; (b) new diagnostic procedures;

and (c) the available methods of treatment. The emphasis will be on active student participation in patient workup, performance of diagnostic studies, and presentation of case material to the staff. Two seminars will be held weekly with the staff to discuss the pathophysiology of vascular disease. Texts will be provided on a loan basis to the students. These will cover the entire field and should serve as useful source material for the student. Prerequisite, hospital clerkship.

NEW

483 Pediatric Surgery (9)

Students participating in the elective clerkship of pediatric surgery will be based primarily at the Children's Orthopedic Hospital and Medical Center. Instruction will stress surgical conditions peculiar to the pediatric age group. There will obviously be a preponderance of various congenital and neoplastic conditions which are amenable to surgical treatment. It is desirable, therefore, that students who plan to take this elective prepare themselves by acquiring a reasonable background of knowledge in human embryology and genetics. Prerequisite, surgery clerkship.

NEW

484 Trauma and Emergency Care (4½)

Students who have completed the basic clinical clerkship will be assigned full time (five eight-hour periods per week) to either the Harborview Hospital or the University Hospital Emergency Department. Patients with acute illnesses or trauma will be evaluated and treated in the initial evaluation clinic and the emergency room. Weekly seminars with the surgical faculty will cover the subjects of resuscitation, shock, trauma, and major and minor surgical emergencies. Reading reference material and programmed self-instructional material will be provided. Prerequisite, hospital clerkship.

UROLOGY

NEW

460 Introduction to Fluid Mechanics of the Urinary Tract (1)

A ten-hour lecture-demonstration course in the fundamentals of fluid properties and mechanics, showing how they apply to the function of the urinary system in particular and of the biologic systems in general. Mathematical background not required. Prerequisite, Human Biology 451.

REQUIRED PERMISSION SIGNATURES

WINTER QUARTER 1970

In order to register for the following courses, the student must obtain a permission signature on his Official Program from the persons listed.

Some departments, schools, or colleges have general permission requirements applicable to many courses. These requirements are also listed.

Note: A slash (/) between names indicates that either party may grant permission.

Abbreviations:

DEPT Permission required from a member of the *department* teaching the course

DEPT ADV Permission required from the *adviser* of the department teaching the course

ASHP Permission required from the *Arts and Sciences Honors Program* office

INSTR Permission required from the *instructor* of the course
